Fascism is a particularly modernist concept, one that attempts to take the ideas of industry, technology, and futurism, and apply a reactionary understanding of society to it. Fascists often see themselves as trying to reclaim something that is natural, normal, and ever-present throughout history.

What Is Fascism? An Excerpt From "Fascism Today: What It ...

Shane Burley's book 'Fascism Today' is an excellent addition to the recent literature produced in the fight against fascism. Burley's strength are three fold: they provide an illuminating glossary of key terms/groups, a substantial history and context to old and emerging fascist movements, and crucial section on resisting and destroying fascist threats.

Fascism Today: What It Is and How to End It by Shane Burley

Fascism is generally defined as a political movement that embraces far-right nationalism and the forceful suppression of any opposition, all overseen by an authoritarian government.

Fascism Today: What It is and How to End It - Home | Facebook

While Fascism promises to protect workers, studies show how Workers' conditions worsened severely during fascist times, something that can also be seen in the strong ultraliberal component most of the 'new far right', and of the dubious democratic credentials of neoliberalism, devoid of the philosophical background of political liberalism. Nationalism gives the two great enemies behind the woes of people: Europe, and immigrants.

Fascism Today: What It Is and How to End It by Shane Burley at AbeBooks.co.uk - ISBN 10: 1849352941 - ISBN 13: 9781849352949 - AK Press - 2017 - Softcover

Fascism Today looks at the changing world of the far right in Donald Trump's America. Examining the modern fascist movement's various strains, Shane Burley has written an accessible primer about what its adherents believe, how they organise, and what future they have in the United States. The ascension of Trump has introduced a whole new vocabulary into our political lexicon - white nationalism, race realism, Identitarianism, and a slew of others. Burley breaks it all down.

We can no longer ignore the fact that fascism is on the rise in the United States. What was once a fringe movement has been gaining cultural acceptance and political power for years. Rebranding itself as "alt-right" and riding the waves of both Donald Trump's hate-fueled populism and the anxiety of an abandoned working class, they have created a social force that has the ability to win elections and inspire racist street violence in equal measure. Fascism Today looks at the changing world of the far right in Donald Trump's America. Examining the modern fascist movement's various strains, Shane Burley has written an accessible primer about what its adherents believe, how they organize, and what future they have in the United States. The ascension of Trump has introduced a whole new vocabulary into our political lexicon—white nationalism, race realism, Identitarianism, and a slew of others. Burley breaks it all down. From the tech-savvy trolls of the alt-right to esoteric Aryan mystics, from full-fledged Nazis to well-groomed neofascists like Richard Spencer, he shows how these racists and authoritarians have reinvented themselves in order to recruit new members and grow. Just as importantly, Fascism Today shows how they can be fought and beaten. It highlights groups that have successfully opposed these twisted forces and outlines the elements needed to build powerful mass movements to confront the institutionalization of fascist ideas, protect marginalized communities, and ultimately stop the fascist threat. Shane Burley is a writer, filmmaker, and antifascist based in Portland, Oregon.

“No single book is as relevant to the present moment.”—Claudia Rankine, author of *Citizen* “One of the defining books of the decade.”—Elizabeth Hinton, author of *From the War on Poverty to the War on Crime* NEW YORK TIMES BOOK REVIEW EDITORS’ CHOICE • With a new preface • Fascist politics are running rampant in America today—and spreading around the world. A Yale philosopher identifies the ten pillars of fascist politics, and charts their horrifying rise and deep history. As the child of refugees of World War II Europe and a renowned philosopher and scholar of propaganda, Jason Stanley has a deep understanding of how democratic societies can be vulnerable to fascism: Nations don’t have to be fascist to suffer from fascist politics. In fact, fascism’s roots have been present in the United States for more than a century. Alarmed by the pervasive rise of fascist tactics both at home and around the globe, Stanley focuses here on the structures that unite them, laying out and analyzing the ten pillars of fascist politics—the language and beliefs that separate people into an “us” and a “them.” He knits together reflections on history, philosophy, sociology, and critical race theory with stories from contemporary Hungary, Poland, India, Myanmar, and the United States, among other nations. He makes clear the immense danger of underestimating the

File Type PDF Fascism Today What It Is And How To End It

cumulative power of these tactics, which include exploiting a mythic version of a nation's past; propaganda that twists the language of democratic ideals against themselves; anti-intellectualism directed against universities and experts; law and order politics predicated on the assumption that members of minority groups are criminals; and fierce attacks on labor groups and welfare. These mechanisms all build on one another, creating and reinforcing divisions and shaping a society vulnerable to the appeals of authoritarian leadership. By uncovering disturbing patterns that are as prevalent today as ever, Stanley reveals that the stuff of politics—charged by rhetoric and myth—can quickly become policy and reality. Only by recognizing fascists politics, he argues, may we resist its most harmful effects and return to democratic ideals. “With unsettling insight and disturbing clarity, *How Fascism Works* is an essential guidebook to our current national dilemma of democracy vs. authoritarianism.”—William Jelani Cobb, author of *The Substance of Hope*

#1 New York Times Bestseller Best Books of 2018 --*The Economist* A personal and urgent examination of Fascism in the twentieth century and how its legacy shapes today's world, written by one of America's most admired public servants, the first woman to serve as U.S. secretary of state Madeleine Albright, observes “is someone who claims to speak for a whole nation or group, is utterly unconcerned with the rights of others, and is willing to use violence and whatever other means are necessary to achieve the goals he or she might have.” The twentieth century was defined by the clash between democracy and Fascism, a struggle that created uncertainty about the survival of human freedom and left millions dead. Given the horrors of that experience, one might expect the world to reject the spiritual successors to Hitler and Mussolini should they arise in our era. In *Fascism: A Warning*, Madeleine Albright draws on her experiences as a child in war-torn Europe and her distinguished career as a diplomat to question that assumption. Fascism, as she shows, not only endured through the twentieth century but now presents a more virulent threat to peace and justice than at any time since the end of World War II. The momentum toward democracy that swept the world when the Berlin Wall fell has gone into reverse. The United States, which historically championed the free world, is led by a president who exacerbates division and heaps scorn on democratic institutions. In many countries, economic, technological, and cultural factors are weakening the political center and empowering the extremes of right and left. Contemporary leaders such as Vladimir Putin and Kim Jong-un are employing many of the tactics used by Fascists in the 1920s and 30s. *Fascism: A Warning* is a book for our times that is relevant to all times. Written by someone who has not only studied history but helped to shape it, this call to arms teaches us the lessons we must understand and the questions we must answer if we are to save ourselves from repeating the tragic errors of the past.

Why We Fight is a collection of essays written in the midst of the largest resurgence of the far-right in fifty years, and the explosion of antifascist, antiracist, and revolutionary organizing that has risen to fight it. The essays unpack the moment we live in, confronting the apocalyptic feelings brought on by nationalism, climate collapse, and the crisis of capitalism, but also delivering the clear message that a new world is possible through the struggles communities are leveraging today. Burley reminds us what we're fighting for not simply what we're fighting against.

The National Bestseller “Focused and persuasive... Bray's book is many things: the first English-language transnational history of antifa, a how-to for would-be activists, and a record of advice from anti-Fascist organizers past and present.”—THE NEW YORKER “Insurgent activist

File Type PDF Fascism Today What It Is And How To End It

movements need spokesmen, intellectuals and apologists, and for the moment Mark Bray is filling in as all three... The book's most enlightening contribution is on the history of anti-fascist efforts over the past century, but its most relevant for today is its justification for stifling speech and clobbering white supremacists."—Carlos Lozada, THE WASHINGTON POST "[Bray's] analysis is methodical, and clearly informed by both his historical training and 15 years of organizing, which included Occupy Wall Street... Antifa: The Anti-Fascist Handbook couldn't have emerged at a more opportune time. Bray's arguments are incisive and cohesive, and his consistent refusal to back down from principle makes the book a crucial intervention in our political moment."—SAN FRANCISCO CHRONICLE In the wake of tragic events in Charlottesville, VA, and Donald Trump's initial refusal to denounce the white nationalists behind it all, the "antifa" opposition movement is suddenly appearing everywhere. But what is it, precisely? And where did it come from? As long as there has been fascism, there has been anti-fascism — also known as "antifa." Born out of resistance to Mussolini and Hitler in Europe during the 1920s and '30s, the antifa movement has suddenly burst into the headlines amidst opposition to the Trump administration and the alt-right. They could be seen in news reports, often clad all in black with balaclavas covering their faces, demonstrating at the presidential inauguration, and on California college campuses protesting far-right speakers, and most recently, on the streets of Charlottesville, VA, protecting, among others, a group of ministers including Cornel West from neo-Nazi violence. (West would later tell reporters, "The anti-fascists saved our lives.") Simply, antifa aims to deny fascists the opportunity to promote their oppressive politics, and to protect tolerant communities from acts of violence promulgated by fascists. Critics say shutting down political adversaries is anti-democratic; antifa adherents argue that the horrors of fascism must never be allowed the slightest chance to triumph again. In a smart and gripping investigation, historian and former Occupy Wall Street organizer Mark Bray provides a detailed survey of the full history of anti-fascism from its origins to the present day — the first transnational history of postwar anti-fascism in English. Based on interviews with anti-fascists from around the world, Antifa details the tactics of the movement and the philosophy behind it, offering insight into the growing but little-understood resistance fighting back against fascism in all its guises.

Based on a lifetime's worth of research, esteemed historian Robert Paxton explores what fascism is and how it has come to have a lasting and continued impact on our history. In the concluding section of his authoritative book, *The Anatomy of Fascism*, Paxton makes the convincing and radical case that existing definitions of the popular, nationalist, and conservative political view are lacking, and offers up his own brilliant explication—drawn from concrete historical actions—thus transforming our understanding of this dangerous ideology and of why it takes hold when and where it does. A Vintage Shorts Selection. An ebook short.

The shocking images of neo-Nazis marching in Charlottesville, North Carolina in the summer of 2017 linger in the mind, but so do those of the passionate protestors who risked their lives to do the right thing. In this stirring graphic non-fiction book by the acclaimed author of *The 500 Years of Resistance Comic Book*, Gord Hill looks at the history of fascism over the last 100 years, and the concurrent antifa movements that work fastidiously to topple it. Fascism is a relatively new political ideology and movement, yet in its short history some of the greatest atrocities against humanity have been carried out in its name. Its poisonous roots have taken hold in every region of the world, from its beginnings in post-World War I Italy, through Nazi Germany, Franco's Spain, and the KKK in America. And today, emboldened by the American president, fascism is alive and well again. At the same time, antifa activists have proven, through history and again today, that the

File Type PDF Fascism Today What It Is And How To End It

spirit of resistance is alive and well, and necessary. In *The Antifa Comic Book*, Gord Hill documents these powerful moments of conflict and confrontation with a perceptive eye and a powerful sense of resolve.

With fascist ideology making a comeback today, the author proposes conservative Christian responses as the best antidote for overcoming them.

“Fascists,” “Brownshirts,” “jackbooted stormtroopers”—such are the insults typically hurled at conservatives by their liberal opponents. Calling someone a fascist is the fastest way to shut them up, defining their views as beyond the political pale. But who are the real fascists in our midst? *Liberal Fascism* offers a startling new perspective on the theories and practices that define fascist politics. Replacing conveniently manufactured myths with surprising and enlightening research, Jonah Goldberg reminds us that the original fascists were really on the left, and that liberals from Woodrow Wilson to FDR to Hillary Clinton have advocated policies and principles remarkably similar to those of Hitler's National Socialism and Mussolini's Fascism. Contrary to what most people think, the Nazis were ardent socialists (hence the term “National socialism”). They believed in free health care and guaranteed jobs. They confiscated inherited wealth and spent vast sums on public education. They purged the church from public policy, promoted a new form of pagan spirituality, and inserted the authority of the state into every nook and cranny of daily life. The Nazis declared war on smoking, supported abortion, euthanasia, and gun control. They loathed the free market, provided generous pensions for the elderly, and maintained a strict racial quota system in their universities—where campus speech codes were all the rage. The Nazis led the world in organic farming and alternative medicine. Hitler was a strict vegetarian, and Himmler was an animal rights activist. Do these striking parallels mean that today's liberals are genocidal maniacs, intent on conquering the world and imposing a new racial order? Not at all. Yet it is hard to deny that modern progressivism and classical fascism shared the same intellectual roots. We often forget, for example, that Mussolini and Hitler had many admirers in the United States. W.E.B. Du Bois was inspired by Hitler's Germany, and Irving Berlin praised Mussolini in song. Many fascist tenets were espoused by American progressives like John Dewey and Woodrow Wilson, and FDR incorporated fascist policies in the New Deal. Fascism was an international movement that appeared in different forms in different countries, depending on the vagaries of national culture and temperament. In Germany, fascism appeared as genocidal racist nationalism. In America, it took a “friendlier,” more liberal form. The modern heirs of this “friendly fascist” tradition include the New York Times, the Democratic Party, the Ivy League professoriate, and the liberals of Hollywood. The quintessential Liberal Fascist isn't an SS storm trooper; it is a female grade school teacher with an education degree from Brown or Swarthmore. These assertions may sound strange to modern ears, but that is because we have forgotten what fascism is. In this angry, funny, smart, contentious book, Jonah Goldberg turns our preconceptions inside out and shows us the true meaning of Liberal Fascism.
