This fascinating story explores the dimensions of friendship and family, of loyalty and love ... among people who are essentially good and caring, and generally wanting to do the right thing. But no one is perfect. Alan Colmar had been at a crossroads. Again. His third wife, Sylvie, rescued him from the wildness of his earlier personal life, which he carried into his 40s, while maintaining his successful career as a graphic designer. In his late 50s, she now was gone - a staggering blow. His commitment to his career, and the company he co-owns with his partner, was wavering. And, he was so alone. A divorced magazine reporter, Carol Buley, interviews him for an article on how men recover from losing a wife. They become friends; he meets her two adult children who quickly come to adore him. Alan's and Carol's relationship grows despite some uncertainty. Individually and collectively, Carol's

"Disney is so good at being good that it manifests an evil; so uniformly efficient and courteous, so dependably clean and conscientious, so unfailingly entertaining that it's unreal, and therefore is an agent of pure wickedness. . . . Disney isn't in

the business of exploiting Nature so much as striving to improve upon it, constantly fine-tuning God's work." --from TEAM RODENT TEAM RODENT How Disney Devours America "Revulsion is good. Revulsion is healthy. Each of us has limits, unarticulated boundaries of taste and tolerance, and sometimes we forget where they are. Peep Land is here to remind us; a fixed compass point by which we can govern our private behavior. Because being grossed out is essential to the human experience; without a perceived depravity, we'd have nothing against which to gauge the advance or decline of culture; our art, our music, our cinema, our books. Without sleaze, the yardstick shrinks at both ends. Team Rodent doesn't believe in sleaze, however, nor in old-fashioned revulsion. Square in the middle is where it wants us all to be, dependable consumers with predictable attitudes. The message, never stated but avuncularly implied, is that America's values ought to reflect those of the Walt Disney Company, and not the other way around." BONUS: This edition includes an excerpt from Carl Hiaasen's Bad Monkey.

From its beginning as a military installation in the Second Seminole War through the postwar booms of the 20th century, Fort Myers has had its share of famous residents and heroes, from Thomas A. Edison to Olympian Al Oerter, from musician Billy Nalle and football Hall-of-Famer Deion Sanders to world-renowned artist Robert Rauschenberg. But beyond being the winter home of such famous residents as the Edisons and Fords, the City of Palms has been fertile ground for local legends, both admirable and notorious. County commissioner "Wild Bill" Towles burned down the county courthouse so he could build a modern one--and got lots of help. Plucky 10-year-old Margaret Mickle set out in a rowboat and got a private meeting with a former president of the United States on demand. Nurse LaVeta Allen defied Jim

Crow laws to save the life of a black woman, knowing it would get her fired. Such are the raucous, comical, and touching histories of those who made a difference in Fort Myers.

John Wallis (1616-1703), was one of the foremost British mathematicians of the seventeenth century, and is also remembered for his important writings on grammar and logic. An interest in music theory led him to produce translations into Latin of three ancient Greek texts - those of Ptolemy, Porphyry and Bryennius - and involved him in discussions with Henry Oldenburg, the Secretary of the Royal Society, Thomas Salmon and other individuals as his ideas developed. The texts presented in this volume cover the relationship of ancient and modern tuning theory, the building of organs, the phenomena of resonance, and other musical topics.
