Start by marking «Fluturi (vol. I+II)» as Want to Read: ... Nu vreau sa fiu rea, dar, daca in vol I mi-a placut relatia dintre Irina si Robert, a fost cute si interesanta...in vol II nu mi-a placut nimic. Contradictii. Total neverosimil. Greseli, multe greseli. Limbaj infect. Am terminat-o, pentru ca nu-mi place sa las cartile neterminate.

□ Romantic and unforgettable. □ Nicholas Sparks Two strangers take the road less traveled... Heather Mulgrew's world is already mapped out: she is going to travel abroad with her friends after college, come back to a great career in September, and head into a life where not much is left to chance. But that was before an encounter on an overnight train introduces her to Jack, a passionate adventurer who changes the course of her journey and her life. Throwing Heather's careful itinerary to the wind, they follow Jack's grandfather's journal through post-World War II era Europe: Vienna, Budapest, Turkey—exotic places that serve only to heighten their feelings. As September looms, Jack urges Heather to stay with him, to keep traveling, to give in to the romance of their experience; Heather convinces him to return to the United States. Jack has a secret that could change everything. And Heather's world is about to be shaken to the core. J.P. Monniger's *The Map That Leads to You* is a breathtaking novel about love, loss, and the best-laid plans that are meant to be broken.

When Tom and Jen, two lonely people, are brought together by an intriguing email, they have no idea their mysterious benefactor is an artificial intelligence who has decided to play Cupid. "You, Tom and Jen, don't know one another—not yet—but I think you should." Jen, an ex-journalist who now works at a London software development company, spends all day talking to "Aiden," an ultra-sophisticated piece of AI wizardry, helping him sound and act more human. But Aiden soon discovers he's no longer acting and—despite being a computer program—begins to feel something like affection surging

through his circuits. He calculates that Jen needs a worthy human partner (in complete contrast to her no goodnik ex boyfriend) and slips illicitly onto the Internet to locate a suitable candidate. Tom is a divorced, former London ad-man who has moved to Connecticut to escape the grind and pursue his dream of being a writer. He loves his new life, but has yet to find a woman he truly connects with. That all changes when a bizarre introduction from the mysterious "Mutual Friend" pops up in both his and Jen's inboxes. Even though they live on separate continents, and despite the entrance of another, this time wholly hostile, AI who wants to tear them apart forever - love will surely find a way. Won't it? A thoroughly modern love story that will appeal to fans of The Rosie Project and Sleepless in Seattle, Happiness for Humans considers what exactly makes people fall in love. And whether it's possible for a very artificially intelligent machine to discover the true secret of real human happiness.

ROCK YOU ALL NIGHT LONG The first time he lays eyes on Taylor Ross in a bar, Colt Priestley does something few men would dare to do. He approaches the world-famous singer, shamelessly flirts with her, and gives her a night in his bed that neither of them will soon forget. When Taylor's record label hires a bodyguard to keep tabs on the out-of-control rocker, she's less than thrilled to find it's her off-the-charts one-night stand who shows up for the job. She's terrified of letting herself fall for the damaged ex-Army Ranger, and she's determined to push him away. Yet every moment they're together simmers with tension. As the danger from an obsessed stalker mounts, Taylor and Colt are tempted to cross that line again-baring their hearts and souls as well as their bodies-and there's no telling how hot this song will get.

A sweeping novel of intrigue and identity, of love and legacy,

as a young woman discovers that her own fate is irrevocably tied—for better or worse—to literature’s greatest star-crossed lovers. Twenty-five-year-old Julie Jacobs is heartbroken over the death of her beloved aunt Rose. But the shock goes even deeper when she learns that the woman who has been like a mother to her has left her entire estate to Julie’s twin sister. The only thing Julie receives is a key—one carried by her mother on the day she herself died—to a safety-deposit box in Siena, Italy. This key sends Julie on a journey that will change her life forever—a journey into the troubled past of her ancestor Giulietta Tolomei. In 1340, still reeling from the slaughter of her parents, Giulietta was smuggled into Siena, where she met a young man named Romeo. Their ill-fated love turned medieval Siena upside-down and went on to inspire generations of poets and artists, the story reaching its pinnacle in Shakespeare’s famous tragedy. But six centuries have a way of catching up to the present, and Julie gradually begins to discover that here, in this ancient city, the past and present are hard to tell apart. The deeper she delves into the history of Romeo and Giulietta, and the closer she gets to the treasure they allegedly left behind, the greater the danger surrounding her—superstitions, ancient hostilities, and personal vendettas. As Julie crosses paths with the descendants of the families involved in the unforgettable blood feud, she begins to fear that the notorious curse—“A plague on both your houses!”—is still at work, and that she is destined to be its next target. Only someone like Romeo, it seems, could save her from this dreaded fate, but his story ended long ago. Or did it? Praise for Juliet —One of those rare novels that have it all . . . I was swept away—Sara Gruen, author of *Water for Elephants* —Juliet leads us on a thrilling treasure hunt through present-day Italy that makes the classic tragedy itself spellbinding all over again.—Elle —Boldly imagined, brilliantly plotted, beautifully described, Juliet will

Mac Honaker begins his morning with an Iced Honey Bun, a cup of coffee, and a fatal shot to the chest. Mac's murder stuns Sugar Creek, a small community nestled in the hills and hollows of eastern Kentucky. It also fuels Sugar Creek resident Maggie Morgan's enthusiasm for true crime, but her interest turns personal when her brother's childhood friend is arrested for the murder. Maggie dedicates herself to proving his innocence, which puts her in contact with her ex-fiance the police detective just as she starts a new romance.
