classrooms.

Each year, thousands
of businesses file for
bankruptcy protection
because managers

Online Library Managerial

fail to efficiently And
organize the
company's
operations, misread
market trends, pay
inadequate attention
to product quality, or
misinterpret the
activities and
intentions of rival
companies. Perhaps
they fail to formulate
optimal advertising or
financing strategies,

Online Library Managerial

procure raw materials and components at least cost, or provide adequate incentives to motivate workers to put forth their best efforts. Managerial economics is the application of economic principles to topics of concern to managers. This textbook develops a framework for

Online Library Managerial

predicting managerial responses to changes in the business environment. It combines the various business disciplines with quantitative methods to identify optimal solutions to more efficiently achieve a firm's organizational objectives. The topics discussed in this

Online Library Managerial

textbook are readily accessible to students with a background in the principles of microeconomics and business mathematics. The selection and organizations of topics makes the textbook appropriate for use in a wide range of curricula by students with different

Intended primarily for
Managerial
Economics courses,

Online Library Managerial

this text also provides
practical content to
current and aspiring
industry
professionals.

Economics is a
powerful tool that can
help managers to
manage effectively. In
Managerial

Economics Jeffrey
Perloff and James
Brander use real-
world issues and

Online Library Managerial

Examples from actual markets to show future managers how economic principles can be used in business decisions. In text examples and boxed mini-cases use actual data to illustrate how to use basic models. For example, to illustrate rivalry in oligopolistic markets, the authors

Online Library Managerial

look at rivalry between United and American Airlines and between Coke and Pepsi. Mini-case examples include why American Apparel is vertically integrated and why upscale manufacturers limit the number of designer hand-bags a customer is allowed to buy. To help future

Online Library Managerial

managers learn to
solve new problems,
Perloff and Brander
repeatedly

demonstrate problem-
solving through in-text
Q&As. Each Q&A
poses an important
managerial or
economic issue and
demonstrates how to
solve it using a step-
by-step approach.
