Following on from the very popular first book *OCyNurse Facilitated Hospital Discharge* In these challenging economic times, with change and cost saving being predominant features in the NHS, I offer you, the reader, a thought: OC The faster the speed at which you travel, the further ahead you need to lookOCO, to adapt current practice, and align it to future needs, to deliver value for money.OCOLiz Lees*Timely Discharge From Hospital* is aimed at practitioners working in acute, community, intermediate and ambulatory care settings; all areas of practice are featured. Each section is arranged in themes but written to stand alone, allowing the reader to dip in and out. The book is further enhanced by a comprehensive selection of case studies.

Part 1: Fundamental perspectives of practice OCo there are 3 leading chapters which set the scene for the discharge of patients from hospital.

Part 2: The UK perspective OCo there are 4 chapters which demonstrate policy, practice and progress regarding discharge planning in England, Ireland, Scotland and Wales.

Part 3: Education and training OCo there are 3 chapters which interface theory with practice providing a sense of direction in education to lead and support practitioners wishing to develop mechanisms for training.

Part 4: Multi professional considerations of patient discharge in practice OCo there are 7 chapters which explore the contribution of different professionals to timely discharge practice. The Nursing coordination & complex discharge issues, Pharmacy, PALs, Medicine, Occupational Therapy and Bed management are all featured.

Part 5: Case examples in practice OCo There are 14 pragmatic cases which illuminate practice points from a clinical

Revised Working with Working with People Who Experience Structural Vulnerabilities chapter views vulnerable populations through a social

## Acces PDF Nurse Facilitated Hospital Discharge Paperback

justice lens. NEW! Enhanced content provides greater application to practice. NEW! Further clarification of the differing roles of CHNs and PHNS is provided.

This title is directed primarily towards health care professionals outside of the United States. Nursing practice needs to be informed by an understanding of people and the societies in which they live. This introductory text has been designed specifically to discuss those aspects of sociology which are most relevant to nursing and the health care context in which it takes place.

Ensure you're referencing the most accurate information surrounding nursing practice in today's neonatal intensive care unit with AWHONN's Core Curriculum for Maternal-Newborn Nursing, 6th Edition. Developed by one of the most authoritative associations in neonatal intensive nursing care, AWHONN, this renowned guide provides in-depth coverage of the most common neonatal disorders and their management — focusing on the latest evidence-based practice for preterm infants, medications, and antepartum-intrapartum complications. Additionally, the concise outline format makes information easy to find as it highlights the essentials of each condition including the definition, etiology, pathophysiology, signs and symptoms, diagnostic tests, treatments, and outcomes. With timely content that sets the standard for neonatal nursing practice, this trusted reference is an excellent resource for practicing nurses working in any NICU worldwide. Content developed by AWHONN, one of the most authoritative associations in neonatal intensive care nursing, ensures the information is both accurate and relevant. Concise outline format provides access to important nursing

## Acces PDF Nurse Facilitated Hospital Discharge Paperback

considerations associated with the management of the most common conditions in the neonate. Full-scope coverage of neonatal nursing practice provides information on families, ethics, legal issues, research, case management, the transition to home, and more. Focus on evidence-based practice related to preterm infants, medications, and antepartum-intrapartum complications sets the standard for neonatal nursing practice. Strategies to promote inclusionary care better reflect today's nursing care today with a focus on family-centered care, comprehensive perinatal records, health care teams in the NICU, and infant care best practices. NEW! Expanded information on breastfeeding and acquired opioid dependency keep you informed with the latest best practices related to these two everchanging areas. NEW! Updated neonatal resuscitation guidelines ensures you follow the most up-to-date protocols and procedures in this critical skill area. NEW! Additional tables and boxes help you quickly find important information.

This exciting new edition is again structured into four main sections: Organisational facets; Philosophical issues; Dimensions of practice; and Advancing practice, and has been expanded to include detailed guidance on the commissioning and resourcing of services. It provides essential information for implementing the requirements of the children's National Service Framework that will support the expansion of Community Children's Nursing and enable it to move forward and away from fragmented service delivery. Bringing together the work of some of the most distinguished experts in the field, there is comprehensive coverage of the key aspects of Community Children's Nursing, including multi-disciplinary/interagency planning; provision of nursing services to sick children and their families in a range of community setting;

## Acces PDF Nurse Facilitated Hospital Discharge Paperback

and the needs of both the recipients and providers of care within the trajectory of acute, life-limiting and terminal illness. The first - and only - book on this topic, addressed specifically at the Community Children's Nurse (CCN) An authoritative guide to the principles underpinning the development of the specialty, which puts into context the scope of the CCN's work and clearly describes his/her place in the community team) A balance of the theoretical and practical, presented by the key names in this field) Offers up-to-date "evidence" which supports the development of this rapidly expanding specialty) Foreword by Elizabeth Fradd, Independent Health Service Advisor, UK New chapters have been added on the topics of: Developing a national strategy and corporate identity for Community Children's Nursing Delivering and funding care for children with complex needs Strategic planning and commissioning of services Benchmarking Transitional care The following chapters have been rewritten and expanded: Young carers Complementary therapies Partnerships with the voluntary sector Health promotion Information management The role of the Community Children's Nurse Manager is also explored in depth.

Covering the nurse's role in promoting community health, Community/Public Health Nursing, 5th Edition is known for its "upstream" preventive focus and social justice approach, photo novellas with clinical stories, and a concise, readable style. It shows how you, as a nurse, can take an active role in social action and health policy — especially in caring for diverse population groups. Expert authors Mary A. Nies and Melanie McEwen discuss today's issues and trends, and describe the key issues and responsibilities of contemporary community/public health nursing. An "upstream" focus addresses factors that are the precursors to poor health in the

## Acces PDF Nurse Facilitated Hospital Discharge Paperback

community. A "social justice" approach promotes health for everyone. Photo novellas use photographs to tell stories showing real-life clinical scenarios and applications of important community health nursing roles. Case Study: Application of the Nursing Process feature presents specific community components of the nursing process separately from individual and family. Clinical examples offer snippets of real-life client situations. Research Highlights boxes show the application of current research to chapter content. Ethical Insights boxes highlight ethical issues and concerns. Healthy People 2020 boxes summarize objectives and their importance in community health. Objectives, key terms, and chapter outlines introduce important concepts and terminology at the beginning of every chapter. Learning Activities at the end of each chapter ask you to apply concepts to the world outside the classroom. New Health Promotion and Risk Reduction chapter details the promotion of health and presents strategies that can identify risk factors for illness. Faith Community Nursing chapter reflects current terminology from the ANA's Scope and Standards of Practice, and includes more coverage of the spiritual health of clients. Health: A Community View chapter expands its discussion of the continual challenges and strategies associated with the delivery of health care. Communicable Disease chapter includes new information about public health surveillance, outbreaks, and bioterrorism. Cultural Diversity and Community Health Nursing chapter features new content on complementary and alternative therapies.

This second edition of Foundations of Nursing Practice has been revised and updated specifically to meet the needs of nursing students in all fields of practice. The book explains how and why sensitive, safe, evidence-based holistic nursing care is carried out, including

## Acces PDF Nurse Facilitated Hospital Discharge Paperback

topics common to all fields of practice. Core nursing skills are emphasised to reflect the importance of clinical skills as well as the underpinning theory. Aids to learning in each chapter: Learning outcomes Interactive boxes for all age groups and fields of nursing practice Key words and phrases for literature searching Useful websites, references and further reading. This book provides a comprehensive introduction to nursing that will meet the needs of students, nurses returning to practice, mentors and other registered nurses. Relevant to all branches of nursing settings: infants, children, adults, pregnant women, older people and people with a learning disability or mental health problems Themes relevant to all stages and fields of nursing practice include safety, infection prevention and control, managing stress, communication, managing wounds and pressure ulcers, and dealing with loss Scenarios develop the skills of evidence-based practice, critical thinking, reflection and health promotion, and encourage further learning The areas of psychology, sociology, physiology and pathology are clearly related to nursing practice Key principles of health promotion, the law and ethics, the human lifespan and development are explained in earlier chapters, then applied in later chapters Cultural diversity information helps with understanding the needs of people from different backgrounds Person-centred approach encourages problem solving and application to practice Evidence-based practice is explicit throughout, and best-practice guidelines underpin exploration/explanation of nursing care. Easy-reference Glossary at the back of the book. Meets the requirements of the new pre-registration nursing curriculum including the NMC (2010) competencies and Essential Skills Clusters Greater emphasis on safeguarding vulnerable people, maternal health and first aid Self-test questions with answers available on accompanying website.
