Fredrik deBoer
exposes the lie
at the heart of
our educational
system and
demands top-to-

Everyone agrees
that education

our schools are
broken and
failing.

Proposed reforms
variously target

no one acknowledges a scientifically-proven fact that we all understand intuitively: Academic potential varies between individuals, and cannot be dramatically improved. In The

Cult of Smart,
educator and
outspoken
leftist Fredrik
deBoer exposes
this omission as
the central flaw
of our entire
society, which
has created and
perpetuated an
unjust class
structure based

ability. Since
cognitive talent
varies from
person to
person, our
education system
can never create
equal
opportunity for
all. Instead, it
teaches our
children that
hierarchy and
competition are

natural, and
that human value
should be based
on intelligence.
These ideas are

manifesto
demands that we
embrace a new
