This volume contains the papers selected for presentation at the 2010 International Conference on Active Media Technology (AMT2010), jointly held with the 2010 International Conference on Brain Informatics (BI 2010), at York University, Toronto, Canada, during August 28-30, 2010. Organized by the Web Intelligence Consortium (WIC) and IEEE Computational Intelligence Society Task Force on Brain Informatics (IEEE-CIS TF-BI), this conference was the sixth in

the AMT series since its debut conference at Hong Kong Baptist University in 2001 (followed by AMT 2004 in Chongqing, China, AMT 2005 in Kagawa, Japan, AMT 2006 in Brisbane, Australia, AMT 2009 in Beijing, China). Active media technology (AMT) is a new area of research and development in intelligent information technology and computer science. It emphasizes the proactive, adaptive and seamless roles of interfaces and systems as well as new media in all aspects of digital life. Over the past few years, we have witnessed rapid development of AMT technologies and applications ranging from business and communication to entertainment and learning. Examples include Facebook, Twitter, Flickr, YouTube, Moodle, Club Penguin and Google Latitude. Such developments have greatly changed our lives by enhancing the way we communicate and do business.

Provides lists of selling prices of items found on eBay in such categories as antiques, boats, books, cameras, coins, collectibles, dolls, DVDs, real estate, stamps, tickets, and video games.

This is not a traditional textbook or collection of case studies, but is intended to demonstrate the complex and manifold questions of retail management in the form of 18 lessons that provide a thematic overview of key issues and illustrate them with the help of comprehensive case studies. In the second edition, all chapters were revised and updated. Three new chapters were added to treat topics like online-retailing and multi-channel-strategies as well as the so called verticals in specific chapters. All case studies were replaced by new ones to reflect the most recent developments. Eighteen well-known retail companies from different countries, like Best Buy, IKEA, TK Maxx, Tesco and Decathlon, are now used to illustrate particular aspects of retail management.

As the official publication for Windows Vista, we cover Microsoft's latest OS with more depth, passion and clarity than any other magazine on the market. Each issue is packed with tips, tricks and service elements on every page. We give you an insider's tour of the operating system and illustrate how to get the most out of your PC.

The Naval Academy's culture is a unique and sometimes baffling phenomenon to the outside world, but with this newly updated guide in hand relatives and friends of midshipmen will find answers to all the questions they might have about Academy life. Since it was first published more than a decade ago, parents have relied on the almanac for insights into their sons' and daughters' experiences at Annapolis. Now the son of the original author has taken on the responsibility of bringing the popular reference up to date. An Academy graduate, active duty naval officer, and former English instructor at the Academy, the younger Mackenzie makes full use of his intimate knowledge of Annapolis to fill in the gaps. Along with the latest facts on car ownership, dating policies, athletic requirements, and disciplinary demands, you'll now find a useful guide to Internet resources. A midshipman profile and a dictionary of "Midspeak" completes the picture in a book whose title recalls the midshipmen's own manual, Reef Points, but extends its concept for outsiders seeking practical information about the Academy, the Navy, and Annapolis. Prospective applicants, graduates, newcomers to the USNA staff, and visitors seeking a memento will also be attracted to this useful guide.

PCMag.com is a leading authority on technology, delivering Labs-based, independent reviews of the latest products and services. Our expert industry analysis and practical solutions help you make better buying decisions and get more from technology.

This book provides a comprehensive overview of the current marketing environment in India. It examines the changing dynamics of marketing management against the backdrop of globalization and liberalization, analysing how both marketers and consumers are adapting to radical changes. Insightful perspectives on key issues including market segmentation, brand strategy, product planning, advertising, pricing and distribution strategies as well as challenges of rural marketing are given. This Fourth Edition boasts of incisive coverage of all contemporary concepts and formats of marketing, including retailing, Internet marketing and telemarketing. It is further enriched by varied case studies that are drawn from the Indian experience and will go a long way to inculcate skills of analysis, logical thinking and decision making in students. Valuable not only to students and teachers of marketing management, the book is a must-have for practising managers who want to stay abreast with the latest developments in their field.
