After centuries of rethinking education and learning, the current theory is based on technology's approach to and affect on the planned interaction between knowledge trainers and trainees. Online Tutor 2.0: Methodologies and Case Studies for Successful Learning demonstrates, through the exposure of successful cases in online education and training, the necessity of the human factor, particularly in teaching/tutoring roles, for ensuring the development of quality and excellent learning activities. The didactic patterns derived from these experiences and methodologies will provide a basis for a more powerful and efficient new generation of technology-based learning solutions for high school teachers, university professors, researchers, and students at all levels of education.

The UK Clinical Aptitude Test (UKCAT) is used by the majority of UK medical and dentistry schools to identify the brightest candidates most suitable for training at their institutions. With over 600 questions, the best-selling How to Master the UKCAT, 5th edition contains the most up-to-date and representative questions than any other book. Questions are designed to build up speed and accuracy across the five sections of the test, and answers include detailed explanations to ensure that you maximize your learning. Now including a full section on the 'situational judgement' questions introduced in 2014 and a brand new mock test to help you get in some serious score improving practice, How to Master the UKCAT will help you prepare for the test, learn the demands of each section and develop a winning approach that gets results.

Transform your students into smart, savvy consumers of the media. Mass Communication: Living in a Media World (Ralph E. Hanson) provides students with comprehensive yet concise coverage of all aspects of mass media, along with insightful analysis, robust pedagogy, and fun, conversational writing. In every chapter of this bestselling text, students will explore the latest developments and current events that are rapidly changing the media landscape. This newly revised Sixth Edition is packed with contemporary examples, engaging infographics, and compelling stories about the ways mass media shape our lives. From start to finish, students will learn the media literacy principles and critical thinking skills they need to become savvy media consumers.

Pulling examples straight from recent headlines, WRITING AND REPORTING NEWS: A COACHING METHOD, 8e uses tips and techniques from revered writing coaches and award-winning journalists to help you develop the writing and reporting skills you need to succeed in the changing world of journalism. Full-color photographs and a strong storytelling approach keep you captivated throughout the book. An entire chapter is devoted to media ethics, while ethical dilemmas in each chapter give you practice working through ethical issues before you face them on the job. Offering the most up-to-date coverage available, the Eighth Edition fully integrates multimedia content into the chapters-reflecting the way the news world actually operates. It also includes an all-new book glossary featuring many of the newer terms used in Journalism. Integrating new trends in the convergence of print, broadcast, and online media, WRITING AND REPORTING NEWS equips you with the fundamental skills you need for media careers now-and in the future. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

Macromedia's Flash 8 is the world's premier program for adding animation to websites. And with the latest version, this popular program becomes more versatile, letting beginning webmasters and expert developers alike create sophisticated web content. But Flash isn't intuitive. And it doesn't come with a manual. Whether you want to learn the basics or unleash the program's true power, Flash 8: The Missing Manual is the ideal instructor. This hands-on guide to today's hottest web design tool is aimed at nondevelopers, and it teaches you how to translate your ideas into great web content. It begins with a solid primer on animation, which helps you get comfortable with the Flash interface. Once you have these basics under your belt, Flash 8: The Missing Manual moves on to advanced animations, including adding special effects and audio, video, and interactivity to your presentations. When you're really feeling steady, the book shows how to use a dollop of ActionScript to customize your content. It then teaches you how to publish your Flash creations for web surfers everywhere to enjoy. Along the way, the book shows you good design principles and helps you avoid elements that can distract or annoy an audience. Author Emily Vander Veer has more than a dozen books to her credit, including titles on web design and scripting--most written for non-technical readers. Her background makes her the perfect author for a straightforward book on a complex subject. She takes Flash 8: The Missing Manual from the basics to the advanced, yet avoids a hasty jump into tough topics that can leave readers confused. Not only will Flash 8: The Missing Manual help you turn a concept into unique, dynamic content, but it will continue to serve as a reference as you develop your website.

This textbook introduces the "Fundamentals of Multimedia", addressing real issues commonly faced in the workplace. The essential concepts are explained in a practical way to enable students to apply their existing skills to address problems in multimedia. Fully revised and updated, this new edition now includes coverage of such topics as 3D TV, social networks, high-efficiency video compression and conferencing, wireless and mobile networks, and their attendant technologies. Features: presents an overview of the key concepts in multimedia, including color science; reviews lossless and lossy compression methods for image, video and audio data; examines the demands placed by multimedia communications on wired and wireless networks; discusses the impact of social media and cloud computing on information sharing and on multimedia content search and retrieval; includes study exercises at the end of each chapter; provides supplementary resources for both students and instructors at an associated website.

"A 22-volume, highly illustrated, A-Z general encyclopedia for all ages, featuring sections on how to use World Book, other research aids, pronunciation key, a student guide to better writing, speaking, and research skills, and comprehensive index"--

Widely regarded as the standard book on the British Media, this authoritative introduction to the history, sociology, theory and politics of media and communications studies has been substantially revised and updated to bring it up to date with developments in the media industry. Its three new chapters describe the battle for the soul of the internet, the impact of the internet on society and the rise of new media in Britain. In addition it examines the recuperation of the BBC, how international and European regulation is changing the British media and why Britain has the least trusted press in Europe.
