With irresistible, rollicking rhyme, beloved picture book author Mary Ann Hoberman shows readers that families, large and small, are all around us. From celery stalks to bottle caps, buttons, and rings, the objects we group together form families, just like the ones we are a part of. And, as we grow up, our families grow, too. Mary Ann Hoberman gives readers a sense of belonging in this all-inclusive celebration of families and our role in them.

A girl is terrified of her older sister's dual personality. A boy adjusts to his life with two mothers. A father visits his son on death row. These are stories of today's families as they really are. Noted anthologist Michael Cart has asked celebrated young adult authors the question "What does 'family' mean today?" The ten resulting stories provide illuminating -- and surprising -- answers. Here family is defined by the connections between all kinds of people -- and the necessary noise they make.

Rev. ed. of: *The gender of sexuality* / Pepper Schwartz, Virginia Rutter. Thousand Oaks: Pine Forge Press, c1998.

Does putting your smartphone on the dinner table impact your relationships? How does where you place your TV in your home affect your family? *The Stuff of Family Life* takes readers inside the changing world of families through a unique examination of their stuff. From digital family photo albums to the growing popularity of "man caves," author Michelle Janning looks at not only what large demographic studies say about family dynamics but also what our lives--and the stuff in them--say about how we relate to each other. The book takes readers through various phases of family life,

including dating, marriage, parenting, divorce, and aging, while paying attention to how our choices about our spaces and objects impact our lives. Janning has joked, “I’m not a social scientist who uses large national datasets to illustrate family life; I’m the social scientist who asks people to examine what’s in their underwear drawers to tell stories about their family life.” From underwear drawers to calendars, *The Stuff of Family Life* offers an illuminating and entertaining look at the complexities of American families today.

All families change over time. Sometimes a baby is born, or a grown-up gets married. And sometimes a child gets a new foster parent or a new adopted mom or dad. Children need to know that when this happens, it’s not their fault. They need to understand that they can remember and value their birth family and love their new family, too. Straightforward words and full-color illustrations offer hope and support for children facing or experiencing change. Includes resources and information for birth parents, foster parents, social workers, counselors, and teachers.

begin? What makes a baby male or female? How is a baby born? Children have plenty of questions about reproduction and babies—and about sex and sexuality, too. *It's So Amazing!* provides the answers—with fun, accurate, comic-book-style artwork and a clear, lively text that reflects the interests of children age seven and up in how things work, while giving them a healthy understanding of their bodies. Created by the author and illustrator of *It's Perfectly Normal*, this forthright and funny book has been newly updated for its fifteenth anniversary.

Prominent cultural critic Judith Stacey offers a ringing rebuttal to the rhetoric of "family values" with this powerful argument for accepting family diversity—including a strong new case for legal same-sex marriage.

"Philip Cohen's *The Family* is an accessible, data-driven introduction to contemporary sociological thinking on families. Drawing on his expertise as a sociologist, demographer, and a teacher, Cohen uses data to elucidate key trends in family life and to show how the story of today's families is a story of diversity, inequality, and social change. In the Third Edition, Cohen has strengthened the book's coverage of same-sex relationships and revamped the treatment of

gender identity, highlighting the most current research and data throughout the text. Innovative pedagogy, including a revised InQuizitive course and more robust in-text workshops, get students thinking sociologically about their own families and relationships"--

No matter your size, shape, or pedigree--if you love each other, you are a family! Moms, dads, sisters, brothers – and even Great Aunt Sue – appear in dozens of combinations, demonstrating all kinds of nontraditional families! Silly animals are cleverly depicted in framed portraits, and offer a warm celebration of family love. From School Library Journal PreS-Gr 1–Imagine a house with many rooms, whose walls each have a different color or wallpaper, accenting a family portrait hanging there. On a rustic wooden wall hangs the first portrait—a large family of ducks posing beside a still pond. The next spread shows three pandas in pink vests, much like the pink oriental wallpaper behind them. Each portrait features a gently rhyming line: "Some children live with their grandparents.../and some live with an aunt./Some children have many pets.../and some just have a plant." All of these appealing images demonstrate different ways of being a family. "Some children live with their father./ Some children have two mothers./Some children are adopted./Some have stepsisters and—brothers." The cartoon-style critters contrast pleasantly with

more realistic elements—a bamboo plant, a slender ceramic dog, a fat ceramic cat. Families of hippos, tigers, lions, ostriches, and whales join the other family groups in the final spread. The loud-and-clear message is that "if you love each other, then you are a family." And imagine the many children who will be reassured because they have found a portrait of a family they will recognize as their own. A solid choice for most libraries.—Mary Jean Smith, formerly at Southside Elementary School, Lebanon, TN
