MAHARASHTRA HSC QB Malcolm Forbes said “ Education's purpose is to replace an empty mind with an open one ” and this is something which is always followed by Maharashtra State Board of Secondary & Higher Education (MSBSHSE). The aim of the Board is not just to let learners obtain basic knowledge but to make them life-long learners. The purpose of this book is to nurture individuality and thus enhance one's innate potentials which help in increasing the self-study mode for students. This book strengthens knowledge and attitude related to subject. This book is designed in such a way that students can set their own goals and can improve their problem solving and thinking skills. This book is strictly as per the latest Maharashtra Board Curriculum for HSC Exams. It contains variety of questions from latest textbooks. It contains all types of questions like VSA Questions (Very Short Answer), SA Questions (Short Answer), MCQs (Multiple Choice Questions) and LA Questions (Long Answer). A synopsis is given for every chapter which contains important points from that chapter. Each chapter has high

quality figures wherever required for better, fast and clear understanding. OSWAAL HSC Question Bank is different and better in terms of High Quality Questions which are developed by 'OSWAAL Expert Panel'. The Question Bank is strictly based on the latest MSBSSHSE Textbooks and is arranged 'TOPIC-WISE' where each Topic from every Chapter is explained in detail. Through OSWAAL Books students are taught how to think, not what to think. We at OSWAAL Books try to use quality content, standard language, creativity and high quality figures, which makes learning easy and fun. This is one of the reasons that the scope of this book extends from students to teachers. Teachers can use this book as a perfect teaching guide and students can use this book for good learning and practice.

Target sparked the democratization of design two decades ago, as the first retailer to forge partnerships with well-known and emerging designers to offer high style without the high price tag. This idea altered the fashion and style landscape forever--and became a retail game changer. Now readers can discover the inside story from those who were there--the designers, photographers, creators, superfans, and, of course, the Target guests. For 20 years, Target's design partnerships have made a mark on culture at large, with the retailer's brand promise of "Expect More. Pay Less." embracing the belief that design should be accessible, too. At the center of Design for All are the designers -- offering exclusive collections in stores or at another Target first, the pop-up shop. From Michael Graves to Isaac Mizrahi, John Paul Gaultier to Philippe Starck, Jason Wu, Alexander McQueen, Gwen Stefani and more, Target has collaborated with more than 180 designers throughout the past two decades. And this book covers it all with new glimpses behind some of the most iconic collections including Missoni, Stephen Sprouse, and Lily Pulitzer. Target: 20 Years of Design for All is the definitive tale of Target's impact on culture and retail with page after page recounting every one of those memorable years. Through beautiful photographs, advertising stills, sketches, and interviews with designers, influencers and Target insiders, this book offers everything readers love about Target. It's chic and approachable. Stylish and inclusive. With surprises around every corner.

This is the revised edition of the book with new chapters to incorporate the latest developments in the field. It contains approx. 200 problems from various competitive examinations (GATE, IES, IAS) have been included. The author does hope that with this, the utility of the book will be further enhanced.

The increased exposure to toxins, toxicants and novel drugs has promoted toxicology to become one of the most important areas of research with emerging innovative toxicity testing protocols, techniques, and regulation being placed. Since the bioactivation of many toxins and toxicants and its consequences on human health are not clearly known, this book offers a quick overview of cellular toxicology through the cell, drug and environmental toxicity. This book does not strive to be comprehensive but instead offers a quick overview of principle aspects of toxins and toxicants in order to familiarize the key principles of toxicology. The book is divided into three main sections,; the first one discusses the role of mitochondrial dysfunction, oxidative stress and mitochondrial drug development. The second and third sections bring light to forensic toxicology and drug poisoning followed by environmental toxicity.
