SASSY VERSUS SEXY! Claudia Barone was the perfect choice to shadow Ethan Mallory and discover what he knew about the sabotage of her family's business. She could steamroll anyone. Anyone but Ethan. The cagey P.I. would never tell her his prime suspect was her brother. Nor could he hide his attraction—red-hot, out of control and licking at her heels…. To a society deb like Claudia, Ethan was rough around the edges, and used caveman tactics to get his way. Yet that earthy animal attraction threatened to eat her alive. Claudia had never been bested by a man, but working closely with Ethan, desperately trying to keep her hands off him, she wondered if she'd met her match….

The Small Business Admin. (SBA) helps socially and economically disadvantaged small businesses gain access to federal contracting opportunities through its 8(a) program. To participate, firms must be at least 51% owned and controlled by an individual who meets SBA's criteria of socially and economically disadvantaged. The firm must also qualify as a small business. Once certified, 8(a) firms are eligible to receive sole-source and set-aside contracts for up to 9 years. This report: (1) determined whether ineligible firms are participating in the 8(a) program; (2) proactively tested SBA's controls over the 8(a) application process; and (3) determined what vulnerabilities, if any, exist in SBA's fraud prevention system. Charts and tables.

The author of this book asserts that an absence of ethical leadership and unethical practices were the reasons for major global business scandals such as Enron, Satyam, Lehman Brothers, and WorldCom. This book analyses the causes for these unethical activities and interprets important verses from The Bhagavad Gita to show business executives and leaders how to lead ethically for the greater good of all stakeholders and society. As a remedy to avoid future scandals, the author points to several ethical directions, and the principle of Dharma, mentioned in The Bhagavad Gita by Lord Krishna, a major deity in Hinduism, who is considered Dharm?tman (one who imbibes the Dharma). Written in conversation style using an executive education scenario, this book examines real world cases in various sectors like education, medical, non-government organizations (NGOs) and retail using the directions of the Dharm?tman.

Can leadership lessons be learnt from the Mahabharata? Demystifying Leadership positively asserts that we can and probes inquiry in the lives of six characters-Bhishma, Ashvatthama, Karna, Shakuni, Kunti and Krishna. It studies these characters in inescapable situations as they navigate through life by demonstrating values, decision-making ability, integrity and principles. Within the given constraints, some of these characters swim and rise, while others sink in moral turpitude. Extrapolating these successful and not-so-successful character traits to corporate leaders and linking them to scholarship, the authors provide lessons for leaders and managers operating in diverse situations. Borrowing from different disciplines, such as literature, philosophy, politics and psychology, Demystifying Leadership proposes to link essentials of leadership in the form of a Leadership Triangle comprising six levels: positive personality, peace with personal identity, purpose, positive use of power and politics, paradoxical leadership and principled pragmatism. It takes a grounded approach in amalgamating mythology and leadership through scholarship and practice.

Agricultural Law in Sub-Saharan Africa: Cases and Comments introduces the subject of agricultural law and economics to researchers, practitioners, and students in common law countries in Sub-Saharan Africa, and presents information from the legal system in Botswana, Gambia, Ghana, Lesotho, Malawi, Nigeria, Sierra Leone, South Africa, Swaziland, Tanzania, Zambia, and Zimbabwe. The law and economics approach entails the use of quantitative methods in research. This is consistent with the expectations in an applied economics field such as agricultural economics. Covering the general traditional law topics in contracts, torts, and property, the book goes further to introduce cutting-edge and region-relevant topics, including contracts with illiterate parties, contract farming, climate change, and transboundary water issues. The book is supported by an extensive list of reference materials, as well as study and enrichment exercises, to deepen readers' understanding of the principles discussed in the book. It is a learning tool, first and foremost, and can be used as a stand-alone resource to teach the subject matter of agricultural law and economics to professionals new to the subject area as well as to students in law school, agricultural economics, economics, and inter-disciplinary classes. Offers research findings on such topics as food safety, climate change, transboundary natural resources, international sale of goods, patents, and trademarks to highlight the future sources of pressure on the agriculture industry Uses case-studies to provide real-world insights into the challenges and considerations of appropriate agricultural law development Challenges readers to carry out their own research in their areas of study, and to gain some understanding of the relationship between law, economics, and statistics Includes extensive resources, such as chapter summaries, study questions, and challenge questions at the end of each chapter to assist instructors and students in gaining full benefits from using the book Provides separate instructor and student study guides, a test bank, and test bank answers, in hardcopy and electronic formats
