The GCBME Book Series aims to promote the quality and methodical reach of the Global Conference on Business Management & Entrepreneurship, which is intended as a high-quality scientific contribution to the science of business management and entrepreneurship. The Contributions are expected to be the main reference articles on the topic of each book and have been subject to a strict peer review process conducted by experts in the fields. The conference provided opportunities for the delegates to exchange new ideas and implementation of experiences, to establish business or research connections and to find Global Partners for future collaboration. The conference and resulting volume in the book series is expected to be held and appear annually. The year 2019 theme of book and conference is "Transforming Sustainable Business In The Era Of Society 5.0". The ultimate goal of GCBME is to provide a medium forum for educators, researchers, scholars, managers, graduate students and professional business persons from the diverse cultural backgrounds, to present and discuss their research, knowledge and innovation within the fields of business, management and entrepreneurship. The GCBME conferences cover major thematic groups, yet opens to other relevant topics: Organizational Behavior, Innovation, Marketing Management, Financial Management and Accounting, Strategic Management, Entrepreneurship and Green Business.

Human Factors, Business Management and Society Proceedings of the 13th International Conference on Applied Human Factors and Ergonomics (AHFE 2022), July 24–28, 2022, New York, USA

Family Business Debates provides a novel, ground-breaking approach to diverse and contemporary topics in current business management research, focusing on family enterprises to study both the positive and negative aspects of such commercial structures.

This book is an important contribution to the field of international entrepreneurship. . . it provides a comprehensive account of internationalization strategies adopted by SMEs in a wide range of European countries, and by drawing on a number of empirical studies, it enriches the theory of SME internationalization with a new theoretical framework that can be useful for understanding the complexity of SME internationalization processes in Europe. Julia Korosteleva, Thunderbird International Business Review From Andorra to Wales with stops in more than 35 other European countries along the way, this comprehensive collection of articles is required reading for scholars interested in international entrepreneurship. It provides information on how entrepreneurs and their firms go international from virtually every country in Europe. This unique volume permits researchers to compare how the process of entrepreneurial internationalization is affected by differences in culture, location, technology, and other influences within Europe. Furthermore, the various authors consider a range of theoretically important issues, such as cooperation and trust, venture capital, research and development, learning, networks, and government policy. This book serves as an essential departure point from which scholars can embark on their study of international entrepreneurship in Europe. Benjamin M. Oviatt, Georgia State University, US This is a timely and interesting book that brings together some of the most insightful contributions on the internationalization of new ventures, with an emphasis on the European experiences. Assembling some of the best scholars, the book offers a distinctively European perspective one that deserves recognition, analysis, and discussion. I applaud the editors for doing such a masterful job in bringing a great group of researchers and ideas together. I highly recommend this book for any serious researcher and scholar. Shaker A. Zahra, University of Minnesota, US This remarkable book provides valuable contributions on how the process of SMEs internationalization is operating in 37 different European countries. Researchers in international entrepreneurship will find new materials for theorization. Numerous facets of international business are carefully documented by a great many well-known scholars. Also, given the variety of situations typical of the European small business sector, the book may prove to be helpful to small-scale entrepreneurs wishing to take steps towards internationalization. Overall, this coordinate work makes you realize why Europe is so fascinating. Jean-Jacques Obrecht, University Robert Schuman, Strasbourg, France This unique comparative study of the internationalization of small firms is a milestone in international business research. It compares the internationalization strategies of fast-growing firms across nearly forty different European countries. It shows that the growth trajectories of firms reflect the investing country's geographical location, natural resource endowments, legal and financial institutions and local culture. There are many important new insights to be gained from a careful study of this important new research resource. Mark Casson, University of Reading, UK This unique Handbook illustrates how entrepreneurs across Europe tackle internationalization. This timely and important book identifies patterns and builds a theory of international entrepreneurship in Europe. The contributors discuss the performances of SMEs on the road to internationalization. Each chapter emphasizes how the process of internationalization of SMEs operates, the challenges and opportunities that arise due to each country's specific political and economic situation, and their subsequent internationalization performance. These processes, challenges and performances can be understood through theories of international business and entrepreneurship. Although at times these theories cannot fully

Journal of Social Sciences (COES&RJ-JSS) is an open access, double-blind, peer-reviewed and refereed journal published by Center of Excellence for Scientific & Research Journalism (COES&RJ LLC.), USA. The main objective of COES&RJ-JSS is to provide an intellectual platform for the international scholars. COES&RJ-JSS aims to promote interdisciplinary studies in humanities and social science and become the leading journal in humanities and social science in the world. The journal is published quarterly, in both print and online versions. COES&RJ-JSS publishes original papers, review papers, conceptual framework, analytical and simulation models, case studies, empirical research, technical notes, and book reviews. Special Issues devoted to important topics in humanities and social science will occasionally be published.

This book provides cutting edge research and knowledge and an academic study of the impact of globalisation in different areas affecting management and how management is responding. It gives a comprehensive analysis of what is actually happening and likely future trends. It is not just a focus on 'convergence' arguments, but integrates a broader view of still remaining regional and national differences in management and organisation. The book draws on new theoretical approaches in the field of international business, highlighting areas such as Anglo-German subsidiaries of MNCs, HRM practices and change management processes or employment relations in US-based MNCs in Europe and many other aspects.

This book offers a contemporary review of talent retention from the viewpoint of human resource management and industrial/organisational psychology. With a practical and relevant perspective it enriches critical knowledge and insight in the psychology of talent retention. It offers interpretation of difficult factors facing organisations such as the conceptualisation of talent, the forecasting of talent demand and supply, external and internal factors that influence talent attraction, development and retention, the alignment between talent management and business strategy. Also covered is the implementation of human resource practices and strategies in response to the needs of different organisational contexts and workforce characteristics. The chapter contributions will not only enrich knowledge and insight in the complex phenomenon of talent retention, but also advance new original ways of thinking and researching this critically important area of inquiry. The book is intended for graduate students and researchers as an overview of the topic of talent retention, practitioners will also find it informative.

In an increasingly complex, competitive, and global world, organizations require highly skilled professionals who have the capacity to proactively answer challenges. Thus, educational institutions must update the curricula of their courses to better contribute to the training and development of professionals in order to ensure that they are prepared to face increasing levels of organizational competitiveness. Higher Education and the Evolution of Management, Applied Sciences, and Engineering Curricula is a collection of innovative research that fosters discussion on the evolution of higher-education in management, applied sciences, and engineering with an emphasis on curriculum development, pedagogy, didactic aspects, and sustainable education. This publication presents models, theories, and tools that allow individuals to take a more strategic role in their organizations. It is ideally designed for managers, engineers, human resource officials, academicians, researchers, administrators, and lecturers.
