Lights and shapes are used to indicate the status of a vessel at sea and the direction in which a vessel underway is moving, to allow the correct action to be taken by all the vessels when in sight of each other. The International Regulations for Preventing Collisions at Sea (COLREGs) not only prescribe the actions of each vessel in all states of visibility, they also stipulate the lights that should be fitted to a vessel, the shapes that should be available and the sound signals and ...

Ambient lighting is often referred to as mood lighting, because this light captures the soft curves of your face and allows your pupils to dilate slightly (a physical sign of affection). Some yoga studios have even begun using the softer ambient lighting in their classes to help draw stress from the body.

~~International Regulations for Preventing Collisions at Sea ...~~

The shape of a light beam is specified by the source, the kind and shape of material it travels in, and the wave equation. One standard way of changing the shape of a light beam is to confine it in a "wave-guide", which is basically a specific size, shape, and kind of material used to force light to take some specific profile.

This edition of the Navigation Rules has been highlighted to show all differences between the US Inland and the International versions of the Rules using the following codes. YELLOW means the rules are different. ORANGE means the rule is unique to Inland Rules. BLUE means the rule unique to International Rules. GREEN means differernt wording, but no practical difference. This product has been prepared and distributed by Starpath Publications to promote a better understanding of the Navigation Rules.

Special edition of the Federal Register, containing a codification of documents of general applicability and future effect ... with ancillaries.

A Guide to the Collision Avoidance Rules is the essential reference to the safe operation of all vessels at sea. Published continuously since 1965, this respected and expert guide is the classic text for all who need to, practically and legally, understand and comply with the Rules. This sixth edition incorporates all of the amendments to the International Regulations for Preventing Collisions at Sea which came into force in November 2003. The books sets out all of the Rules with clear explanation of their meaning, and gives detailed examples of how the rules have been used in practice by seafarers, as well as excerpts from Court judgements to illustrate how they have been interpreted in practice. Written for masters, navigating officers, senior crew, cadets and those in training, plus ship operators, marine lawyers and anyone concerned with the safe operation of shipping, this is an essential reference for at sea and on shore. * Fully revised to meet the November 2003 IMO amendments * The definitive text for all concerned with both the practical and legal aspects of marine safety * Includes a colour section with examples of ships' lights to aid recognition of signals

November 1995. Also included are the Inland Navigation Rules which have been in effect for all inland waters, including the Great Lakes, since March 1, 1983. These Rules are applicable on waters outside of established navigational lines of demarcation. The lines are called COLREGS Demarcation Lines and delineate those waters upon which mariners shall comply with the Inland and International Rules. COLREGS Demarcation Lines are contained in this book.
