The book everyone is talking about: how the French manage to raise well-behaved children, and have a life! Who hasn't noticed how well-behaved French children are, compared to our own? How come French babies sleep through the night? Why do French children happily eat what is put in front of them? How can French mothers chat to their friends while their children play quietly? Why are French mothers more likely to be seen in skinny jeans than tracksuit bottoms?

the French manage to feed children without endless battles and struggles with pickiness, French Kids Eat Everything features recipes, practical tips, and ten easy-to-follow rules for raising happy and healthy young eaters—a sort of French Women Don't Get Fat meets Food Rules.

The best-selling author of BRINGING UP BÉBÉ investigates life in her forties, and wonders whether her mind will ever catch up with her face. When Pamela Druckerman turns 40, waiters start calling her "Madame," and she detects a new message in mens' gazes: I would sleep with her, but only if doing so required no effort whatsoever. Yet forty isn't even technically middle-aged anymore. And there are upsides: After a lifetime of being clueless, Druckerman can finally grasp the subtext of conversations, maintain (somewhat) healthy relationships and spot narcissists before they ruin her life. What are the modern forties? What do we know once we reach them? What makes someone a "grown-up" anyway? And why didn't anyone warn us that we'd get cellulite on our arms? Part frank memoir, part hilarious investigation of daily life, There Are No Grown-Ups diagnoses the in-between decade when... • Everyone you meet looks a little bit familiar. • You're matter-of-fact about chin hair. • You can no longer wear anything ironically. • There's at least one sport your doctor forbids you to play. • You become impatient while scrolling down to

your year of birth. • Your parents have stopped trying to change you. • You don't want to be with the cool people anymore; you want to be with your people. • You realize that everyone is winging it, some just do it more confidently. • You know that it's ok if you don't like jazz. Internationally best-selling author and New York Times contributor Pamela Druckerman leads us on a quest for wisdom, self-knowledge and the right pair of pants. A witty dispatch from the front lines of the forties, *THERE ARE NO GROWN-UPS* is a (midlife) coming-of-age story--and a book for anyone trying to find their place in the world.

Describes how to get a newborn on a sleeping and eating schedule and integrate a new addition to a family in a way that will keep everyone happy and healthy.

The #1 New York Times Bestseller: “A hilarious take on that age-old problem: getting the beloved child to go to sleep” (NPR). “Hell no, you can’t go to the bathroom. You know where you can go? The f**k to sleep.” *Go the Fuck to Sleep* is a book for parents who live in the real world, where a few snoozing kitties and cutesy rhymes don’t always send a toddler sailing blissfully off to dreamland. Profane, affectionate, and radically honest, it captures the familiar—and unspoken—tribulations of putting your little angel down for the night. Read by

In this New York Times bestseller, one of America's premier child psychologists offers a must-read account of the dismal state of parenting today, and a vision for how we can better prepare our children for the challenges of the adult world In The Collapse of Parenting, internationally acclaimed author Leonard Sax argues that rising levels

of obesity, depression, and anxiety among young people can be traced to parents abdicating their authority. The result is children who have no standard of right and wrong, who lack discipline, and who look to their peers and the Internet for direction. Sax shows how parents must reassert their authority - by limiting time with screens, by encouraging better habits at the dinner table, and by teaching humility and perspective - to renew their relationships with their children. Drawing on nearly thirty years of experience as a family physician and psychologist, along with hundreds of interviews with children, parents, and teachers, Sax offers a blueprint parents can use to help their children thrive in an increasingly complicated world.
