Facing Violence: Preparing for the Unexpected. (Rory Miller) written by Charles. While "Facing Violence" is an interesting book, it seems to me its practical usefulness is limited. It will probably help, to some extent, in "Preparing For the Unexpected.". But the reader shouldn't get overconfident as a result.

Facing Violence: Preparing for the Unexpected (Rory Miller ...

Facing Violence draws readers into a world and a state of mind that most people in a civilized society imagine but do not really understand. The title of the book suggests a guide about fighting, but that is misleading.

This book stands alone as an introduction to the context of self-defense. There are seven elements that must be addressed to bring self-defense training to something approaching 'complete.' Any training that dismisses any of these areas leaves the student vulnerable: The seven elements are: Legal and ethical implications; Violence dynamics; Avoidance; Counter-ambush; Breaking the freeze; The fight itself and The aftermath. Any person who desires a deeper understanding of this thing called violence needs to read this book.

Draws on true stories of people who have been involved in criminal violence to illustrate how to develop a survival mindset and quick, immediate reactions in the case of a criminal attack

The speed and brutality of a predatory attack can shock even an experienced martial artist. The sudden chaos, the cascade of stress hormones?you feel as though time slows down. In reality, the assault is over in an instant. How does anyone prepare for that? As a former corrections sergeant and tactical team leader, Rory Miller is a proven survivor. He instructs police and corrections professionals who, in many cases, receive only eight hours of defensive tactics training each year. They need techniques that work and they need unflinching courage. In Training for Sudden Violence Miller gives you the tools to prepare and prevail, both physically and psychologically. He shares hard-won lessons from a world most of us hope we never experience. Train in fundamentals,combat drills, and dynamic fighting. Develop situational awareness. Condition yourself through stress inoculation. Take a critical look at your training habits. "You don't get to pick where fights go," Miller writes. That's why he has created a series of drills to train you for the worst of it. You will defend yourself on your feet, on the ground, against weapons, in a crowd, and while blindfolded. You will reevaluate your training scenarios?keeping what works, discarding what does not, and improving your chances of survival. Miller's "internal work,""world work," and "plastic mind" exercises will challenge you in ways that mere physical training does not. Sections include: Stalking Escape and evasion The predator mind Personal threat assessment This is a fight for your life, and it won't happen on a nice soft mat. It will get, as Miller says, "all kinds of messy." Training for Sudden Violence prepares you for that mess.

Provides a range of options, from skillfully doing nothing to applying deadly force, designed to prevent violence or, if that is not possible, to defend oneself against it as effectively as possible.

Looks at the differences between martial arts and violence, with information on such topics as expectations of martial arts training, thinking critically about violence, and adapting training methods to reality.

Argues that social relationships among adversaries and third parties are fundamental for understanding the likelihood of peaceful or violent settlements and develops a purely sociological theory of homicide that focuses on the ties of third parties, such as relatives, friends, and legal officials, to victims and offenders in killings. In a civilized society, violence is rarely the answer. But when it is-it's the only answer. The sound of breaking glass downstairs in the middle of the night. The words, "Move and you die." The hands on your child, or the knife to your throat. In this essential book, self-protection expert and former military intelligence officer Tim Larkin changes the way we think about violence in order to save our lives. By deconstructing our assumptions about violence-its morality, its function in modern society, how it actually works-Larkin unlocks the shackles of our own taboos and arms us with what we need to know to prevent, prepare for, and survive the unthinkable event of life-or-death violence. Through a series of harrowing true-life stories, Larkin demonstrates that violence is a tool equally effective in the hands of the "bad guy" or the "good guy"; that the person who acts first, fastest and with the full force of their body is the one who survives; and that each and every one of us is capable of being that person when our lives are at stake. An indispensable resource, *When Violence is the Answer* will remain with you long after you've finished reading, as the bedrock of your self-protection skills and knowledge.

A book covering the topic of self-defense from a shocking, first-hand perspective. The subjects of criminal violence, self-defense, lethal force, mindset, firearms training and concealment have never been introduced so comprehensively in one place. Having successfully sold world-wide in its independently published and distributed paperback form, it is now available on Kindle. "A powerful, gripping, and self-reflective roller-coaster that's part cautionary tale, part how-to book on building the counterpart to the high-order predator, Varg makes no apologies for it being an in-your-face look at real violence from the perspective of that rare someone who can speak from deep personal experience, from both sides of the fence. In an industry littered with those often driven by ego, fantasy, and disconnected from reality, there are a vast number of people in this industry that NEED to read this. A book only an authentic leader in the industry could produce, fully-recommended. Read this book if you're serious about personal protection." D.P. Friesen, CLTP, Costa RicaVarg Freeborn is an author, fitness coach, violence educator and lethal force instructor widely known for his unique background in the violent criminal underworld. His breadth of experience is unmatched in criminal violence education and self-defense training.

Two veteran martial arts instructors and a renowned comic book illustrator deliver the ultimate course in self-defense More than three million Americans are involved in a violent physical encounter every year. In these situations, knowledge is power, and few teachers are better equipped to deliver that knowledge than Lawrence Kane and Kris Wilder. Veteran martial arts instructors and masters in their field, Kane and Wilder have teamed up with DC Comics artist Matt Haley to produce a step-by-step guide revealing the secrets of surviving-and preventing-violent encounters. The defense begins by scanning the environment for dangerous situations and using verbal de-escalation to defuse tense situations. If a fight is unavoidable, the authors offer clear guidance for being the victor, along with advice on legal implications, including how to handle a police interview after the attack.

"This groundbreaking book teaches essential survival skills that can keep you safe on the street, covering awareness, avoidance, de-escalation, countervailing force, armed conflict, aftermath of violence, and weapon features-functions. A variety of scenarios help readers internalize this knowledge. Experienced martial artists, street-savvy professionals, and everyone in-between can benefit from this information"--Book description.
