But 'Hot Tea across India' - has nothing of those detailed accounts of gear shifts and engine oil changes and brake horse power. What it has instead as a common thread - is a cup of tea. Across the length and breadth of India, no matter where he goes, Mr Mehta manages to find at least one lone tea stall.

On Rishad Saam Mehta’s journeys — and as a travel writer and all-round road-trip junkie, he’s been on many — there’s a particular thing he noticed. There’s not a highway, road or dirt track in India where you can’t find a cup of chai whenever you want it. And with those cuppas come encounters and incidents that make travelling in India a fascinating adventure. In this riveting book, which includes stories of honey- and saffron-infused tea shared with a shepherd in Kashmir, and a strong brew that revives the author after almost getting lynched by an irate mob in Kerala, Rishad takes you across the length and breadth of India, from Manali to Munnar, from the Rann of Kutch to Khajuraho, with a wonderful combination of wit, sensitivity and insight.

Long-listed for the Man Booker Prize, a novel about violence, love, and religion in modern India On a train bound for the seaside town of Jarmuli, known for its temples, three elderly women meet a young documentary filmmaker named Nomi, whose braided hair, tattoos, and foreign air set her apart. At a brief stop en route, the women witness a sudden assault on Nomi that leaves her stranded as the train pulls away. Later in Jarmuli, among pilgrims, priests, and ashrams, the women disembark only to find that Nomi has managed to arrive on her own. What is someone like her, clearly not a worshipper, doing in this remote place? Over the next five days, the women live out their long-planned dream of a holiday together; their temple guide pursues a forbidden love; and Nomi is joined by a photographer to scout locations for a documentary. As their lives overlap and collide, Nomi’s past comes into focus, and the serene surface of the town is punctured by violence and abuse as Jarmuli is revealed as a place with a long, dark history that transforms all who encounter it. A haunting, vibrant novel that was long-listed for the Man Booker Prize and the DSC Prize for South Asian Literature and short-listed for the Hindu Literary Prize, Anuradha Roy’s Sleeping on Jupiter is a brilliantly told story of contemporary India from an internationally acclaimed writer.

A beautifully photographed and designed cookbook and guide to the cultural phenomenon that is boba, or bubble tea--featuring recipes and reflections from The Boba Guys tea shops. Andrew Chau and Bin Chen realized in 2011 that boba--the milk teas and fruit juices laced with chewy tapioca balls from Taiwan that were exploding in popularity in the States--was still made from powders and mixes. No one in the U.S. was making boba with the careful attention it deserved, or using responsible, high-quality ingredients and global, artisanal inspiration. So they founded The Boba Guys: a chic, modern boba tea shop that has now grown to include fourteen locations across the country, bringing bubble tea to the forefront of modern drinks and bridging cultures along the way. Now, with The Boba Book, the Boba Guys will show fans and novices alike how they can make their (new) favorite drink at home through clear step-by-step guides. Here are the recipes that people line up for--from the classics like Hong Kong Milk Tea, to signatures like the Strawberry Matcha Latte and the coffee-laced Dirty Horchata. For the Boba Guys, boba is Taiwanese, it’s Japanese, it’s Mexican, it’s all that and more--which means it’s all-American.

Although tea had been known and consumed in China and Japan for centuries, it was only in the seventeenth century that Londoners first began drinking it. Over the next two hundred years, its stimulating properties seduced all of British society, as tea found its way into cottages and castles alike. One of the first truly global commodities and now the world’s most popular drink, tea has also, today, come to epitomize British culture and identity. This impressively detailed book offers a rich cultural history of tea, from its ancient origins in China to its spread around the world. The authors recount tea’s arrival in London and follow its increasing salability and import via the East India Company throughout the eighteenth century, inaugurating the first regular exchange—both commercial and cultural—between China and Britain. They look at European scientists’ struggles to understand tea’s history and medicinal properties, and they recount the ways its delicate flavor and exotic preparation have enchanted poets and artists. Exploring everything from its everyday use in social settings to the political and economic controversies it has stirred—such as the Boston Tea Party and the First Opium War—they offer a multilayered look at what was ultimately an imperial industry, a collusion—and often clash—between the world’s greatest powers over control of a simple beverage that has become an enduring pastime.

A sensory celebration of family, food, and culture

She looked at her watch for the sixth time and prayed silently for the eighth time. Ten minutes to call it an hour. Her mother wouldn't go to sleep happily tonight. Her father would once again get sandwiched in a nasty debate between the two most important women in his life. But then again, such is living. In the DOTCOM MARRIAGE ERA. Welcome to the life of Ms Bengal Rani who has set out on one of the most arduous tasks of her life, which is finding a man to marry. Actually happily marry. Now, the most obvious option for her is the booming online shaadi bazaar of our country. Problem solved? Not really. In fact, it gets more twisted here on. A day dreamer, Mr Telecom Raja, with a bucket list so bizarre that can be safely named cringe worthy, or a narcissist Aeroplane Mistri who meets every girl with a pre-conceived notion that she is already smitten. These and more are specimens of the prospective bridegrooms who Bengal Rani is encountering. And with raised eyebrows realising a simple fact of life — All men are not from Mars. Some escaped Black Hole and need to be sent back to it. On urgent basis! Are these the experiences of only one woman? No, for a book like this, a lot of interesting, intelligent and slightly frustrated women need to meet...gossip...and bitch. Are these experiences 100% real? I leave that on you to decide. But then, I rarely lie. So welcome to my Tamasha — a Pandora ’s Box of extreme encounters!

The astonishing, uplifting story of a real-life Indiana Jones and his humanitarian campaign to use education to combat terrorism in the Taliban's backyard Anyone who despairs of the individual's power to change lives has to read the story of Greg Mortenson, a homeless mountaineer who, following a 1993 climb of Pakistan's treacherous K2, was inspired by a chance encounter with impoverished mountain villagers and promised to build them a school. Over the next decade he built fifty-five schools—especially for girls—that offer a balanced education in one of the most isolated and dangerous regions on earth. As it chronicles Mortenson's quest, which has brought him into conflict with both enraged Islamists and uncomprehending Americans, Three Cups of Tea combines adventure with a celebration of the humanitarian spirit.
