An enthralling work of history about the Libertine generation that came up during—and was eventually destroyed by—the French Revolution. The Last

Libertines, as Benedetta Craveri writes in her preface to the book, is the story of a group of “seven aristocrats whose youth coincided with the French monarchy’s final moment of grace—a moment when it seemed to the nation’s elite that a style of life based on privilege and the spirit of caste might acknowledge the widespread demand for change, and in doing so reconcile itself with Enlightenment ideals of justice, tolerance, and citizenship.” Here we meet seven emblematic characters, whom Craveri has singled out not only for “the romantic character of their exploits and amours—but also by the keenness with which they experienced this crisis in the civilization of the ancien régime, of which they themselves were the emblem.” Displaying the aristocratic virtues of “dignity, courage, refinement of manners, culture, [and] wit,” the Duc de Lauzun, the Vicomte de Ségur, the Duc de Brissac, the Comte de Narbonne, the Chevalier de Boufflers, the Comte de Ségur, and the Comte de Vaudreuil were at the same time “irreducible individualists” and true “sons of the Enlightenment,” all of them ambitious to play their part in bringing around the great changes that were in the air. When the French Revolution came, however, they found themselves condemned to poverty, exile, and in some cases execution. Telling the parallel lives of these seven dazzling but little-remembered historical figures, Craveri brings the past to life, powerfully dramatizing a turbulent time that was at once the last act of a now-vanished world and the first act of our own.

Invited to a picnic with Pooh, all of his friends describe the things for which they are thankful.

These seemingly disparate characters gradually realize their connections to each other just as they realize that something is not quite right about their world. And it seems as though the answers might lie with Hawthorne Abendsen, a mysterious and reclusive author whose bestselling novel describes a world in which the US won the War... The Man in the High Castle is Dick at his best, giving readers a harrowing vision of the world that almost was. “The single most resonant and carefully imagined book of Dick’s career.” —New York Times

This is the first unexpurgated English edition of Curzio Malaparte’s legendary work *The Skin*. The book begins in 1943, with Allied forces cementing their grip on the devastated city of Naples. The sometime Fascist and ever-resourceful Curzio Malaparte is working with the Americans as a liaison officer. He looks after Colonel Jack Hamilton, “a Christian gentleman . . . an American in the noblest sense of the word,” who speaks French and cites the classics and holds his nose as the two men tour the squalid streets of a city in ruins where liberation is only another word for desperation. Veterans of the disbanded Italian army beg for work. A rare specimen from the city’s famous aquarium is served up at a ceremonial dinner for high Allied officers. Prostitution is rampant. The smell of death is everywhere. Subtle, cynical, evasive, manipulative, unnerving, always astonishing, Malaparte is a supreme artist of the unreliable, both the product and the prophet of a world gone rotten to the core.

Having survived a camping trip with the Photography Club, a group whose main extracurricular activity is offering its sexual services to the student body, Takashi Tono is suddenly thrust into the club’s next group excursion—a summer hot springs retreat! Meanwhile, even the club’s veterans of debauchery can’t escape the worst fate of all—true love! -- VIZ Media
