Marketing principles – 4P

Strategy/Matrix. The principle of the 4P Marketing Strategy or Matrix is that marketing decisions tend to fall into four categories – product, place, price, and promotion. We refer to them as four ‘controllable’ categories. They are ‘controllable’ because our efforts affect them or their outcomes. When you combine all your marketing goals and objectives into one plan, you have a marketing strategy.

of the marketing process, explored uniquely from the value perspective. Delivering value to customers is an integral part of contemporary marketing. For a firm to deliver value, it must consider its total market offering – including the reputation of the organization, staff representation, product benefits, and technological characteristics – and benchmark this against competitors' market offerings and prices. The book also looks in detail at the impact of social media upon marketing practices and customer relationships, and the dramatic impact that new technologies have had on the marketing environment.
