# File Type PDF Improved Snails

In Australia, snails are grown in paddocks that have stepping stones for cover, while the vegetation provides the necessary feed.

Although vegetables can be grown for feed, the quantity in a land is not normally sufficient, so additional dry feed has to be provided as the snail population increases.

Snails are extremely easy to handle and

control as they are slow-moving creatures. Small land space is enough to rear thousands of snails.

Therefore, anyone can rear snails in their home garden. Snail droppings are odourless, and snails are silent creatures.

Therefore, they do not cause any disturbance to
