The first English translation of Unamuno's first novel, published in 1897, when he was 33. Its setting is the Basque country of northern Spain during the Second Carlist War (1874--1876), a conflict he lived through as a child. Originally published in 1983. The Princeton Legacy Library uses the latest print-on-demand technology to again make available previously out-of-print books from the distinguished backlist of Princeton University Press. These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions. The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905.

Masks are everywhere. What do kids think about that? When Lucy finds out her mom is making her a special mask she's excited. Lucy loves masks! She dives into her toy box full of costumes and opens a world of imagination and make-believe adventure, far beyond the walls of her room. Of course, she doesn't realize that the mask her mom is making is not part of a costume but one that will keep her safe and make her a real-life superhero. This book is not a science lesson about germs and protection. It's a simple fun story that helps make mask-wearing more relatable and less scary. Parents and educators have found it to be a wonderful tool to start a conversation about germs, viruses, the pandemic, and what families have to do to keep themselves and others safe. For children heading to schools that will require them to wear masks, and for parents, grandparents and teachers looking for stories that give comfort and reassurance to kids about the changes around them, Lucy's Mask is a welcome addition to reading time. Lucy's Mask was a Finalist in the 2021 Next Generation Indie Book Awards.

USA Today best-selling author Florida Book Award Gold Medal Foreword Book of the Year Fly by Night will shock you with a conspiracy so devastating that it will shake the world A top secret drone crashes in the lawless Horn of Africa. The CIA is prepared to write off the loss until evidence surfaces that the wreckage of their prized aircraft is hidden in a hangar outside Khartoum's main airport. The hangar is owned by a shady cargo airline that flies ancient DC-3s across Africa and the Middle East. The name of the company does nothing to still concern: FBN--Fly By Night Aviation. The U.S. government must find out what is in the hangar, and when an FBN airplane crashes, the opportunity arises to send an investigator to get to the bottom of things. Jammer Davis is the NTSB's biggest headache, but also its best solo operator. He goes to Sudan in the name of solving an air crash, but with the true aim of locating the priceless remains of America's latest technological marvel. As Davis enters this inhospitable world, he finds the two disparate mysteries strangely intertwined. True to his nature, Davis barges ahead. Yet everything he finds takes him in reverse, disproving what little he has been given as fact. From Khartoum, to the Sudanese desert, to the Red Sea, Davis is unstoppable. He soon discovers that more is at stake, an incredible conspiracy that will tear the region apart. And one that will threaten America like nothing before. Perfect for fans of Daniel Silva, Fredrick Forsythe, and Tom Clancy While all of the novels in the Jammer Davis Series stand on their own and can be read in any order, the publication sequence is: Fly by Wire Fly by Night Passenger 19
