Several tractors in Case IH’s Magnum AFS Connect Series now feature connectivity concepts that originated in the autonomous concept vehicle, including innovative display features, a new guidance system in 2020, and other Advanced Farming Systems (AFS) Connect technologies, which allow operators to remotely monitor and manage field operations with the help of data collection.

Autonomous Tractors Take the Farmer Out of the Fields

The Magnum mainly comes in the form of a tractor unit, although drawbars are also available for use as skiploaders. Magnums are known for having pretty spacious cabs, making for comfortable journeys, while the flat floor, as used for the Magnum lorries, was seen as revolutionary when first revealed back in 1992.

Magnum Tractors Calendar 2014

Celebrate the 25 year history of Case IH Magnum tractors with the Magnum Tractors Calendar 2014. This calendar includes the most significant Magnums ever built, including the original line of Magnums as well as the MX series. The calendar includes the one and only all-gold MX305, the 100,000th Magnum, and more. With photographs by photographer Lee Klancher as well as light painter Mark Jenson, this calendar celebrates 25 years of Magnum tractors.

As featured on The Today Show! 12,500 entries. 196 countries. 365 days. Find out what’s going on any day of the year, anywhere across the globe! If you’re looking to tie a promotional event to a special month, create a suggested reading list based on a literary birth anniversary, travel to a music festival halfway around the world, blog about a historical milestone or do a celebrity birthday round-up on your radio show or Twitterfeed, Chase’s Calendar of Events is the one resource that has it all. For broadcasters, journalists, event planners, public relations professionals, librarians, editors, writers or simply the curious, this is one reference you can’t do without! Chase’s Calendar of Events 2014 brings you: Major sporting events such as the Games of the XXII Winter Olympiad at Sochi, Russia (Feb 7-23), and the FIFA World Cup in Brazil (June 12-July 13). Milestones such as the 450th birth anniversary of William Shakespeare; the 200th anniversary of “The Star- Spangled Banner”; the 100th anniversery of the beginning of World War I and the opening of the Panama Canal; the 75th anniversary of the beginning of World War II; the 50th anniversaries of the Civil Rights Act of 1964 and Beatlemania and much more. New birthday entries for sports stars such as Mo Farah (Mar 23), Ryan Lochte (Aug 3) and Gabrielle Douglas (Dec 31); actors such as Kerry Washington (Jan 31), Lena Dunham (May 13) and Mads Mikkelsen (Nov 22); musical artists such as Carly Rae Jepsen (Nov 21) and Psy (Dec 31); and authors such as Téa Obreht (Sept 30) and Ann Patchett (Dec 2) and many others. Special days such as National Ferret Day (Apr 2), World Lindy Hop Day (May 26), Extra Mile Day (Nov 1), Lost and Found Day (Dec 12) and more. Search Chase’s Any Way You Want! Whether you want to target a specifi c date, location or subject, our fully searchable CD-ROM (PCand MAC-compatible) makes your research quick and easy. Also included is a free installer, so you can load Chase’s directly to your hard drive.

One of The New York Times’ 16 New Books to Watch for in March One of Publishers Weekly’s Most Anticipated Books of the Year One of Newsweek’s Most Highly Anticipated Books of The Year One of Buzzfeed’s Most Anticipated Books the Year Based on the acclaimed series—a finalist for the Pulitzer Prize—an intimate account of the devastating effects of gun violence on our nation’s children, and a call to action for a new way forward In 2017, seven-year-old Ava in South Carolina wrote a letter to Tyshaun, an eight-year-old boy from Washington, DC. She asked him to be her pen pal; Ava thought they could help each other. The kids had a tragic connection—both were traumatized by gun violence. Ava’s best friend had been killed in a campus shooting at her elementary school, and Tyshaun’s father had been shot to death outside of the boy’s elementary school. Ava’s and Tyshaun’s stories are extraordinary, but not unique. In the past decade, 15,000 children have been killed from gunfire, though that number does not account for the kids who weren’t shot and aren’t considered victims but have nevertheless been irreparably harmed by gun violence. In Children Under Fire, John Woodrow Cox investigates the effectiveness of gun safety reforms as well as efforts to manage children’s trauma in the wake of neighborhood shootings and campus massacres, from Columbine to Marjory Stoneman Douglas. Through deep reporting, Cox addresses how we can effect change now, and help children like Ava and Tyshaun. He explores their stories and more, including a couple in South Carolina whose eleven-year-old son shot himself, a Republican politician fighting for gun safety laws, and the charlatans infiltrating the school safety business. In a moment when the country is desperate to better understand and address gun violence, Children Under Fire offers a way to do just that, weaving wrenching personal stories into a critical call for the United States to embrace practical reforms that would save thousands of young lives.

Introduces Captain Jack Aubrey and Stephen Maturin, ship’s surgeon and intelligence agent, in the age of the Napoleonic wars.

This authorized history of International Harvester and Case-IH tractors includes data and photos of every model built from 1958 to 2013, as well as in-depth information about how these tractors were designed and constructed. The story traces the innovations and struggles of the final days of International Harvester, and then the exciting story of the creation of the Case-IH Magnum, an innovative machine that blends some of the great engineering done by International Harvester in the their final days with thoughtful engineering additions and refinements from the newly blended team. With a mix of new photography of some of the most exceptional collectible models in existence along with hundreds of previously unpublished photographs from the IH and Case-IH archives, this thorough book is the most authoritative guide on red tractors ever published.

Longlisted for the 2014 National Book Award From the winner of the Pulitzer Prize: a powerful, engrossing new novel—the life and times of a remarkable family over three transformative decades in America. On their farm in Denby, Iowa, Rosanna and Walter Langdon abide by time-honored values that they pass on to their five wildly different children: from Frank, the handsome, willful first born, and Joe, whose love of animals and the land sustains him, to Claire, who earns a special place in her father’s heart. Each chapter in Some Luck covers a single year, beginning in 1920, as American soldiers like Walter return home from World War I, and going up through the early 1950s, with the country on the cusp of enormous social and economic change. As the Langdons branch out from Iowa to both coasts of America, the personal and the historical merge seamlessly: one moment electricity is just beginning to power the farm, and the next a son is volunteering to fight the Nazis; later still, a girl you’d seen growing up now has a little girl of her own, and you discover that your laughter and your admiration for all these lives are mixing with tears. Some Luck delivers on everything we look for in a work of fiction. Taking us through cycles of births and deaths, passions and betrayals, among characters we come to know inside and out, it is a tour de force that stands wholly on its own. But it is also the first part of a dazzling epic trilogy—a literary adventure that will span a century in America: an astonishing feat of storytelling by a beloved writer at the height of her powers.

The first axial flow combine transformedthe industry and was hailed as the mostsignificant piece of farm equipment builtin the 20th century. The axial flow usedadvanced technology to process crops fasterand more efficiently than anything else onthe market.The axial flow started with researchdone by a rogue Swedish engineer in the1950s, was continued in secret by a group ofdedicated engineers from East Moline, Illinois,who did their work in a top-secret garage thatonly a select few were allowed to enter.The book tells the story of how extensiveresearch and development allowed IH to builda new machine that took the market by storm.Done with dozens of interviews ofengineers, salespeople, and customers, thebook captures the behind the scenes dramaand the cloak and dagger encounters withrival companies personnel and machines.The dramatic text is accompanied by morethan 300 archival images, concept drawings,sketches, and new photogrpahy of themachines and men at work today.

The story of the four-wheel-drive tractors built by Steiger, International Harvester, Case, and Case IH is told in dramatic fashion in this authoritative guide. Starting with the development of early four-wheel-drive systems at International Harvester, the book traces the evolution and design some of the most powerful and capable tractors of the twentieth century. With fresh detail on the 4300, 4100, Steiger-built IH tractors, and the 2+2 tractors including the Super 70 series, the book offers prototype drawings of several models—including the complete story of the never-before-published Magnum 2+2-- as well as inside stories and backroom drama that is a must for any enthusiast for farm history or tractors. Learn the complete story of Steiger tractors, which were originally designed and built in the barn of John, Douglass, and Maurice Steiger located near Red Lake Falls, Minnesota. Containing interviews with more than 50 of the people who built Steiger from its humble origin to a world leader, the book traces the evolution of the lime green Steigers in engrossing detail. The book also covers the J.I. Case 4WD line in great detail. In addition, the book tells the story of how each of these significant players in the industry combined under one banner and—together—created one of the current industry-leading technologies, the Quadtrac. The modern evolution of the Steigers and the introduction of the STX Series (and more) also receive in-depth coverage. The same team that created the award-winning books Red Tractors 1958-2013 and Red Combines 1915-2015 created this book, and notable new contributors include Sherry Schaefer (editor of Heritage Iron magazine) and noted historian Jim Allen. Contributors include Sherry Schaefer, Oscar H. Will III, Jim Allen, Kenneth Upldike, Todd Markle, Gregg Montgomery, Guy Fay, Martin Rickatson, Sarah Tomac, Matthias Buschmann, Jean Coite, Michael Oswelir, and Johann Dittmer.

With the 1998 debut of its V92C, Victory Motorcycles became the New American Motorcycle. Victory's innovative, stylish heavyweight cruiser motorcycles attracted a loyal, hard-riding following, but not the market share needed to survive. This richly illustrated book covers the brand's history model-by-model and analyzes why the parent company announced in early 2017 that its Victory division would cease operation. This book also features a full reprint of the collectible first Victory history from 1998, The Victory Motorcycle.

In Capital, Commonwealth Prize–winning author Rana Dasgupta examines one of the great trends of our time: the expansion of the global elite. Capital is an intimate portrait of the city of Delhi which bears witness to the extraordinary transmogrification of India’s capital. But it also offers a glimpse of what capitalism will become in the coming, post-Western world. The story of Delhi is a parable for where we are all headed. The boom following the opening up of India’s economy plunged Delhi into a tumult of destruction and creation: slums and markets were ripped down, and shopping malls and apartment blocks erupted from the ruins. Many fortunes were made, and in the glassy stores nestled among the new highways, customers paid for global luxury with bags of cash. But the transformation was stern, abrupt and fantastically unequal, and it gave rise to strange and bewildering feelings. The city brimmed with ambition and rage. Violent crimes stole the headlines. In the style of V. S. Naipaul’s now classic personal journeys, Dasgupta shows us this city through the eyes of its people. With the lyricism and empathy of a novelist, Dasgupta takes us through a series of encounters – with billionaires and bureaucrats, drug dealers and metal traders, slum dwellers and psychoanalysts – which plunge us into Delhi’s intoxicating, and sometimes terrifying, story of capitalist transformation. Together these people comprise a generation on the cusp, like that of Gilded Age New York: who they are, and what they want, says a tremendous amount about what the world will look like in the rest of the twenty-first century. Interweaving over a century of history with his personal journey, Dasgupta presents us with the first literary portrait of one of the twenty-first century’s fastest-growing megalopolises – a dark and uncanny portrait that gives us insights, too, as to the nature of our own – everyone’s – shared, global future.
