Closing the Gap is an accessible overview of the fourth industrial revolution (4IR) and the impact it is set to have on various sectors in South Africa and Africa. It explores the previous industrial revolutions that have led up to this point and outlines what South Africa's position has been through each one. With a focus on artificial intelligence as a core concept in understanding the 4IR, this book uses familiar concepts to explain artificial intelligence, how it works and how it can be used in banking, mining, medicine and many other fields. Written from an African perspective, Closing the Gap addresses the challenges and fears around the 4IR by pointing to the opportunities presented by new technologies and outlining some of the challenges and successes to date.

Lecturers, why waste time waiting for the post to arrive? Request your e-inspection copy today! In the new third edition of this popular and highly readable book, the author draws on her considerable experience and extensive research to demonstrate a creative dynamic mode of reflection and reflexivity. Using expressive and explorative writing combined with in-depth group work/mentoring alongside appropriate focussed research, it enables critical yet sensitive examinations of practice. Gillie offers a searching and thorough approach which increases student and professional motivation, satisfaction, and deep levels of learning. She clearly explains reflection; reflexivity; narrative; metaphor, and complexity, and grounds the literary and artistic methods in educational theory and values. Clear step-by-step practical methods are given for every aspect of the process. New to this edition are: A chapter presenting different ways of undertaking and facilitating reflective practice Further international coverage, including material from Australia, New Zealand and the United States. The Third Edition also includes: An annotated glossary explaining key terms End-of-chapter activities and exercises Suggested further reading, and clear guides on chapter contents and how to use the book. Companion website www.uk.sagepub.com/bolton An accompanying companion website includes a range of free additional materials for lecturers and students to use in tutorials and for independent study, including discussion, workshop exercises, glossary and online readings. The methods are appropriate to, and used worldwide by, students and professionals across education; medicine and healthcare; clinical psychology; therapy; social work; pastoral care; counselling; police; business management;

organisational consultancy; leadership training.

This is a core text for anyone training to be (or working as) an internal or external quality assurer in the further education and skills sector. It has all the information you need to work towards the quality assurance units for qualifications such as: The Certificate and Diploma in Education and Training, or the quality assurance units of the Learning and Development (TAQA) qualification. The book takes you through all the information you need to know, opening up the topic for learning in an easily accessible way. Interactive activities are included throughout, and real examples of quality assurance in practice are included. The book also includes examples of completed internal and external quality assurance documents. It is a comprehensive text, covering:

- principles of internal and external quality assurance
- planning quality assurance activities
- carrying out quality assurance activities
- risk management
- making decisions and providing feedback
- record keeping
- evaluating practice
- the role and use of technology
- planning, allocating and monitoring the work of others

This is your guide to understanding how to use internal quality assurance activities effectively with assessors, and external quality assurance activities with centre staff. Ann Gravells is leading a CPD Day on 22nd June in London. The event will focus on Raising quality and improving practice in the FE and Skills sector and is a rare opportunity to learn from leading experts. There will only be a limited number of seats available, so book your place here to avoid disappointment.

reached breaking point reading Daniel T. Willingham on educational neuroscience? Written for busy teachers, trainers, managers and students, this 'dip-in, dip-out' guide makes theories of learning accessible and practical. It explores 130 classic and contemporary learning theorists in an easy-to-use, bite-sized format with clear relevant illustrations on how each theory will benefit teaching and learning. Each model or theory is explained in less than 350 words, followed by a 'how to use it' section. What's new to this edition: A new early childhood theorists section A new communication theories section Additional 'on trend' theorists throughout New 'critical view' features added to each entry.
