En ni-årig pige fortæller om livet i en lille sydstatsby og om sin fars indsats som sagfører for en uskyldigt anklaget neger

The #1 New York Times bestselling sequel to Words of Radiance, from epic fantasy author Brandon Sanderson at the top of his game. In Oathbringer, the third volume of the New York Times bestselling Stormlight Archive, humanity faces a new Desolation with the return of the Voidbringers, a foe with numbers as great as their thirst for vengeance. Dalinar Kholin's Alethi armies won a fleeting victory at a terrible cost: The enemy Parshendi summoned the violent Everstorm, which now sweeps the world with destruction, and in its passing awakens the once peaceful and subservient parshmen to the horror of their millennia-long enslavement by humans. While on a desperate flight to warn his family of the threat, Kaladin Stormblessed must come to grips with the fact that the newly kindled anger of the parshmen may be wholly justified. Nestled in the mountains high above the storms, in the tower city of Urithiru, Shallan Davar investigates the wonders of the ancient stronghold of the Knights Radiant and unearths dark secrets lurking in its depths. And Dalinar realizes that his holy mission to unite his homeland of Alethkar was too narrow in scope. Unless all the nations of Roshar can put aside Dalinar's blood-soaked past and stand together—and unless Dalinar himself can confront that past—even the restoration of the Knights Radiant will not prevent the end of civilization. A Newbery Honor WinnerA New York Times Bestseller This stunning fantasy inspired by Chinese folklore is a companion novel to Starry River of the Sky and the New York Times bestselling and National Book Award finalist When the Sea Turned to Silver In the valley of Fruitless mountain, a young girl named Minli lives in a ramshackle hut with her parents. In the evenings, her father regales her with old folktales of the Jade Dragon and the Old Man on the Moon, who knows the answers to all of life's questions. Inspired by these stories, Minli sets off on an extraordinary journey to find the Old Man on the Moon to ask him how she can change her family's fortune. She encounters an assorted cast of characters and magical creatures along the way, including a dragon who accompanies her on her quest for the ultimate answer. Grace Lin, author of the beloved Year of the Dog and Year of the Rat returns with a wondrous story of adventure, faith, and friendship. A fantasy crossed with Chinese folklore, Where the Mountain Meets the Moon is a timeless story reminiscent of The Wizard of Oz and Kelly Barnhill's The Girl Who Drank the Moon. Her beautiful illustrations, printed in full-color, accompany the text throughout. Once again, she has created a charming, engaging book for young readers.

The #1 New York Times bestselling novel and basis for the Academy Award-winning film—a timeless and universal story about the lines we abide by, and the ones we don't—nominated as one of America's best-loved novels by PBS's The Great American Read. Aibileen is a black maid in 1962 Jackson, Mississippi, who's always taken orders quietly, but lately she's unable to hold her bitterness back. Her friend Minny has never held her tongue but now must somehow keep secrets about her employer that leave her speechless. White socialite Skeeter just graduated college. She's full of ambition, but without a husband, she's considered a failure. Together, these seemingly different women join together to write a tell-all book about work as a black maid in the South, that could forever alter their destinies and the life of a small town...

We live in a highly connected world with multiple self-interested agents interacting and myriad opportunities for conflict and cooperation. The goal of game theory is to understand these opportunities. This book presents a rigorous introduction to the mathematics of game theory without losing sight of the joy of the subject. This is done by focusing on theoretical highlights (e.g., at least six Nobel Prize winning results are developed from scratch) and by presenting exciting connections of game theory to other fields such as computer science (algorithmic game theory), economics (auctions and matching markets), social choice (voting theory), biology (signaling and evolutionary stability), and learning theory. Both classical topics, such as zero-sum games, and modern topics, such as sponsored search auctions, are covered. Along the way, beautiful mathematical tools used in game theory are introduced, including convexity, fixed-point theorems, and probabilistic arguments. The book is appropriate for a first course in game theory at either the undergraduate or graduate level, whether in mathematics, economics, computer science, or statistics. The importance of game-theoretic thinking transcends the academic setting—for every action we take, we must consider not only its direct effects, but also how it influences the incentives of others.

The Bible is shown to be a collection of human documents reflecting the faith and worldview of ancient people. The Bible should be appreciated as human literature. Some authors claimed divine authority while others did not.

The Oxford History of the Novel in English is a 12-volume series presenting a comprehensive, global, and up-to-date history of English-language prose fiction and written by a large, international team of scholars. The series is concerned with novels as a whole, not just the "literary" novel, and each volume includes chapters on the processes of production, distribution, and reception, and on popular fiction and the fictional sub-genres, as well as outlining the work of major novelists, movements, traditions, and tendencies. In thirty-four essays, this volume reconstructs the emergence and early cultivation of the novel in the United States. Contributors discuss precursors to the U.S. novel that appeared as colonial histories, autobiographies, diaries, and narratives of Indian captivity, religious conversion, and slavery, while paying attention to the entangled literary relations that gave way to a distinctly American cultural identity. The Puritan past, more than two centuries of Indian wars, the American Revolution, and the exploration of the West all inspired fictions of American struggle and self-discovery. A fragmented national publishing landscape comprised of small, local presses often disseminating odd, experimental forms eventually gave rise to major houses in Boston, New York, and Philadelphia and a consequently robust culture of letters. "Dime novels", literary magazines, innovative print technology, and even favorable postal rates contributed to the burgeoning domestic book trade in place by the time of the Missouri Compromise. Contributors weigh novelists of this period alongside their most enduring fictional works to reveal how even the most "American" of novels sometimes confronted the inhuman practices upon which the promise of the new republic had been made to depend. Similarly, the volume also looks at efforts made to extend American interests into the wider world beyond the nation's borders, and it thoroughly documents the emergence of novels projecting those imperial aspirations.

Considered by many to be mentally retarded, a brilliant, impatient fifth-grader with cerebral palsy discovers a technological device that will allow her to speak for the first time.

"This majestic, moving novel is an instant classic, a book that will be read, discussed and taught beyond the rest of our lives."—Chicago Tribune Winner of the National Book Critics Circle Award, A Lesson Before Dying is a deep and compassionate novel about a young man who returns to 1940s Cajun country to visit a black youth on death row for a crime he didn't commit. Together they come to understand the heroism of resisting. From the critically acclaimed author of A Gathering of Old Men and The Autobiography of Miss Jane Pittman.
