Richard Greene-no relation-says ruefully of Graham Greene that his life is "sometimes boiled down to sex, books and depression" by critics. In his exhaustive, engaging study of Greene, his biographer attempts to reclaim him as a writer who speaks to our "unquiet world" rather than being mired in "Greeneland," a place where betrayal and guilt trudge glumly on together . . .

The introduction to the book devotes several pages to this matter. When I edited Graham Greene: A Life in Letters I was overwhelmed by the amount of family correspondence and letters to friends and business associates that had recently come to light – that is, after Sherry and Shelden had completed their research. Since then, Yvonne Cloetta’s memoir has been published; Father Leopoldo Duran’s papers have gone to Georgetown; Bernard Diederich has written a memoir, which, alone ...

Richard Greene Interviewed - Graham Greene

Graham Greene was an English novelist regarded by many as one of the greatest writers of the 20th century. Combining literary acclaim with widespread popularity, Greene acquired a reputation early in his lifetime as a major writer, both of serious Catholic novels, and of thrillers. He was shortlisted, in 1966 and 1967, for the Nobel Prize for Literature. He produced over 25 novels, as well as several plays, autobiographies, and short stories.

A Finalist for the 2022 Edgar Award A Washington Post Best Nonfiction Book of the Year A vivid, deeply researched account of the tumultuous life of one of the twentieth century’s greatest novelists, the author of The End of the Affair. One of the most celebrated British writers of his generation, Graham Greene’s own story was as strange and compelling as those he told of Pinkie the Mobster, Harry Lime, or the Whisky Priest. A journalist and MI6 officer, Greene sought out the inner narratives of war and politics across the world; he witnessed the Second World War, the Vietnam War, the Mau Mau Rebellion, the rise of Fidel Castro, and the guerrilla wars of Central America. His classic novels, including The Heart of the Matter and The Quiet American, are only pieces of a career that reads like a primer on the twentieth century itself. The Unquiet Englishman braids the narratives of Greene’s extraordinary life. It portrays a man who was traumatized as an adolescent and later suffered a mental illness that brought him to the point of suicide on several occasions; it tells the story of a restless traveler and unflinng advocate for human rights exploring troubled places around the world, a man who struggled to believe in God and yet found himself described as a great Catholic writer; it reveals a private life in which love almost always ended in ruin, alongside a larger story of politicians, battlefields, and spies. Above all, The Unquiet Englishman shows us a brilliant novelist mastering his craft. A work of wit, insight, and compassion, this new biography of Graham Greene, the first undertaken in a generation, responds to the many thousands of pages of letters that have recently come to light and to new memoirs by those who knew him best. It deals sensitively with questions of private life, sex, and mental illness, and sheds new light on one of the foremost modern writers.

An autobiographical account in letters offers insight into the late-twentieth-century author's political influence, espionage activities, and personal life, in a volume that also covers how his work was influenced by his humanitarian visits to Mexico, Vietnam, and Cuba. 10,000 first printing.

There have been a number of Graham Greene biographies, but none has captured his voice, his loves, hates, family and friends—intimate and writerly—or his deep understanding of the world, like this astonishing collection of letters. Graham Greene is one of the few modern novelists who can be called great. In the course of his long and eventful life (1904—1991), he wrote tens of thousands of letters to family, friends, writers, publishers and others involved in his various interests and causes. A Life in Letters presents a fresh and engrossing account of his life, career and mind in his own words. Meticulously chosen and engagingly annotated, this selection of letters—many of them seen here for the first time—gives an entirely new perspective on a life that combined literary achievement, political action, espionage, exotic travel and romantic entanglement. In several letters, the individuals, events or places described provide the inspiration for characters, episodes or locations found in his later fiction. The correspondence describes his travels in Mexico, Africa, Malaya, Vietnam, Haiti, Cuba, Sierra Leone, Liberia and other trouble spots, where he observed the struggles of victims and victors with a compassionate and truthful eye. The volume includes a vast number of unpublished letters to authors Evelyn Waugh, Auberon Waugh, Anthony Powell, Edith Sitwell, R.K. Narayan and Muriel Spark, and to other more notorious individuals such as the double-agent Kim Philby. Some of these letters dispute previous assessments of his character, such as his alleged anti-Semitism or obscenity, and he emerges as a man of deep integrity, decency and courage. Others reveal the agonies of his romantic life, especially his relations with his wife, Vivien Greene, and with one of his mistresses, Catherine Walston. The letters can be poignant, despairing, amorous, furious or amusing, but the sheer range of experience contained in them will astound everyone who reads this book.

Graham Greene's 'long journey through time' began in 1904, when he was born into a tribe of Greenes based in Berkhamstead at the public school where his father was headmaster. In A Sort of Life Greene recalls schooldays and Oxford, adolescent encounters with psychoanalysis and Russian roulette, his marriage and conversion to Catholicism, and how he rashly resigned from The Times when his first novel, The Man Within was published in 1929. A Sort of Life reveals, brilliantly and compellingly, a life lived and an art obsessed by 'the dangerous edge of things'.

This study reveals Greene in a dual role as author, one who projects literary experience into his view of life and subsequently projects both his experience and its "literary" interpretation into his fiction; and it defines two phases of Greenes novels through the changing relationship between writer and protagonists. The first phase progresses from acutely sensitive, self-divided young men somewhat like the young Greene to embittered, alienated characters ostensibly at great distance from their creator. The second phase (1939) includes a series of "portraits of the artist" through which Greene confronts more directly the tensions and conflicts of his private life.

"An astonishingly thorough yet readable story, hard-nosed yet sympathetic...." - Margaret Atwood (1995)

Through letters, diaries, and interviews this final volume of Graham Greene's biography takes him from China to the peril of Cuba, through the rigours of the Belgian Congo, to Haiti and other places that he visited up to the time of his quiet death at 86 in Switzerland.

This memoir of Graham Greene's life is by his long-term companion.

Informative, broad-ranging, and sheds new light on the life and literary art of one of the last century's most celebrated authors.
