## Lesson Multiply

**SHORTCUT** for multiplying by whole tens and whole hundreds. The same principle works if you multiply by whole tens (30, 40, 50, 60, 70, 80, or 90): simply multiply 2, 3, 4, 5, 6, 7, 8, or 9, and then tag a zero to the end result. Similarly, if you multiply by some whole hundred,

4.4.B Objective

To do this we multiply  
6 by 40 and then add  
the 10 we carried  
over.  $6 \times 40 = 240$   
and  $240 + 10 = 250$ .  
We put the 5 in the  
tens column and then  
carry over the 200 to  
the hundreds column.
