The “ virgin Bachelor ” Sean Lowe reveals the challenges of finding love while championing his Christian convictions in the morally complex world of reality TV. After The Bachelorette broke his heart, Sean Lowe suspected his “ nice guy ” image hurt him. The show never emphasized it, but Sean committed to living according to biblical standards of sexuality, even as producers emphasized the risqué and promiscuous. A Texas boy from a Baptist home, Sean tells the story of how he went from a Division I college football player to a fan favorite on reality television, taking readers behind the scenes of The Bachelor and The Bachelorette to see the challenges of living out his values and faith—and ultimately winning his true love ’ s heart. For the Right Reasons is about the journeys we all have to take in the real world, where being “ good ” is the right thing to do but sometimes doesn ’ t seem to be enough; where betrayal is commonplace; and where that thing called perfection is actually just a cruel myth. Sean learned a few things from his two seasons on the hottest romance shows on television, and he wants others to benefit from those lessons: good does eventually win, lies will be discovered, and “ nice guys ” do ultimately finish first.

In 2004, Ferial Masry, born in Mecca, became the first Saudi American to run for political office in U.S. history. Masry made a spirited run for the California State Assembly seat in a staunchly Republican district, which sparked worldwide interest. She was ABC ’ s Person of the Week, was interviewed by Peter Jennings, and made headlines in the New York Times and Associated Press. A recent immigrant and naturalized citizen with a Middle Eastern accent, Masry ’ s grassroots campaign succeeded against all odds in winning the write-in vote, a historic victory for all Arab Americans. Running for All the Right Reasons chronicles Masry ’ s remarkable life, from her childhood in Mecca and her decision to emigrate to the United States to her career as an educator and her bold entry into the world of politics. Masry ’ s story, her passionate belief in democracy and commitment to her community, is the stuff of legend.

Winner of the Hillman Prize for Nonfiction Gold Winner • California Book Award (Nonfiction) Finalist • Los Angeles Times Book Prize (History) Finalist • Brooklyn Public Library Literary Prize This “ powerful and disturbing history ” exposes how American governments deliberately imposed racial segregation on metropolitan areas nationwide (New York Times Book Review). Widely heralded as a “ masterful ” (Washington Post) and “ essential ” (Slate) history of the modern American metropolis, Richard Rothstein ’ s *The Color of Law* offers “ the most forceful argument ever published on how federal, state, and local governments gave rise to and reinforced neighborhood segregation ” (William Julius Wilson). Exploding the myth of de facto segregation arising from private prejudice or the unintended consequences of economic forces, Rothstein describes how the American government systematically imposed residential segregation: with undisguised racial zoning; public housing that purposefully segregated previously mixed communities; subsidies for builders to create whites-only suburbs; tax exemptions for institutions that enforced segregation; and support for violent resistance to African Americans in white neighborhoods. A groundbreaking, “ virtually indispensable ” study that has already transformed our understanding of twentieth-century urban history (Chicago Daily Observer), *The Color of Law* forces us to face the obligation to remedy our unconstitutional past.

The Impotent Giant has nothing to do with being a Democrat or Republican. It has everything to do with what it means to be an American. Alarmed about who and what the United States of America represents, author Dr. H. John Lyke articulates how citizens can help to regain the moral and political leadership. Using psychological principles, he provides a discussion of why our country is in the fix it's in and how to return it to its former greatness. Dr. Lyke's research on the issues began with a re-examination of the lives of outstanding leaders, especially George Washington and Abraham Lincoln, two men who led the United States toward the attainment of American ideals. Studying the principles, courage, and actions of these men offers a model for effective leadership and rekindles one's pride in being an American, a pride that for many has shrunk drastically during the past ten years. *The Impotent Giant* examines where the country stands among other nations and how the citizens of the United States and those of the rest of the world perceive its leaders. It encourages citizens to elect the right leaders, discuss the right issues, and act for the right reasons.

A New York Times Bestseller The first definitive, unauthorized, behind-the-scenes cultural history of the Bachelor franchise, America's favorite guilty pleasure. For sixteen years and thirty-six seasons, the Bachelor franchise has been a mainstay in American TV viewers' lives. Since it premiered in 2002, the show's popularity and relevance have only grown--more than eight million viewers tuned in to see the conclusion of the most recent season of *The Bachelor*. Los Angeles Times journalist Amy Kaufman is a proud member of Bachelor Nation and has a long history with the franchise--ABC even banned her from attending show events after her coverage of the program got a little too real for its liking. She has interviewed dozens of producers, contestants, and celebrity fans to give readers never-before-told details of the show's inner workings: what it's like to be trapped in the mansion "bubble"; dark, juicy tales of producer manipulation; and revelations about the alcohol-fueled debauchery that occurs long before the Fantasy Suite. Kaufman also explores what our fascination means, culturally: what the show says about the way we view so-called ideal suitors; our subconscious yearning for fairy-tale romance; and how this enduring television show has shaped society's feelings about love, marriage, and feminism by appealing to a marriage plot that's as old as the best of Jane Austen.

This is the story of the de-industrialization of America, written by a Business professor with a background in steel company management who grew up in the city of Pittsburgh and loved its manufacturing environment. The book is based on the facts and aims to avoid any partisan political viewpoint -- which is not as difficult as it may seem, since both U.S. political parties support free trade economics. The story does not single out the union, the workers, management, politicians, or American voters and consumers, since there is plenty of blame to share. Even the economic policy of the country since 1945, which clearly must carry a large portion of the blame, was accepted for all the right reasons. Free trade was to promote world peace and democracy. No one foresaw the ancillary effects of the 1970s on the United States. Yet this approach has brought destruction upon our cities, workers, managers, and country. The author's perspective is one of a love for American manufacturing and those once-robust cities such as Detroit, Toledo, Pittsburgh, Akron, and so many others, that drove forward the American economy.
