'I immersed myself in magic. I read every book I could get my hands on and practised and practised, day after day and night after night. Magic became my world...some might say an obsession.' When you're a kid life can seem tough; tougher for some than others. But the darkest of times can also be the most enlightening. When his late granddad showed him magic for the first time, Steven Frayne knew there was more to life than hiding from bullies. He had a destiny. A calling. In that moment Dynamo was born: the most exciting magician of the 21st century. Since then, Dynamo has shocked, thrilled and amazed men, women and children, from all walks of life, all over the world. With his mind-blowing illusions, he has catalysed a whole new era of magic. Now, in his very first book, Dynamo invites you to join him on a breathtaking journey across the globe. Be prepared to levitate Lindsay Lohan in Singapore,

transform snow into diamonds in the Austrian mountains, and walk on water across the River Thames. Along the way, he reveals how to make the impossible possible, what it takes to pull off the greatest stunts man has seen, and why everyone needs magic in their lives. This is no illusion. This is Dynamo revealed.

Coverage of employability skills has also been incorporated into the new edition, with Ready For Work activities at the end of each section that enable students to reflect on their readiness for work and career advancement or promotion. A Companion Website at pearsoned.com.au/dwyer provides further online resources for teachers and students and includes: True/False questions, Internet exercises, Good/Bad practice and research topic questions. Soap operas and telenovelas are watched by millions of people around the world every day. As cultural, social, and economic phenomena, examining them will further our understanding of the role of global media content in the digital age. Moreover, as these programs continue to be exported and transformed at regional levels, and through digitalization, it is more important than ever to analyze where the genre has been, where it is now, and where it is going.
 This collection brings together original scholarship from an international and trans-disciplinary perspective. Chapters address timely issues, theories, and debates that are inextricably linked to soap operas and telenovelas as global industries, as sites for new audiences, and as hybrid cultural products within the digital landscape. Bringing depth and originality to the subject area, each chapter demonstrates the richness of these genres and their long-term significance as the televisual landscape evolves and becomes increasingly reliant on technological and creative innovations.

Pulitzer Prize-winning author James A. Michener has written about everything from the pristine islands of the South Pacific and the endless wilds of Africa to Spanish bullfighters, American revolutionaries, and pirates of the Caribbean. Now Michener turns to his favorite and most personal subject: the written word. Reproducing pages from his own handwritten rough drafts and working manuscripts, Michener walks the reader through a step-by-step guide to the entire process of writing, editing, revising, and publishing. Addressing challenges specific to both fiction and nonfiction, all the while providing thoughtful and useful solutions, James A. Michener's *Writer's Handbook* is an invaluable resource for book lovers, editors, and, of course, writers—aspiring and accomplished alike. Praise for James A. Michener “A master storyteller . . . Michener, by any standards, is a phenomenon.”—*The Wall Street Journal* “Sentence for sentence, writing's fastest attention grabber.”—*The New York Times* “Michener has become an institution in America, ranking somewhere between Disneyland and the Library of Congress. You learn a lot from him.”—*Chicago Tribune* “While he fascinates and engrosses, Michener also educates.”—*Los Angeles Times*
