airplane ride. He began taking flying lessons at age fourteen, and on his sixteenth birthday he was issued a pilot's license.

~~Neil Armstrong Biography — childhood, children, young ...~~

Neil Armstrong was the eldest of three children born to Viola Louise Engel and Stephen Koenig Armstrong, a state auditor. Neil's passion for aviation and flight was kindled when he took his first airplane ride at age 6. He was active in the Boy Scouts of America and earned the rank of Eagle Scout, the highest rank attainable. He became a licensed pilot on his 16th birthday and a naval air cadet in 1947.

~~Neil Armstrong | Biography & Facts | Britannica~~

Neil Alden Armstrong (August 5, 1930 - August 25, 2012) was an American astronaut and aeronautical engineer, and the first person to walk on the Moon. He was also a naval aviator, test pilot, and university professor.. A graduate of Purdue University, Armstrong studied aeronautical engineering; his college tuition was paid for by the U.S. Navy under the Holloway Plan.

Description From the time he was a little boy, Neil Armstrong dreamed of flying. Read about how he turned his dream into reality - and how his incredible drive, determination, and talent took him all the way to the moon.

Presents the biography of the first man on the moon, covering his youth and his career as an astronaut.

Presents the biography of the first man on the moon, covering his youth and his career as an astronaut.

Much has been written about Neil Armstrong, America's modern hero and history's most famous space traveler. Yet shy of fame and never one to steal the spotlight Armstrong was always reluctant to discuss his personal side of events. Here for the first time is the definitive story of Neil's life of flight he shared for five decades with a trusted friend - Jay Barbree. Working from 50 years of conversations he had with Neil, from notes, interviews, NASA spaceflight transcripts, and remembrances of those Armstrong trusted, Barbree writes about Neil's three passions - flight, family, and friends. This is the inside story of Neil

Access Free Neil Armstrong Rookie Biographies

Armstrong from the time he flew combat missions in the Korean War and then flew a rocket plane called the X-15 to the edge of space, to when he saved his Gemini 8 by flying the first emergency return from Earth orbit and then flew Apollo-Eleven to the moon's Sea of Tranquility. Together Neil and Jay discussed everything, from his love of flying, to the war years, and of course his time in space. The book is full of never-before-seen photos and personal details written down for the first time, including what Armstrong really felt when he took that first step on the moon, what life in NASA was like, his relationships with the other astronauts, and what he felt the future of space exploration should be. As the only reporter to have covered all 166 American astronaut flights and moon landings Jay knows these events intimately. Neil Armstrong himself said, "Barbree is history's most experienced space journalist. He is exceptionally well qualified to recall and write the events and emotions of our time." Through his friendship with Neil and his dedicated research, Barbree brings us the most accurate account of his friend's life of flight, the book he planned for twenty years.

You've probably heard of Neil Armstrong and his historic moon landing. But other than that part of his life, what else do you know about him? This biography book will discuss the life of Armstrong before he even became
