Sri Garga Samhita - Hare Krsna
Garga Samhita is written by sage Garga. Is there any English translation for Garga Samhita available online?

On the cult of Krishna, Hindu deity.

Hindu mythological text dealing with the story of Krishna and Balarama, Hindu deities and with Krishna worship.

Loving Stones is a study of devotees' conceptions of and worshipful interactions with Mount Govardhan, a sacred mountain located in the Braj region of north-central India that has for centuries been considered an embodied form of Krishna. It is often said that worship of Mount Govardhan "makes the impossible possible." In this book, David L. Haberman examines the perplexing paradox of an infinite god embodied in finite form, wherein each particular form is non-different from the unlimited. He takes on the task of interpreting the worship of a mountain and its stones for a culture in which this practice is quite alien. This challenge involves exploring the interpretive strategies that may explain what seems un-understandable, and calls for theoretical considerations of incongruity, inconceivability, and other realms of the impossible. This aspect of the book includes critical consideration of the place and history of the pejorative concept of idolatry (and its twin, anthropomorphism) in the comparative study of religions. Loving Stones uses the worship of Mount Govardhan as a site to explore ways in which scholars engaged in the difficult work of representing other cultures struggle to make "the impossible possible."

The costs of industrial agriculture are astonishing in terms of damage to the environment, human health, animal suffering, and social equity, and the situation demands that we expand our ecological imagination to meet this crisis. In response to growing dissatisfaction with the existing food system, farmers and consumers are creating alternate models of production and consumption that are both sustainable and equitable. In Growing Stories from India: Religion and the Fate of Agriculture, author A. Whitney Sanford uses the story of the deity Balaram and the Yamuna River as a foundation for discussing the global food crisis and illustrating the Hindu origins of agrarian thought. By employing narrative as a means of assessing modern agriculture, Sanford encourages us to reconsider our relationship with the earth. Merely creating new stories is not enough—she asserts that each story must lead to changed practices. Growing Stories from India demonstrates that conventional agribusiness is only one of many options and engages the work of modern agrarian luminaries to explore how alternative agricultural methods can be implemented.

'Religion is a tool in the hands of the oppressor against the oppressed solely because he frames the commandments and calls them the God's', is an apt description of the Hindu social order. The book rips open the raw nerve of Hinduism—its invidious castes, positioned as a 'God-ordained' institution, commandeered by its freebooter priestly class while clandestinely establishing its religious, social and political hegemony through interpolation of its pristine and effulgent scriptures. The author boldly analyses this imbroglio through a microscopic analysis of these and more related issues: • How priests controlled the Hindu religious, social, educational and political apparatus? • How the dominant priestly class fractured the society into mutually antagonistic subordinated hierarchical segments, and ruled it by reserving all elite jobs for itself? • How the fiendish priesthood emasculated shudras by depriving them of the 'shaastra and shastra' (education and arms) and made them permanent 'village servant classes'? • How the pretensions of attaining siddhis through 'meditation and penances' established priests as the 'gods on earth' for their assertions of 'purity and effulgence'? • How 'karma', 'reincarnation' and '84-lakhs births' theories were devised to justify fatalism and hierarchical gradation of varnas? • Can India be rightfully called the 'vishvaguru' and the mother of all civilisations? • How Buddhism effeminated Hindus and made them the doormats for the ruthless? • Why Hindus had to abandon their own, to adop foreign institutions of governance? • Why Hinduism should become a universal and proselytising faith and fight demographic challenges posed by Islam and Christianity?

Fifty vignettes showcase the myriad shades of human nature A man dumps his aged father in an old-age home after declaring him to be a homeless stranger, a tribal chief in the Sahyadri hills teaches the author that there is humility in receiving too, and a sick woman remembers to thank her benefactor even from her deathbed. These are just some of the poignant and eye-opening stories about people from all over the country that Sudha Murty recounts in this book. From incredible examples of generosity to the meanest acts one can expect from men and women, she records everything with wry humour and a directness that touches the heart. First published in 2002, Wise and Otherwise has sold over 30,000 copies in English and has been translated into all the major Indian languages. This revised new edition is sure to charm many more readers and encourage them to explore their inner selves and the world around us with new eyes.

In the tidal wave of intellectual argument that followed the 2006 release of Richard Dawkins's God Delusion book, a fierce debate has raged between atheism and religion over the existence of God, leaving the world's scientists and laymen largely undecided in their opinion. God's Illusion Machine presents a fascinating alternative to a debate that has largely been argued within the framework of Christian versus science concepts. Drawing upon the world's oldest body of knowledge (the Vedas), the author describes the massive illusion to which we are all subjected as we mistakenly believe ourselves to be physical creations of the material world. In God's Illusion Machine, the material world is gradually exposed as the ultimate virtual reality machine for wayward souls who prefer a self-centred, rather than a God-centred, existence. In contrast to Richard Dawkins's assertion that the religious are suffering a delusion for believing in God, the author argues that both the atheists and the religious are under the spell of God's deluding energy called Mäyä, which acts in reciprocation with a soul's desire to be in illusion within the physical realm. By applying the profound spiritual insights of Vedic knowledge along with a healthy dose of common sense and good humour, God's Illusion Machine is an enthralling exposé of the deceptive nature of the material world and the false claims of materialists regarding the nature of life and love. It is a triumph of spirituality over both atheistic materialism and religious dogmatism. God's Illusion Machine is a work of major importance realigning Western religion, philosophy, and science with eternal spiritual truths, an enlightening read for both the atheist and the religious, bringing spiritual certainty and true love to bewildered souls in troubled times. For atheists who like a good argument, for the religious who are stuck for a reply to Richard Dawkins, for fans of fantasy and sci-fi where forces of light and illusion contend in battle, and for you, the reader, whatever your disposition, this book will forever change your outlook on life and its meaning. As the rising sun disperses the darkness of night, so in the presence of Krishna (The Absolute Truth), mäyä (illusion) cannot stand.
