"As a young girl, I endured tremendous abuse: physical, verbal, sexual, psychological, spiritual, and mental. ... I blamed myself for everything as if it was my fault or that I deserved it. These beliefs of myself impacted the rest of my life in profound and severe ways." Selene Bartolo is a fighter and a thriver! And in her latest book, LIVE YOUR BEST LIFE: How to Go From Surviving to Thriving After Abuse, she courageously details her cycle of abuse that started at 3 years old and painfully continued and intensified with her relationships as a young woman. Bartolo found the strength to finally say enough is enough! In LIVE YOUR BEST LIFE, Bartolo details the exact steps SHE took to break free from her prison of abuse. IN THIS BOOK YOU'LL LEARN:
! Are you a victim? And how your past experiences play a part in the abuse cycle.
! The unhealthy role addictions play as a coping mechanism.
! What is trauma bonding? And how do you free yourself from it?
! How to find your voice and finally exit a toxic relationship.
! And create boundaries to keep your peace, love, and freedom. Break the chains of trauma and abuse from your soul. Thrive by living your best life free of the impacts of traumatic abuse. Join the hundreds of thousands of people who have found peace and happiness the Thriver way. DO NOT WASTE ANY MORE OF THE BEST YEARS OF YOUR LIFE, NOW IS THE TIME! THIS BOOK WAS WRITTEN FOR YOU AT THE PERFECT TIME, NOW IS YOUR TIME!

A collection of essays by fifteen philosophers presenting a thoughtful, introductory guide to choosing a philosophy for living an examined and meaningful life. A VINTAGE ORIGINAL. Socrates famously said "the unexamined life is not worth living," but what does it mean to truly live philosophically? This thought-provoking, wide-ranging collection brings together essays by fifteen leading philosophers reflecting on what it means to live according to a philosophy of life. From Eastern philosophies (Daoism, Confucianism, and Buddhism) and classical Western philosophies (such as Aristotelianism and Stoicism), to the four major religions, as well as contemporary philosophies (such as existentialism and effective altruism), each contributor offers a lively, personal account of how they find meaning in the practice of their chosen philosophical tradition. Together, the pieces in How to Live a Good Life provide not only a beginner's guide to choosing a life philosophy but also a timely portrait of what it means to live an examined life in the twenty-first century.

Describes the twenty years the authors spent homesteading in the Green Mountains of Vermont.

What's holding you back? Learn how to take the steps needed to get to a place where you are happier, more productive, and more at peace. Are you struggling with personal problems, a mental health condition, or addiction? Are you looking to permanently improve your well-being and happiness? If you'd like to lead a fuller, more satisfying life(or help a mentally ill loved one)this book is for you. In From Survive to Thrive, Dr. Margaret S. Chisolm, a psychiatrist at the Johns Hopkins School of Medicine, describes a tried-and-true plan to help anyone grappling with life's challenges learn how to flourish. Dr. Chisolm does not define health as the mere absence of illness. She wants you to be able to lead the best life possible(to thrive)! In down-to-earth prose, Dr. Chisolm provides insight into how readers can cultivate healthy habits and more positive reactions to life's provocations, choosing not to allow past life circumstances or a disease state to define their well-being. She also
! introduces the four perspectives through which all mental distress should be examined: disease, dimensional, behavior, and life story
! describes the four pathways associated with well-being: family, work, education, and community
! includes fascinating stories from her own clinical (and personal) experience featuring real people who found fulfillment by embracing these perspectives and pathways
! supplements detailed, step-by-step advice with interactive elements, including self-assessments and self-reflection exercises
! incorporates graphic elements to illustrate important lessons This upbeat guide is the first to detail evidence-based principles for improving well-being in those with mental illness.

A practical people not prone to be lured to philosophical abstraction for its own sake, the Romans looked toward philosophy for guidance on how to live. Though wary of Greek philosophy, the Romans would come to see the need for philosophies such as Stoicism, Epicureanism, Platonism, and Aristotelianism to point the way to leading the good life. With the help of these philosophies, they attempted to grapple with some of most enduring concerns of the human condition: Who am I? How should I live my life? What, if anything, is my destiny? Raymond Angelo Bellotti's Roman Philosophy and the Good Life provides an accessible picture of these major philosophical influences in Rome and details the crucial role they played during times of major social upheaval. Bellotti demonstrates the contemporary relevance of some of the philosophical issues faced by the Romans, and offers ways in which today's society can learn from the Romans in our attempt to create meaningful lives. Roman Philosophy and the Good Life will certainly intrigue those who are drawn to Roman history and politics, and especially those who enjoy viewing philosophy in action.

Who are ocean angels? What distinguishes them from other people? Are you one of them? In 8 Ocean Angels, the author, Grant King, presents notable characters he considers as real-life ocean angels(such as Francois-Marie Arouet, Massimo Bontempelli, William Shakespeare, Emily Dickinson, Ezra Pound, and Socrates)and describes how they ultimately represent these entities in how they see life and relate to nature and the entire cosmos. The narrative uses repetition of

words, lines, and ideas to create a meditative tone, effectively drawing you into mantric reading as you go through each chapter. A book on enlightenment and discoveries, it beckons for introspection, guiding you to the awareness of your real capabilities, of the real nature of life, and of the truth about our relationship with a higher power. Spiritual and personal, the book paves the way for the understanding that we are not solitary entities but are interconnected elements in a majestic and grand design.
