Written in easy to follow language, the book presents cutting-edge agriculturally relevant plant biotechnologies and applications in a manner that is accessible to all. This book introduces the scope and method of plant biotechnologies and molecular breeding within the context of environmental analysis and assessment, a diminishing supply of productive arable land, scarce water resources and climate change. Authors who have studied how agro ecosystems have changed during the first decade and a half of commercial deployment review effects and

Universal forestry contains all the major subjects of forestry including memory based previous years JRF/SRF papers and key points of latest state forest report. The book covers 22 chapters in bullet forms as well as in the tabulated form. This book first edition was highly demandable among the competitors. The unique feature of this book is that all the major Forestry subjects are included in this book. Primary 'Universal Forestry 2nd Edition' is highly useful for ICAR JRF/SRF/NET examinations as well as other allied Forest service examinations. Most important thing is that this book is purely based on ICAR JRF/SRF and NET syllabus. This book includes state wise Forest profile in tabulated form which is very important for all Forestry examinations as well as the interviews of Forestry fields. This book again makes sure that its readers will be able to attempt all the questions asked in ICAR JRF/NET, allied Forestry exams and Forest
