Teaching English Language Learners: Content and Language in Middle and Secondary Mainstream Classrooms is a user-friendly guide for planning, implementing, and assessing high-level, content-area instruction for English Language Learners. Starting with an overview of second language acquisition and the cultural variables that impact teaching and learning, this text goes on to detail planning strategies, units and lessons in the subject areas where it is most difficult to shelter content and scaffold language skills: middle and secondary Math, English Language Arts, History, and Science. Teaching English Language Learners will leave preservice teachers with a foundational understanding of how to purposefully structure, build, and present effective lessons for English Language Learners in these mainstream, content-

area courses.

Technical Skills for Adventure Programming will guide you in becoming an effective adventure educator teaching beginning-level outdoor adventure skills. This book allows you to tap into the knowledge and expertise of skilled instructors who present a lesson plan progression for mastering 12 popular outdoor adventure activities.

Lesson planning is an essential component of every teacher's practice. It is part of a three-tiered, integrated pedagogy: planning, teaching and evaluation. Drawing on the work of skilful teachers and the latest research, this book provides a rationale for lesson planning as an integral part of a teacher's work. It introduces the key concepts and skills of lesson planning and provides a practical framework for their development. The book helps the reader to make an informed choice about the approaches they use to plan lessons, taking into account their subject area and the requirements of individual learners. Covering all aspects of short, medium and long-term planning, chapters include: Writing Appropriate Learning Objectives and Outcomes Designing and Structuring Engaging Teaching Activities Resourcing the Lesson Assessing Students' Learning Strategies for Personalised Learning Evaluating Your Lesson The book also includes practical and reflective activities to help the reader apply the ideas discussed to their own work and key questions to encourage the development of their skilful pedagogy. This highly practical book is essential reading for trainee and practising teachers.

This Boston Globe–Horn Book Honor Book and ALA-ALSC Notable Children's Book provides a riveting brick-by-brick account of how one of the most amazing accomplishments in American architecture came to be. It's 1930 and times are tough for Pop and his son. But look! On the corner of 34th Street and 5th Avenue, a building straight and simple as a pencil is being built in record time. Hundreds of men are leveling, shoveling, hauling. They're hoisting 60,000 tons of steel, stacking 10 million bricks, eating lunch in the clouds. And when they cut ribbon and the crowds rush in, the boy and his father will be among the first to zoom up to the top of the tallest building in the world and see all of Manhattan spread at their feet.
