The biggest hurdle for junior scholars looking to embark on an academic career is to make the transition from PhD candidate to that first (ideally tenured) job. An imperative part of this process is getting published and yet - increasingly - this is becoming something harder to achieve.

This fifth edition of the Macquarie, measuring a new awareness of environment and fragility, will mark a turning of the tide in our consciousness, in the span of our response, in the way we give voice to place – and place to voice. (Her Excellency Ms Quentin Bryce, Governor-General of the Commonwealth of Australia)Since the Macquarie Dictionary was first published in 1981, its reputation as Australia's national dictionary has gone from strength to strength. It is now nationally and internationally regarded as the standard reference on Australian English. A comprehensive and up-to-date account of our variety of English, it not only includes all those words and senses peculiar to Australian English, but also those common to the whole English-speaking world.

Discusses diseases and ailments that have been connected to sex throughout history, and the reactions to them that have been shaped by religion or morality.

A study of Francisco Jose de Caldas y Tenorio, who was born in 1768 in the Spanish colony Nueva Reino de Granada. In the first half of the 18th cent. France sent an expedition to the equator to learn the true figure of the Earth. However, Spain maintained strict control over the colonies' access to books & other Europeans' access to the colonies. Caldas, with a fervent interest in science & lacking the educational resources & personal contacts available in Europe, developed a scientific program based on what was available to him. The arrival of the Prussian naturalist, Alexander von Humboldt, brought to a head Caldas's discontent with his own isolation from the European community. Black & white illustrations.

SCIENCE AND EMPIRES: FROM THE INTERNATIONAL COLLOQUIUM TO THE BOOK Patrick PETITJEAN, Catherine JAMI and Anne Marie MOULIN The International Colloquium "Science and Empires - Historical Studies about Scientific Development and European Expansion" is the product of an International Colloquium, "Sciences and Empires - A Comparative History of Scientific Exchanges: European Expansion and Scientific Development in Asian, African, American and Oceanian Countries". Organized by the REHSEIS group (Research on Epistemology and History of Exact Sciences and Scientific Institutions) of CNRS (National Center for Scientific Research), the colloquium was held from 3 to 6 April 1990 in the UNESCO building in Paris. This colloquium was an idea of Professor Roshdi Rashed who initiated this field of studies in France some years ago, and proposed "Sciences and Empires" as one of the main research programmes for the The project to organize such a colloquium was a bit REHSEIS group. of a gamble. Its subject, reflected in the title "Sciences and Empires", is not a currently-accepted sub-discipline of the history of science; rather, it refers to a set of questions which found autonomy only recently. The terminology was strongly debated by the participants and, as is frequently suggested in this book, awaits fuller clarification.

Guiding readers through the basics of these rapidly emerging networks to more advanced concepts and future expectations, this book examines the most pressing research issues in Mobile Ad hoc Networks (MANETs). Leading researchers, industry professionals, and academics provide an authoritative perspective of the state of the art in MANETs. The book includes surveys of recent publications that investigate key areas of interest such as limited resources and the mobility of mobile nodes. It considers routing, multicast, energy, security, channel assignment, and ensuring quality of service.
