The new edition of Nursing Care Planning Made Incredibly Easy is the resource every student needs to master the art of care planning, including concept mapping. Starting with a review of the nursing process, this comprehensive resource provides the foundations needed to write practical, effective care plans for patients. It takes a step-by-step approach to the care planning process and builds the critical thinking skills needed to individualize care in the clinical setting. Special tips and information sections included throughout the book help students incorporate evidence-based standards and rationales into their nursing interventions.

Get the need-to-know pharmacology nursing skills you need to succeed on the NCLEX® and beyond with Study Guide for Pharmacology and the Nursing Process, 9th Edition! Designed to accompany Lilley ' s Pharmacology and the Nursing Process, 9th Edition textbook, this workbook features worksheets for each chapter that include NCLEX-RN® Examination-style review questions, critical thinking and application questions, case studies, and other educationally sound learning activities. Chapter-by-chapter worksheets are divided into 3 main sections: Chapter Review and NCLEX Examination Preparation, Critical Thinking and Application, and Case Study. Chapter review and NCLEX® Examination preparation included in each chapter worksheet contains a number of application-based NCLEX practice questions, including at least one alternate-item question per chapter. Focus on prioritization features at least one prioritization exercise in which the student must evaluate a clinical scenario and answer the question: "What is the nurse ' s best action?" Overview of dosage calculations section contains explanations of key drug calculations, concepts, sample drug labels, practice problems, and a practice quiz. Learning strategies expands upon the unique, cartoon-illustrated study strategies included in the Lilley text. Answers for all exercises are provided at the back of the book to facilitate self-study. NEW! Updated content is completely current and ensures that the Study Guide content is consistent with the Lilley textbook. NEW! Expanded NCLEX® focus includes one to two additional NCLEX Examination-style questions for each chapter, including additional alternate item format types.

Answers the question, what do practical vocational nurses need to know and to be able to do in order to deliver safe and effective medical-surgical nursing care? This comprehensive book, in a brand new 3rd edition, prepares basic practical/vocational nursing students to care for adult clients with medical or surgical disorders or diseases. Completely updated with new information and an emphasis on the nursing role, it explains the risk factors, causes, and pathophysiology of common disorders and diseases, and reviews diagnostic tests and medical management of the disorders. A focus on nursing care is presented in a nursing process format—including assessment data to collect, nursing diagnoses with suggested interventions and their rationales, and evaluation data to determine the effectiveness of nursing care. Some exciting features include: Nursing process care plans Critical thinking self-checks Rationale for each nursing intervention. Nursing care and procedure checklists.

A reference to help nursing students and practising nurses select a nursing diagnosis and write plans of care with ease and confidence. The book provides care plans for every NANDA diagnosis and provides a quick access index of appropriate nursing diagnoses for over 1200 clinical entities.
