"A Systems Approach to Small Group Interaction" pioneered the systems approach and is the only book that integrates all important small group topics into a single comprehensive conceptual model. The text also features a unique systematic organization. Each chapter begins with a brief preview, followed by a glossary of terms, a real life case study, and then the chapter text material; next comes several experiential exercises for skill development, and finally the chapter concludes with two original readings.

Marshall/Johnston's Marketing Management, 2e has taken great effort to represent marketing management the way it is actually practiced in successful organisations today. Given the dramatic changes in the field of marketing, it is a sure bet that the job of leading marketing manager's contributions to the organisation and its customers, clients, and partners has changed at the same level. Yet, no marketing management book on the market today fully and effectively captures and communicates to students how marketing management is really practiced in the 21st century business world. Clearly, it is time for an updated approach to teaching and learning within the field. Marketing Management 2e is designed to fulfill this need.
