The ten lost tribes were the ten of the Twelve Tribes of Israel that were said to have been deported from the Kingdom of Israel after its conquest by the Neo-Assyrian Empire circa 722 BCE. These are the tribes of Reuben, Simeon, Dan, Naphtali, Gad, Asher, Issachar, Zebulun, Manasseh, and Ephraim; all but Judah and Benjamin. Claims of descent from the "lost tribes" have been proposed in relation to many groups, and some religions espouse a messianic view that the tribes will return. In the 7th an

Israel's ten lost tribes will return and inherit promised lands. Since the day Israel's ten northern tribes were taken captive into Assyria in 722 B.C., virtually nothing has been heard of them. They have therefore become known as the "ten lost tribes." An exception is from Ezra the scribe, who traces their travels into eastern and western Europe:

Describes the perceptions of European explorers concerning the native peoples that they encountered in Africa and the Americas to illuminate the sources of American racial attitudes

In The Ten Lost Tribes, Zvi Ben-Dor Benite shows for the first time the extent to which the search for the lost tribes of Israel became, over two millennia, an engine for global exploration and a key mechanism for understanding the world.

Are the tribes of Israel really "lost" or were they hidden as prophesied in Psalms 83? The Bible seems to indicate a multi national conspiracy to hide Israel and wipe out the memory of who they really are. If this is true, then history as we know it has been hijacked, and it is only through searching that we will find the truth. In this book, you'll find the answers to the following questions, just to name a few: Why does a 1747 English map place the tribe of Judah on the "slave coast" of Africa? Why do slave ledgers show slaves being registered with Hebrew names fresh off of the ships? Why did slaves sing songs in Hebrew and call out to Yah for help? Why did Christ mention the slavery of Israel as a sign of the end of the age? Are "the times of the Gentiles" coming to an end? If you are 100% honest with yourself as you find the answers to these questions, your eyes will be opened. If you're ready to start this eye opening adventure through scripture then keep reading. ISRAEL IS STILL A NATION TO GOD AND ALWAYS WILL BE! "Thus saith the LORD, which giveth the sun for a light by day, and the ordinances of the moon and of the stars for a light by night, which divideth the sea when the waves thereof roar; The LORD of hosts is his name: If those ordinances depart from before me, saith the LORD, then the seed of Israel also shall cease from being a nation before me for ever. Thus saith the LORD; If heaven above can be measured, and the foundations of the earth searched out beneath, I will also cast off all the seed of Israel for all that they have done, saith the LORD." – Jeremiah 31:35-37

Were indigenous Americans descendants of the lost tribes of Israel? From the moment Europeans realized Columbus had landed in a place unknown to them in 1492, they began speculating about how the Americas and their inhabitants fit into the Bible. For many, the most compelling explanation was the Hebraic Indian theory, which proposed that indigenous Americans were the descendants of the ten lost tribes of Israel. For its proponents, the theory neatly explained why this giant land and its inhabitants were not mentioned in the Biblical record. In *Old Canaan in a New World*, Elizabeth Fenton shows that though the Hebraic Indian theory may seem far-fetched today, it had a great deal of currency and significant influence over a very long period of American history. Indeed, at different times the idea that indigenous Americans were descended from the lost tribes of Israel was taken up to support political and religious positions on diverse issues including Christian millennialism, national expansion, trade policies, Jewish rights, sovereignty in the Americas, and scientific exploration. Through analysis of a wide collection of writings—from religious texts to novels—Fenton sheds light on a rarely explored but important part of religious discourse in early America. As the Hebraic Indian theory evolved over the course of two centuries, it revealed how religious belief and national interest intersected in early American history.

*Includes pictures *Includes Biblical passages and Assyrian accounts of the deportation of the Israelites *Includes a bibliography for further reading "I counted as spoil 27,280 people, together with their chariots, and gods, in whom they trusted. I formed a unit with 200 of [their] chariots for my royal force. I settled the rest of them in the midst of Assyria. I repopulated Samaria more than before. I brought into it people from countries conquered by my hands. I appointed my commissioner as governor over them, and I counted them as Assyrians." - Sargon II, Assyrian king In the 8th century BCE, one of the most important provinces within the Assyrian Empire was Samaria. Also known as Israel, Samaria repeatedly rebelled against their Assyrian overlords, but in 722, the Assyrians overran Samaria once and for all, killing countless numbers and sending most of the rest of its inhabitants into forced exile. The events of Samaria's fall were chronicled in the Assyrian annals from the reign of Sargon II and the Old Testament, and although the two sources present the event from different perspectives, they corroborate each other for the most part and together present a reliable account of the situation. The end result was that 30,000 Israelites were forcibly deported from the region, a tactic the Assyrians found so effective that they would continue to use it against other conquered enemies until the fall of their own empire. The Assyrians' forced exile of the Israelites was not the only time such a fate had befallen them, as made clear by Babylonian accounts and the Biblical account of the Exodus out of Egypt, but it was that exile that permanently scattered most of the legendary 12 tribes of Israel, and the fate of the 10 lost tribes has interested people ever since. The patriarchal stories in Genesis explain the following about the origin of the tribes of Israel. The patriarch Jacob, whose name was later changed to Israel (Gen 32:28), was himself the son of Isaac and the grandson of Abraham. He had 12 sons who are the eponymous ancestors of the 12 tribes of Israel. Genesis lists the 12 sons according to their mothers. Jacob had five sons with his first wife: Reuben, Simeon, Levi, Judah, and Issachar. Leah's maid, Zilpah, bore another two sons to Jacob: Gad and Asher. His second wife, Rachel, also bore only two sons: Joseph and Benjamin; as did her maid, Bilhah: Dan and Naphtali. The simple version of the Ten Lost Tribes is that modern Jewish communities are composed of the descendants of two of these 12 tribes because Cyrus the Great allowed these tribes to return to Judah from their captivity in Babylon. However, the location and fate of the remaining 10 tribes, deported by the Assyrians from the northern kingdom of Israel two centuries earlier, remains a mystery, and it is this mystery that lies at the heart of the search for the Ten Lost Tribes. *The Ten Lost Tribes* looks at what is known and unknown about the missing tribes of Israel, and speculation as to their fate. Along with pictures of important people, places, and events, you will learn about the Lost Tribes of Israel like never before, in no time at all.
