FROM NOTATION TO MUSIC tells the story of one composer's search for meaning in the musical notations of the late 20th Century. Radical departures from the traditional composer-performer relationship contributed to a re-evaluation of traditional notation. Ralph Blauvelt recounts his confrontation with these issues and the development of his own philosophy in the music he composed between 1964 and 1981. He traces the evolution of his ideas through more than eighty compositions. After working to master the notation of traditional music and the highly determinate notations of serial music, he describes the influence of Karlheinz Stockhausen on his first compositions with indeterminate notations. Studies with Lejaren Hiller and experiments with computer and electronic music inspired new compositions. With over 190 photographs and illustrations Ralph Blauvelt describes his journey and the ideas that led to his text pieces and graphic 'visual' scores.

Do you cringe when a talking head pronounces "niche" as NITCH? Do you get bent out of shape when your teenager begins a sentence with "and"? Do you think British spellings are more "civilised" than the American versions? If you answered yes to any of those questions, you're myth-informed. In *Origins of the Specious*, word mavens Patricia T. O'Conner and Stewart Kellerman reveal why some of grammar's best-known "rules" aren't—and never were—rules at all. This playfully witty, rigorously researched book sets the record straight about bogus word origins, politically correct fictions, phony français, fake acronyms, and more. Here are some shockers: "They" was once commonly used for both singular and plural, much the way "you" is today. And an eighteenth-century female grammarian, of all people, is largely responsible for the all-purpose "he." From the Queen's English to street slang, this eye-opening romp will be the toast of grammarphiles and the salvation of grammarphobes. Take our word for it.

This volume offers a historical, philosophical, and practical critique of public and civic journalism--a movement that gained momentum in the final decade of the 20th century. During that period, proponents of the movement have published nearly a dozen books expanding upon and expounding the virtues of journalism, seeking to repair what is thought to be the torn social, political, and moral fabric in America. Although previous works have established a strong practical underpinning for public and civic journalism, none has examined its philosophical roots or challenged its methodology and grounding in neoliberal constructs. This volume does just that, tracing its origins in early philosophy to the current newsroom policies and practices that conflict with traditional constructs in libertarian press theory. *Twilight of Press Freedom* postulates that institutionalized journalism is fading away and world journalism--prompted by the people--is veering toward more order and social harmony, and away from the traditional idea of the great value of press freedom. The volume provides a critical examination of the trend toward public journalism and considers how press freedom will be impacted by this trend in coming years. Scholars and students in journalism, public opinion, and media studies will find this book insightful and invaluable.

In the sixties, Fitzhugh Mullan was an activist in the civil rights struggle. While in medical school, Mullan was shocked by gaps in what the students learned, and the lack of humanity in the classroom. Later, Dr. Mullan was outraged at the conditions he discovered when he began to practice. He helped found the Student Health Organization, organized the Controversial Medical Collective at Lincoln Hospital in the Bronx, and struggled to offer improved medical care to those who needed it most and could afford it least. This landmark book charts the state of medical school and practices in the 1960s and 70s. This new edition is updated with a preface in which Dr. Mullan reflects on the changes in the medical field over the last thirty-plus years. Fitzhugh Mullan is Murdock Head Professor of Medicine and Health

Policy at George Washington University. He worked at the U.S. Public Health Service where he attained the rank of Assistant Surgeon General (1991-1996). Dr. Mullan is the co-founder of the National Coalition for Cancer Survivorship and the author of numerous books, including *Plagues and Politics: The Story of the United States Public Health Service*, and his most recent book, *Narrative Matters: The Power of the Personal Essay in Health Policy*.

The author of the best-selling *Clutter Busting* books looks further into how holding on to things we no longer need affects relationships and offers thought-provoking questions, exercises and examples to help create clutter-free lives. Original. 20,000 first printing.

Britain's answer to *Marley and Me*—the hilarious and heartwarming international bestseller about learning to live with a troublesome dog. Like many first-time pet owners, London-based novelist Stephen Foster was upbeat as he began his search for a puppy to adopt. How hard can it be to take care of a dog, he thought—read a guidebook or two, buy a few supplies, and get on with it. But all the books and supplies in the world couldn't have prepared him for life with Ollie, a willful and moody adopted dog who quickly demonstrated his displeasure at the notion of being told what to do. *Walking Ollie* tells the funny and charming story of how a growling, skittish man and his equally growling, skittish dog broke each other in, came to see eye to eye, and decided to become best friends.
