From the Classroom to the Courtroom: A guide to interpreting in the U.S. justice system offers a wealth of information that will assist aspiring court interpreters in providing linguistic minorities with access to fair and expeditious judicial proceedings. The guide will familiarize prospective court interpreters and students interested in court interpreting with the nature, purpose and language of pretrial, trial and post-trial proceedings. Documents, dialogues and monologues illustrate judicial procedures; the description of court hearings with transcripts creates a realistic model of the stages involved in live court proceedings. The innovative organization of this guide mirrors the progression of criminal cases through the courts and provides readers with an accessible, easy-to-follow format. It explains and illustrates court procedure as well as provides interpreting exercises based on authentic materials from each successive stage. This novel organization of materials around the stages of the judicial process also facilitates quick reference without the need to review the entire volume — an additional advantage that makes this guide the ideal interpreters' reference manual. The significance of food and feasting to Pre-Columbian Mesoamerican cultures has been extensively studied by archaeologists, anthropologists and art historians. Foodways studies have been critical to our understanding of early agriculture, political economies, and the domestication and management of plants and animals. Scholars from diverse fields have explored the symbolic complexity of food and its preparation, as well as the social importance of feasting in contemporary and historical societies. This book unites these disciplinary perspectives — from the social and biological sciences to art history and epigraphy — creating a work comprehensive in scope, which reveals our increasing understanding of the various roles of foods and cuisines in Mesoamerican cultures. The volume is organized thematically into three sections. Part 1 gives an overview of food and feasting practices as well as ancient economies in Mesoamerica. Part 2 details ethnographic, epigraphic and isotopic evidence of these practices. Finally, Part 3 presents the metaphoric value of food in Mesoamerican symbolism, ritual, and mythology. The resulting volume provides a thorough, interdisciplinary resource for understanding, food, feasting, and cultural practices in Mesoamerica.
