MIVEC (Mitsubishi Innovative Valve timing Electronic Control system) is the brand name of a variable valve timing (VVT) engine technology developed by Mitsubishi Motors.MIVEC, as with other similar systems, varies the timing of the intake and exhaust camshafts which increases the power and torque output over a broad engine speed range while also being able to help spool a turbocharger more ...

MIVEC - Wikipedia

Thankfully the 6A12 engine of the FTO is a nice modern marvel and it relies on a computer to determine a large range of operating parameters. In this case, the FTO's computer will retard or advance the timing of the spark (i.e. fire the spark plug earlier, or later than optimal) to account for the problems in cambelt timing.

"Prima's" guide for this ultimate racing game includes the tips and info you need to beat the Pros and win the cash.
