Many refugees and asylum seekers now in the United Kingdom have trained and worked as doctors, nurses, midwives and other professionals allied to medicine in the countries from which they have departed. However, refugees face considerable problems in their quest to continue or resume their careers as health professionals in the UK. This book has brought together authors from varying organisations and professional backgrounds who are dedicated to supporting the integration of refugee doctors into the National Health Service workforce and it is a useful handbook for refugee doctors themselves. It will help all refugee doctors use their qualifications and expertise in the UK, and maximise their contributions to the NHS workforce. (Adapted from publisher's abstract).

The International English Language Testing System, or IELTS, is an international standardized test of English language proficiency for non-native English language speakers. It is jointly managed by the British Council, IDP: IELTS Australia and Cambridge Assessment English, and was established in 1989. Achievement in this qualification is benchmarked against the Council of Europe's Common European Framework of Reference for Languages (CEFR), from level C1 Advanced (CAE) to C2 Proficiency (CPE) of the CEFR. We collect 2100 English Vocabulary in C1 Advanced (CAE) and 3000 English Vocabulary. Based on our many years' experience in HSK and IGCSE Chinese teaching and course contents preparation, we find vocabulary level classification is so important. Students can use CEFR levels for self-assessment so that they can more clearly define what they need to work on, and work out what they would like to achieve in their target language. Our

Classified Chinese vocabulary list HSK and IGCSE has total 12000 vocabularies with the Best English Translation for better understanding. Many students call it "LIFE SAVING STRAW" for their exam. This book is a great success and encourages us to work beyond it. Based on our pass experience and data collection, by referring the authoritative resources like Cambridge and Oxford dictionary, here is our painstaking effort!

From insidious murder weapons to blaze-igniting crinolines, clothing has been the cause of death, disease and madness throughout history, by accident and design. Clothing is designed to protect, shield and comfort us, yet lurking amongst seemingly innocuous garments we find hats laced with mercury, frocks laden with arsenic and literally 'drop-dead gorgeous' gowns. Fabulously gory and gruesome, Fashion Victims takes the reader on a fascinating journey through the lethal history of women's, men's and children's dress, in myth and reality. Drawing upon surviving fashion objects and numerous visual and textual sources, encompassing louse-ridden military uniforms, accounts of the fiery deaths of Oscar Wilde's half-sisters and dancer Isadora Duncan's accidental strangulation by entangled scarf; the book explores how garments have tormented those who made and wore them, and harmed animals and the environment in the process. Vividly chronicling evidence from Greek mythology to the present day, Matthews David puts everyday apparel under the microscope and unpicks the dark side of fashion. Fashion Victims is lavishly illustrated with over 125 images and is a remarkable resource for everyone from scholars and students to fashion enthusiasts.
