Hiroshima John Hersey Study Guide Answers

Hiroshima: Plot Overview | SparkNotes. On August 6, 1945, the American army decimates the city of Hiroshima with a bomb of enormous power; out of a population of 250,000, the bomb kills nearly 100,000 people and injures 100,000 more. In its original edition, Hersey's Hiroshima traces the lives of six survivors—two doctors, two women, and two religious men—from the moment the bomb drops until a few months later.

Hiroshima is the story of six people--a clerk, a widowed seamstress, a physician, a Methodist minister, a young surgeon, and a German Catholic priest--who lived through the greatest single manmade disaster in history. In vivid and indelible prose, Pulitzer Prize-winner John Hersey traces the stories of these half-dozen individuals from 8:15 a.m. on August 6, 1945, when Hiroshima was destroyed by the first atomic bomb ever dropped on a city, through the hours and days that followed. Almost four decades after the original publication of this celebrated book, Hersey went back to Hiroshima in search of the people whose stories he had told, and his account of what he discovered is now the eloquent and moving final chapter of Hiroshima.

On August 6, 1945, Hiroshima was destroyed by the first atom bomb ever dropped on a city. This book, John Hersey's journalistic masterpiece, tells what happened on that day. Told through the memories of survivors, this timeless, powerful and compassionate document has become a classic "that stirs the conscience of humanity" (The New York Times). Almost four decades after the original publication of this celebrated book, John Hersey went back to Hiroshima in search of the people whose stories he had told. His account of what he discovered about them is now the eloquent and moving final chapter of Hiroshima.

The classic tale of the day the first atom bomb was dropped offers a haunting evocation of the memories of survivors and an appeal to the conscience of humanity

BookCap Study Guides do not contain text from the actual book, and are not meant to be purchased as alternatives to reading the book.

Our understanding of the concept of narrative has undergone a significant transformation over time, particularly today as new communication technologies are developed and popularized. As new narrative genres are born and old ones undergo great change by the minute, a thorough understanding can shed light on which storytelling elements work best in what format. That deep understanding can then help build strong, satisfying stories. The Handbook of Research on Narrative Interactions is an essential publication that examines the relationships between types of narratives in a shifting and widening scope of storytelling forms. While highlighting a wide range of topics including contemporary culture, advertising, and transmedia storytelling, this book is ideally designed for media professionals, content creators, advertisers, entrepreneurs, researchers, academicians, and students.

The bombing of Hiroshima was one of the pivotal events of the twentieth century, yet this controversial question remains unresolved. At the time, General Dwight Eisenhower, General Douglas MacArthur, and chief of staff Admiral William Leahy all agreed that an atomic attack on Japanese cities was unnecessary. All of them believed that Japan had already been beaten and that the war would soon end. Was the bomb dropped to end the war more quickly? Or did it herald the start of the Cold War? In his probing new study, prizewinning historian Ronald Takaki explores these factors and more. He considers the cultural context of race - the ways in which stereotypes of the Japanese influenced public opinion and policymakers - and also probes the human dimension. Relying on top secret military reports, diaries, and personal letters, Takaki relates international policies to the individuals involved: Los Alamos director J. Robert Oppenheimer, Secretary of State James Byrnes, Secretary of War Henry L. Stimson, and others... but above all, Harry Truman.

Not too far from now, in a world very like our own, the oppressors have changed places with the oppressed. After their defeat in the Yellow War, the white people of America are thrust into a brutally altered reality. They are hunted like wild beasts and drive like cattle, transported in reeking ships and sold to their conquerors as field hands and house slaves. Robbed of their old names and their old language, treated with a mixture of cruelty and condescension by their Chinese masters, whites take on new identities and new strategies of survival. Some, like Nose, plunge into dissipation. Others, like Top

Man, become imitation Yellows. And some, like White Lotus, rebel. In this mesmerizing book John Hersey creates an alternate history that casts a harsh radiance on our own. It has some of the stateliness of Exodus, along with the power of oral narratives of slavery. It has heroes and victims—and villains who turn out to be victims of another color. At once a masterpiece of storytelling and a complex novel of ideas, White Lotus compels us to reexamine our notions of race and racism, freedom and oppression.
