The South African labour market has undergone unparalleled reformations since 1994. This textbook, which is up to date with all the current legislation, provides a comprehensive text for students at tertiary institutions. It is also a valuable reference for Industrial Relationspractitioners.

Designing and Doing Survey Research is an introduction to the processes and methods of planning and conducting survey research in the real world. Taking a mixed method approach throughout, the book provides step-by-step guidance on: • Designing your research • Ethical issues • Developing your survey questions • Sampling • Budgeting, scheduling and managing your time • Administering your survey • Preparing for data analysis With a focus on the impact of new technologies, this book provides a cutting-edge look at how survey research is conducted today as well as the challenges survey researchers face. Packed full of international examples from various social science disciplines, the book is ideal for students and researchers new to survey research. Available with Perusall—an eBook that makes it easier to prepare for class Perusall is an award-winning eBook platform featuring social annotation tools that allow students and instructors to collaboratively mark up and discuss their SAGE textbook. Backed by research and supported by technological innovations developed at Harvard University, this process of learning through collaborative annotation keeps your students engaged and makes teaching easier and more effective. Learn more.

This handbook is an indispensable teaching, research and reference guide for anyone interested in issues of labour and employment. The editors have assembled a top-flight group of authors and the end-product is an encompassing state-of-the-art review of the industrial relations field' - Professor Bruce E Kaufman, AYSPS, Georgia State University 'This Handbook will quickly become the standard reference in industrial relations research. It provides the most comprehensive and challenging presentation of the key theoretical debates and topics of research that will shape our field well into the 21st century. All who wish to contribute to this field will need to read this volume and then build on what these authors have to say' - Professor Thomas A. Kochan, MIT Institute for Work and Employment Research 'This authoritative panorama of the field demonstrates the contemporary vitality, breadth and critical depth of industrial relations scholarship and research. Thirty-four stimulating essays, by an international blend of leading academics, expertly review the analytical and empirical state of play across all aspects of industrial relations enquiry. In doing so, a rich agenda for further scholarly endeavour emerges' - Paul Marginson, University of Warwick Over the last two decades, a number of factors have converged to produce a major rethink about the field of Industrial Relations. Globalization, the decline of trade unions, the spread of high performance work systems and the emergence of a more feminized, flexible work-force have opened new avenues of inquiry. The SAGE Handbook of Industrial Relations charts these changes and analyzes them. It provides a systematic, comprehensive survey of the field. The book is organized into four interrelated sections: " Theorizing Industrial Relations " The changing institutions that shape employment practice " The processes used by governments, employers and unions " Income inequality, employee wellbeing, business performance and national comparative advantages The result is a work of unprecedented scope and unparalleled ambition. It offers a compete guide to the central debates, new developments and emerging themes in the field. It will quickly be recognized as the indispensable reference for Teachers, Students and Researchers. It is relevant to economists, lawyers, sociologists, business and management researchers and Industrial Relations specialists.

This book focuses on the causes of starvation in general and famines in particular. The traditional analysis of famines is shown to be fundamentally defective, and the author develops an alternative analysis.

After describing the functions of the PC and the role of computers in local and global networks, the authors explain the fundamentals of data management, as well as the support of firms' functions and processes through information processing. The concepts utilized are deployed in a multitude of modern and integrated application systems in manufacturing and service industries. These application examples make up the core of the book. Many application examples illustrate the methodologies addressed.

Hartley sheds new light on neglected pioneers, and also examines a host of themes in the subject, including literary criticism, mass society, political economy, art history, teaching and feminism, anthropology and sociology.

Praise for the First Edition: 'It is a guide of vital importance to researchers, trainers and extension workers, especially those collaborating with communities in developing countries' - European Journal of Development Research 'There is much of value here that even experienced development workers might learn from.... Mikkelsen offers many insights that would be valuable to any economist undertaking field work in development' - The Australian Journal of Agricultural Economics 'An enthusiastic, vibrant supplement to methodology texts.... The formulation is concise, comprehensive, yet substantial' - Business Line 'Development researchers will be grateful to Mikkelsen for her laudable job in competently assessing their needs.... She provides an overview of the traditional and the new techniques and tools for field study' - Deccan Herald This completely revised version of the successful 1995 text covers a wide range of issues relating to research concepts and methods. It incorporates new lessons that have been learned regarding the merits and pitfalls of development work. Reflecting on how and why research in international development work has become a special case within the social sciences, this book provides innovative examples of participatory methods in action; methodological guidance on linking research purpose, questions and methods in qualitative and quantitative research; highlights new methods for development work and research like the Rights-based Approach, Appreciative Inquiry, the Social Capital Analysis Tool and Geomatics; emphasizes the gender perspective in development work; and discusses ethics, regulations and codes of conduct, as well as the question of encounters with `other` cultures.
