In Francis, a New World Pope, Michel Cool surveys Pope Francis's journey to the papacy, his convictions, his personality, his writings, and the challenges he faces in his new office -- governance of the church, new evangelization in secularized societies, and poverty, among many others.

Recounts the circumstances surrounding the election of Jorge Bergoglio as pope, reviews the life of the first Argentine and the first Jesuit to become pontiff, and discusses his views on poverty, the Church, and other issues.

He has captured the imagination of people around the world, including those who thought they were "done with" Christianity. In ways no one could have expected and no one predicted, Pope Francis has become a living example of what it might mean to be a Christian in our time and place. The modern world was not ready for Pope Francis, but as has been demonstrated--in his travels to the United States and around the world, in his calls for mercy and defense of the vulnerable--Pope Francis was ready for the modern world. New World Pope: Pope Francis and the Future of the Church explores how Jorge Mario Bergoglio became Pope Francis--the ideas, experiences, influences, and passions that have formed this pastor who has inspired, challenged, encouraged, and angered people worldwide. Ten experts from around the world--scholars, journalists, church leaders, and others--provide insights into the origins and trajectories of Pope Francis' vision and hopes for the Christian community in our day. Persons intrigued by Pope Francis will find deeper insights into his witness via this exploration of the roots and trajectories of his sense of Christian mission and discipleship.

On March 13, the cardinals of the Catholic Church, gathered to elect a successor to a living Pope for the first time in 600 years, announced a dramatic shift. By elevating Cardinal Jorge Mario Bergoglio of Argentina to become Pope Francis the 266th Pontiff, the cardinals were naming the first-ever Pope from the growing New World to take the helm of the church at a crucial moment. It was a stunning move by a 2,000-year-old institution that has immense influence—with 1.2 billion adherents worldwide—and huge problems, including a decade-old sex-abuse scandal that has shattered faith in the institution, a shortage of priests and secular trends that have drained the church of members and challenged its relevancy in a changing world. From the shocking decision by Pope Benedict XVI to retire, to the introduction of Pope Francis, from the back streets of Buenos Aires to the front row at St. Peter's Square, reporters from The Wall Street Journal have chronicled these dramatic weeks in the life of the oldest institution in the world. Now, in a new e-book, Journal reporters will present a detailed, timely and original biography of the new Pope Francis, as well as new insight on the bargaining and drama that surrounded his rise. Pope Francis will present the full, in-depth story of the church's change in direction and the man charged with leading it, and consider how Pope Francis might address the years of scandal and shortcomings while leading Catholics worldwide toward a deeper faith.

THE STORY BEHIND THE SCREENPLAY OF THE TWO POPES, THE MAJOR MOTION PICTURE STARRING ANTHONY HOPKINS AND JONATHAN PRYCE From the Academy Award-nominated screenwriter of The Theory of Everything and Darkest Hour comes the fascinating and revealing tale of an unprecedented transfer of power, and of two very different men - who both happen to live in the Vatican. In February 2013, the arch-conservative Pope Benedict XVI made a startling announcement: he would resign, making him the first pope to willingly vacate his office in over 700 years. Reeling from the news, the College of Cardinals rushed to Rome to congregate in the Sistine Chapel to pick his successor. Their unlikely choice? Francis, the first non-European pope in 1,200 years, a one time tango club bouncer, a passionate soccer fan, a man with the common touch. Why did Benedict walk away at the height of power, knowing his successor might be someone whose views might undo his legacy? How did Francis - who used to ride the bus to work back in his native Buenos Aires - adjust to life as leader to a billion followers? If, as the Church teaches, the pope is infallible, how can two living popes who disagree on almost everything both be right? Having immersed himself in these men's lives to write the screenplay for The Two Popes, Anthony McCarten masterfully weaves their stories into one gripping narrative. From Benedict and Francis's formative experiences in war-torn Germany and Argentina to the sexual abuse scandal that continues to rock the Church to its foundations, to the intrigue and the occasional comedy of life in the Vatican, The Pope glitters with the darker and the lighter details of one of the world's most opaque but significant institutions.

Pope Francis: The Last Pope? reveals the possible reasons for the choice of historical abdication of Benedict XVI and traces the process that led to the election of Cardinal Bergoglio: the Pope who many have prophesized will be the last and will bring the Catholic Church to its end. The book details the history of this prophecy, which was hidden away in the Vatican for hundreds of years and predicts that the reign of the last Pope will herald the beginning of "great apostasy" followed by "great tribulation." It also explores the recent scandals in the Catholic Church and addresses questions including What pressures decreed the end of the pontificate of Benedict XVI? What powers have an interest for the Church to end? and What is the relationship between the Vatican and the New World Order? Perfect for anyone interested in prophecies about the end times, Pope Francis: The Last Pope reveals the truth about what numerology says about the last Pope and the darkness that may follow him, as well as fascinating investigations into the gay lobby, Freemasonry, and the Jesuit agenda in the Vatican and how it relates to the first Borgia Pope, the legend of the White Pope and the Black Pope, and how Benedict's resignation may fulfill an ancient prophecy.

In this uplifting and practical book, written in collaboration with his biographer, Austen Ivereigh, the preeminent spiritual leader explains why we must—and how we can—make the world safer, fairer, and healthier for all people now. In the COVID crisis, the beloved shepherd of over one billion Catholics saw the cruelty and inequity of our society exposed more vividly than ever before. He also saw, in the resilience, generosity, and creativity of so many people, the means to rescue our society, our economy, and our planet. In direct, powerful prose, Pope Francis urges us not to let the pain be in vain. He begins Let Us Dream by exploring what this crisis can teach us about how to handle upheaval of any kind in our own lives and the world at large. With unprecedented candor, he reveals how three crises in his own life changed him dramatically for the better. By its very nature, he shows, crisis presents us with a choice: we make a grievous error if we try to return to some pre-crisis state. But if we have the courage to change, we can emerge from the crisis better than before. Francis then offers a brilliant, scathing critique of the systems and ideologies that conspired to produce the current crisis, from a global economy obsessed with profit and heedless of the people and environment it harms, to politicians who foment their people ' s fear and use it to increase their own power at their people ' s expense. He reminds us that Christians ' first duty is to serve others, especially the poor and the marginalized, just as Jesus did. Finally, the Pope offers an inspiring and actionable blueprint for building a better world for all humanity by putting the poor and the planet at the heart of new thinking. For this plan, he draws not only on sacred sources, but on the latest findings from renowned scientists, economists, activists, and other thinkers. Yet rather than simply offer prescriptions, he shows how ordinary people acting together despite their differences can discover unforeseen possibilities. Along the way, he offers dozens of wise and surprising observations on the value of unconventional thinking, on why we must dramatically increase women ' s leadership in the Church and throughout society, on what he learned while scouring the streets of Buenos Aires with garbage-pickers, and much more. Let Us Dream is an epiphany, a call to arms, and a pleasure to read. It is Pope Francis at his most personal, profound and passionate. With this book and with open hearts, we can change the world.

The novel's protagonist is a British Roman Catholic priest, Father Percy Franklin, who looks identical to the mysterious U.S. Senator Julian Felsenburgh of Vermont. The senator appears as a lone and dramatic figure promising world peace in return for blind obedience. No one quite knows who he is or where he comes from, but his voice mesmerizes. Under his leadership, war is abolished. Felsenburgh becomes the President of Europe, then of the world, by popular acclaim. Everyone is fascinated with him, yet still no one knows much about him. People are both riveted and frightened by the way he demands attention. Most follow without question. Having been a close observer of President Felsenburgh's rise, Father Franklin is called to Rome, a Hong Kong-style enclave ruled by Pope John XXVI and raised to the College of Cardinals. Meanwhile, defections among bishops and priests increase. At Cardinal Franklin's instigation, the pope abolishes the Eastern Catholic Churches and forms a new religious order, the Order of Christ Crucified. All its members, including the Pope, vow to die in the name of the faith.

Laudato Si 'is Pope Francis' second encyclical which focuses on the theme of the environment. In fact, the Holy Father in his encyclical urges all men and women of good will, the rulers and all the powerful on earth to reflect deeply on the theme of the environment and the care of our planet. This is our common home, we must take care of it and love it - the Holy Father tells us - because its end is also ours.
