King Edward VIII. Edward Albert Christian George Andrew Patrick David, HRH Prince of Wales from 1910 to 1936, HM King Edward VIII from 20 January to 11 December 1936, HRH The Duke of Windsor from 1936 to 1972 (born 23 June 1894 in White Lodge Richmond, Surrey, England; died 28 May 1972 in Paris, France).

Drawing on Edward VIII's diaries and love letters and on the private papers of Chamberlain, Churchill, and Baldwin, this biography reveals the man who gave up a throne for love

A study of the life of Edward VIII, from boyhood to Prince of Wales, uncrowned King, in exile, and as Governor of the Bahamas. It also examines his relationships with George V, Queen Mary, the future George VI and Queen Elizabeth, Freda Dudley Ward, Wallis Simpson, Adolf Hitler, and Oswald Mosley.

The thrilling and definitive account of the Abdication Crisis of 1936 On December 10, 1936, King Edward VIII brought a great international drama to a close when he abdicated, renouncing the

# Read Free King Edward VIII The Official Biography

throne of the United Kingdom for himself and his heirs. The reason he gave when addressing his subjects was that he could not fulfill his duties without the woman he loved—the notorious American divorcee Wallis Simpson—by his side. His actions scandalized the establishment, who were desperate to avoid an international embarrassment at a time when war seemed imminent. That the King was rumored to have Nazi sympathies only strengthened their determination that he should be forced off the throne, by any means necessary. Alexander Larman's *The Crown in Crisis* will treat readers to a new, thrilling view of this legendary story. Informed by revelatory archival material never-before-seen, as well as by interviews with many of Edward's and Wallis's close friends, Larman creates an hour-by-hour, day-by-day suspenseful narrative that brings readers up to the point where the microphone is turned on and the king speaks to his subjects. As well as focusing on King Edward and Mrs. Simpson, Larman looks closely at the roles played by those that stood against him: Prime minister Stanley Baldwin, his private secretary Alec Hardinge, and the Archbishop of Canterbury Cosmo Lang. Larman also takes the full measure of those who supported him: the great politician Winston Churchill, Machiavellian newspaper owner Lord Beaverbrook, and the brilliant lawyer Walter Monckton. For the first time in a book about the abdication, readers will read an in-depth account of the assassination attempt on Edward's life and its consequences, a first-person chronicle of Wallis Simpson's scandalous divorce proceedings, information from the Royal Archives about the government's worries about Edward's relationship with Nazi high-command Ribbentrop and a boots-on-the-ground view of how the British people saw Edward as they watched the drama unfold. You won't be able to put down *The Crown in Crisis*, a full panorama of the people and the times surrounding Edward and the woman he loved.

A NEW YORK TIMES BESTSELLER. Sunday Times bestselling

author Andrew Morton reveals new information and sources that totally transform our perception of Wallis Simpson. *Wallis in Love* brings a fascinating new perspective on the 20th century's most controversial royal scandal. Andrew Morton's impeccable research and unerring skill for riveting storytelling combine to present a strong case for a new and startling reveal: that the woman who rocked the world with her uncompromising passion for the Prince of Wales may have fooled everyone by keeping the object of her true passion hidden away... From her relatively lowly beginnings in America - where young Wallis and her mother were dependent on her domineering and powerful Uncle Sol, to her rise through the social ranks and her determination to one day beat men at their own game - to the ultimate conquest of the Prince of Wales, Morton paints a vivid and multi-faceted picture of a compelling, ambitious and often hard-hearted woman, who may have won the jewel in the British crown but very possibly at the expense of her true happiness. *Wallis in Love* reveals the men Wallis truly loved, the men who broke her heart - and the hearts she broke in turn. In this vivid, fresh and frankly amazing portrait of the Duchess of Windsor, Morton draws on interviews, secret letters, diaries and never before seen or heard primary sources. From the day she was born in a ramshackle cottage in the hills to revealing what really happened the night her husband died, Morton paints a fresh and enticing portrait of the Duchess of Windsor.

Before he fell in love with Wallis Simpson, Edward VIII had fallen in love with America. As a young Prince of Wales, Edward witnessed the birth of the American century at the end of the First World War and, captivated by the energy, confidence, and raw power of the USA as it strode onto the world stage, he paid a number of subsequent visits: surfing in Hawaii; dancing with an American shop-girl in Panama; and partying with the cream of New York society on Long Island. Eventually, of course, he fell violently in love with Wallis, a Southern belle and latter-day Scarlett O'Hara.

Forceful, irreverent, and sassy, she embodied everything that Edward admired about modern America. But Edward's fascination with America was not unreciprocated. America was equally fascinated by the Prince, especially his love life, and he became an international media celebrity through newsreels, radio, and the press. Indeed, even in the decades after his abdication in 1936, Edward remained a celebrity in the US and a regular guest of Presidents and the elite of American society.

'Draws startling parallels with Meghan ... Both were 34 when they met their princes, both are adored children of strong, single mothers, both have a pared-down style and an electric presence and both are evidently worshipped by their Royal partners.' S Magazine

Edward Prince of Wales, better known as “ Bertie, ” was the eldest son of Queen Victoria. Charming and dissolute, he was a larger-than-life personality with king-size appetites. A lifelong womanizer, Bertie conducted his countless liaisons against the glittering backdrop of London society, Europe, and the stately homes of England in the second half of the 19th century. Bertie ’ s lovers were beautiful, spirited, society women who embraced a wide field of occupations. There was Lillie Langtry, the simple Jersey girl who would become an actress and producer; “ Daisy ” Brooke, Countess of Warwick, the extravagant socialite who embraced socialism and stood for Parliament as a Labour party candidate; bisexual French actress Sarah Bernhardt, celebrated for her decadent appeal and opium habit; and by total contrast the starchy Agnes Keyser, who founded a hospital for army officers. One of Bertie ’ s most intriguing liaisons was with American heiress Jennie Churchill, unhappy wife of Sir Randolph Churchill and mother of Sir Winston. While the scandals resulting from his affairs—from suicides to divorces—were a blight on the royal family, Bertie would become a surprisingly modern monarch. His major accomplishment was transforming the British monarchy into the modern institution

that we know today and ensuring its survival in a period when every other European dynasty collapsed in the wake of WWI.

The previously untold story of the hidden politics that went on behind the scenes during the handling of the Royal abdication crisis of 1936. *The King Who Had to Go* describes the harsh realities of how the machinery of government responds when even the King steps out of line. It reveals the pitiless and insidious battles in Westminster and Whitehall that settled the fate of the King and Mrs Simpson. Prime Minister Stanley Baldwin had to fight against ministers and civil servants who were determined to pressure the King into giving up Mrs Simpson and, when that failed, into abdicating. Dubious police reports on Mrs Simpson's sex life poisoned the government's view of her and were used to blacken her reputation. Threats to sabotage her divorce were deployed to edge the King towards abdication. Covert intelligence operations convinced the hardliners that the badly coordinated and hopeless attempts of the King's allies, particularly Winston Churchill, to keep him on the throne amounted to a sinister anti-constitutional conspiracy. The book also shows how the King doomed his chances of keeping the throne by wildly unrealistic goals and ill-thought-out schemes. As each side was overwhelmed by desperation and distrust, Baldwin somehow held the balance and steered the crisis to as smooth a conclusion as possible.

From the author of New York Times bestseller *MEGHAN* comes a scandalous historical drama about the secrets hidden between the royal family, Franklin D. Roosevelt, Winston Churchill, the Duke of Windsor, and Adolf Hitler before, during, and after World War II. Andrew Morton tells the story of the feckless Edward VIII, later Duke of Windsor, his American wife, Wallis Simpson, the bizarre wartime Nazi plot to make him a puppet king after the invasion of Britain, and the attempted cover-up by Churchill, General Eisenhower, and King George VI of the duke's relations with

# Read Free King Edward VIII The Official Biography

Hitler. From the alleged affair between Simpson and the German foreign minister to the discovery of top secret correspondence about the man dubbed "the traitor king" and the Nazi high command, this is a saga of intrigue, betrayal, and deception suffused with a heady aroma of sex and suspicion. For the first time, Morton reveals the full story behind the cover-up of those damning letters and diagrams: the daring heist ordered by King George VI, the smooth duplicity of a Soviet spy as well as the bitter rows and recriminations among the British and American diplomats, politicians, and academics. Drawing on FBI documents, exclusive pictures, and material from the German, Russian, and British royal archives, as well as the personal correspondence of Churchill, Eisenhower, and the Windsors themselves, *17 CARNATIONS* is a dazzling historical drama, full of adventure, intrigue, and startling revelations, written by a master of the genre.

'After my death,' George V said of his eldest son and heir, 'the boy will ruin himself within twelve months.' The forecast proved uncannily accurate. Edward VIII came to the throne in January 1936, provoked a constitutional crisis by his determination to marry the American divorcée Wallis Simpson, and abdicated in December. He was never crowned king. In choosing the woman he loved over his royal birthright, Edward shook the monarchy to its foundations. Given the new title 'Duke of Windsor' and essentially sent into exile, he remained a visible skeleton in the royal cupboard until his death in 1972 and he haunts the house of Windsor to this day. Drawing on unpublished material, notably correspondence with his most loyal (though much tried) supporter Winston Churchill, Piers Brendon's superb biography traces Edward's tumultuous public and private life from bright young prince to troubled sovereign, from wartime colonial governor to sad but glittering expatriate. With pace and panache, it cuts through the myths that still surround this most controversial of modern British monarchs.
