Con un ritmo inesorabile e un crescendo di suspense, Karen Sander ci regala il capitolo più intenso e sorprendente della serie. Lunedì 28 settembre, ore 00.17. La polizia di Düsseldorf riceve una strana chiamata: qualcuno ha notato movimenti sospetti in una fabbrica abbandonata nella zona del porto. Ma quando gli agenti arrivano sul posto, si rendono subito conto che non si tratta di banali traffici: questo è un caso per la Omicidi; questo è un caso per Georg Stadler. Svegliato di soprassalto e condotto sulla scena, il commissario si trova di fronte uno spettacolo sconcertante: una pozza di sangue sul pavimento, un rasoio, uno specchio in frantumi, ma... nessun

cadavere. Solo un oscuro codice tracciato sulla parete. Un mistero indecifrabile, se non fosse che a distanza di pochi giorni, in una camera di albergo, viene rinvenuto il corpo di una donna con indosso solo un paio di slip, la mano destra appoggiata sul petto in una posa innaturale. Sangue dappertutto: sulle lenzuola bianche, sul tappeto, sul collo e sui lunghi capelli della vittima. Due casi apparentemente scollegati, eppure Stadler non riesce a liberarsi da un sospetto: entrambe le scene del crimine sembrano allestite come un macabro set cinematografico. Al commissario non resta che ricorrere di nuovo all'aiuto di Liz Montario, la brillante profiler a cui è legato da una sottile attrazione. Ma stavolta anche Liz avrà del filo da torcere, perché ogni progresso nell'indagine, ogni nuova scoperta sembra convergere su un unico indiziato: lo stesso commissario Stadler.

In order to save a life, he must take one... When Navy SEAL Mack Bedford's fellow officers are brutally killed by Iraqi insurgents using a new, anti-tank Diamondhead missile, Mack recklessly avenges their deaths by gunning down the attackers, resulting in his expulsion from the Navy. He learns that the Diamondheads were sold illegally by infamous French politician Henri Foche. Mack suspects that Foche will triumph in his campaign to become the next French president and fears that his election will promote the spread of international terrorism. In addition, Mack has a gravely ill son whose life can only be saved by an expensive and experimental medical procedure. So when Mack is asked to help assassinate Foche, his hand is forced... His reward: a chance at survival, not just for his son, but for his country. But before Mack can reach his target, a jilted mercenary group warns the Frenchman of the threat, greatly increasing the difficulty of Mack's solo assassination attempt. Can he succeed - and survive? A non-stop action thrill ride, Diamondhead is perfect for fans of Vince Flynn, Andy McNab and Frederick Forsyth.

Italian Alps, a body is found--the first in a string of gruesome murders. Superintendent Teresa Battaglia, a detective with years of experience and a background in criminal profiling, is called to investigate, along with young city inspector Massimo Marini. Buried deep in these mountains--a place of secrets, eerie folktales, and primal instincts--are whispers of a dark and dangerous history.

#1 INTERNATIONAL BESTSELLER "One of the best I've come across."-- Michael Connelly, #1 bestselling author of The Late Show
The body of an unidentified woman has been discovered in a remote forest. A large, unique scar on one side of her face should make the identification easy, but nobody has reported her missing. Louise Rick, the new commander of the Missing Persons Department, waits four long days before pulling off a risky move: releasing a photo of the victim to the media, jeopardizing the integrity of the investigation in hopes of finding anyone who knew her. The gamble pays off when a woman recognizes the victim as Lisemette, a child she cared for in the state mental institution many years ago. Lisemette was a "forgotten girl", abandoned by her family and left behind in the institution. But Louise soon discovers something even more disturbing: Lisemette had a twin, and both girls were issued death certificates more than thirty years ago. Louise's investigation takes a surprising twist when it brings her closer to her childhood home. And as she uncovers more crimes that were committed--and hidden--in the forest, she is forced to confront a terrible link to her own past that has been carefully concealed. Set against a moody and atmospheric landscape, **THE FORGOTTEN GIRLS** is twisty, suspenseful, emotionally intense novel that secures Sara Blaedel's place in the pantheon of great thriller writers.

(Publishers Weekly). In her peaceful town outside Beirut, Ruba is slowly awakening to the shifting contours within her household: hardly speaking and refusing to work, her father has inexplicably withdrawn from his family in favor of his favorite armchair; her once-youthful mother looks so sad that Ruba imagines her heart must have withered like a fig in the heat; and Ruba's brother, Naji, is spending less time with Ruba than he is with older friends, some of whom carry guns. In trying to salvage her family, Ruba uncovers a secret from her father's past. It sends her on a journey far from the fantasies of youth and into a brutal reality where men kill in the name of faith and race, old wrongs remain unforgiven, and where nothing less than self-sacrifice and unity can offer survival. But as Israeli troops invade Beirut and danger moves ever closer, Ruba realizes that she alone may not be able to keep her loved ones safe. She must first save her father. "Exquisitely affecting . . . page-turningly suspenseful . . . A Girl Made of Dust is equally gripping as a poignant family drama and as a visceral depiction of living with war literally crashing on your doorstep" (Words Without Borders). With its "delightful and precocious narrator [reminiscent of] Scout in *To Kill a Mockingbird*," Abi-Ezzi captures both a country and a childhood plagued by a conflict that even at its darkest and most threatening, carries the promise of healing and retribution (Christian Science Monitor).

Miranda meets the Scorpion. Trouble ensues.
