Audisee® eBooks with Audio combine professional narration and text highlighting for an engaging read aloud experience! Robots help people in many situations. Some robots rescue people trapped by tornadoes or earthquakes. Others explore volcanoes and the seafloor. And some help scientists protect our environment. How might helper robots affect your life? Read this book to find out!

Robots are clever machines that can move and do jobs for people. Robots are used to do work that is too boring or dangerous or hard for people to do. They can go places that people can't reach, like the bottom of the ocean or far out in space. There are robots that play games and some that help doctors and firefighters. What would you like to see a robot do?
