David German Festive Trumpet Tune Organ BB Learn Play ...
The Festive Trumpet Tune, of David German (b1954), an American composer, belongs to this tradition and was written for the composer's wedding. Its form is basically AABA plus a coda, the B section being in the relative minor (D minor), the coda featuring a key-shift up a semitone, from the F major of the A sections to the sparkle of F sharp major.

Throughout the years the sound of the trumpet has been symbolic of great entrances and celebrations. That sound is featured in this work and may be played by the organist or a trumpet soloist.

(Fred Bock Publications). Throughout the years, the sound of the trumpet has been symbolic of great entrances and celebrations. That sound is featured in this work, and may be played by the organist or a trumpet soloist. Truly a festive work, this is a joyful and exciting piece which is advanced in difficulty. Perfect for wedding processions!

This famous "Trumpet Tune and Air" was originally written for keyboard but seems like it was meant for a more grand orchestration! The somber, minor Air is sandwiched between the celebratory Trumpet Tune. The repeats have been removed on the return to the Trumpet Tune as the work drives to a joyous conclusion.

Born in Lithuania, Abraham Cahan rose to literary acclaim in America as both a journalist and a writer of fiction. In The Rise of David Levinsky, which stands as Cahan's best-known novel, he charts the trials, tribulations, and triumphs of David Levinsky, a Russian boy who loses his parents and seeks his fortune in the United States.

"Updated with a new chapter on digital curation" How Music Works is David Byrne's incisive and enthusiastic look at the musical art form, from its very inceptions to the influences that shape it, whether acoustical, economic, social or technological. Utilizing his incomparable career and inspired collaborations with Talking Heads, Brian Eno, and many others, Byrne taps deeply into his lifetime of knowledge to explore the panoptic elements of music, how it shapes the human experience, and reveals the impetus behind how we create, consume, distribute, and enjoy the songs, symphonies, and rhythms that provide the backbeat of life. Byrne's magnum opus uncovers ever-new and thrilling realizations about the redemptive liberation that music brings us all.

Written by a composer and a musician, The Contemporary Violin offers a unique menu of avant-garde musical possibilities that both performers and composers will enjoy exploring. Allen and Patricia Strange's comprehensive study critically examines extended performance techniques found in the violin literature of the latter half of the twentieth century. Drawing from both published and private manuscripts, the authors present extended performance options for the acoustic, modified, electric, and MIDI violin, with signal processing and computer-related techniques, and include more than 400 notated examples. The authors begin with bowing techniques and proceed systematically through other aspects of string playing, including MIDI technologies. Their correspondence and research with many performers and composers, the book's extensive score and text bibliography, and the discography of more than 130 recordings make The Contemporary Violin a valuable contemporary music reference and guide. An additional benefit is its listing of Internet resources that will keep the reader up to date with recent developments in contemporary performance and composition. First published by UC Press, 2001.

Do you know what "quatrefoil" and "impolitic" mean? What about "halcyon" or "narcolepsy"? This book is a handy, easy-to-read reference guide to the proper parlance for any situation. In this book you will find: Words You Absolutely Should Know (covert, exonerate, perimeter); Words You Should Know But Probably Don't (dour, incendiary, scintilla); Words Most People Don't Know (schlimazel, thaumaturgy, epergne); Words You Should Know to Sound Overeducated (ad infinitum, nugatory, garrulity); Words You Probably Shouldn't Know (priapic, damnatory, labia majora); and more. Whether writing an essay, studying for a test, or trying to impress friends, family, and fellow cocktail party guests with their prolixity, you will achieve magniloquence, ebullience, and flights of rhetorical brilliance.

Presents a portrait of the thirty-fourth president by his grandson which draws on personal stories and writings to chronicle Eisenhower's final years during the author's own coming-of-age, describing various aspects of the president's character.

The purpose of this book is to provide, within a single volume, technical studies, diverse compositions, and technical information for beginning organists. The book is also intended for those experienced organists who want to review organ technique and at the same time have a convenient collection of useful compositions.

Perhaps Willa Cather's most autobiographical work, The Song of the Lark charts the story of a young woman's awakening as an artist against the backdrop of the western landscape. Thea Kronborg, an aspiring singer, struggles to escape from the confines her small Colorado town to the world of possibility in the Metropolitan Opera House. In classic Cather style, The Song of the Lark is the beautiful, unforgettable story of American determination and its inextricable connection to the land.
