Defy the inevitable. Such is the stance of Confederation captain Eric Weston and the crew of the starship Odysseus, patrolling the outer limits of Priminae space, anticipating the Empire's next attacks. Connected with the Terran FTL tech--the transition drive--humanity might stand a chance against the overwhelming forces. Until the entire planetary system goes dark. Outnumbered and outgunned, the Odysseus arrives to find the Empire securing critical intelligence from Priminae ships--data that could prove disastrous in the wrong hands. As the Odysseus enters the fray, the ship's systems exhibit increasingly chaotic glitches, while haunting apparitions stalk the crew. As they struggle to control their own ship--and their sanity--against the tide of battle, how can they hope to grasp victory when the Odysseus itself appears to be coming to life?

A mysterious entity may be the key to a starship's survival--or a terrifying new threat--as the Odyssey One series continues... The Empire has set its sights on its next target: human Terrans. As effective allies of the Priminae, the denizens of Earth have proven themselves enemies to the Empire, and now the Imperial forces know more about the Terran home world than ever before. The battle for the planet's survival will see the Odysseus first into the breach. But more perils loom for Commodore Eric Weston and his comrades. They're at odds with the political conflicts dividing Earth's government and challenged by the mysterious presence haunting their vessel--its intentions unclear, and the extent of its powers unknown. As the Empire brings the battle home, the crew of the Odysseus will need to determine whether this entity will support them in their fight for survival, or prove to be another dangerous foe. There's no turning back...and the only way forward may be a pathway to doom.

'Beyond the confines of our small world, far from the glow of our star, lies a galaxy and universe much larger and more varied than anyone on Earth can possibly imagine. For the new NAC spacecraft Odyssey and her crew, the unimaginable facets of this untouched world are about to become reality. The Odyssey's maiden voyage is an epic adventure destined to make history. Captain Eric Weston and his crew, pushing past the boundaries of security, encounter horrors, wonders, monsters, and people, all of which will test their resolve, challenge their abilities, and put in sharp relief what is necessary to be a hero. A first-rate military science fiction epic that combines old-school space opera and modern storytelling, Into the Black: Odyssey One is a riveting, exhilarating adventure with vivid details, rich mythology, and relentless pacing"--P. [4] of cover.

Headed by Captain Holly Crowe, the spaceship Velocity's crew journeys toward their alien ancestors' homeworld, and what they find is completely unexpected--and they're not safe

Deep in blackest space, the Drasin have watched humanity's journey to the stars--and determined that a species as barbaric as ours has no place in the cosmos. The wreckage of the starship Odyssey, once Earth's greatest guardian, lies strewn across New York City. Abandoned by all but its captain, Odyssey's sacrifice covered the withdrawal of countless troops as the Drasin assault ravaged the planet. When Captain Eric Weston finally emerges from the rubble, impossibly alive thanks to the mysterious "Gias," he knows with the Drasin it's kill or be killed. But not all of the heavens have proven hostile. The Priminae have felt the full brunt of Drasin aggression on their own home world, and they won't leave humanity to face annihilation alone. Together with what's left of the crews of the Odyssey and other starships, they race to join Weston and his group of Earth-bound survivors for a desperate last stand. The final battle of the Drasin War brings bestselling author Evan Currie's Odyssey One series to its shattering conclusion.

Battle-weary after a desperate fight to save Earth from the Drasin alien onslaught, Confederation Captain Eric Weston is tasked with a perilous new mission. He and the crew of the "Odysseus" must hunt down those who unleashed the hellish attack on his homeworld and that of Earth's Priminae allies. But the situation turns dire when they catch sight of a ship belonging to the mysterious beings who orchestrate the fearsome Drasin's depredations. This powerful Empire, it seems, has two primary aims: to conquer new worlds and settle old scores. Weston's ultimate objective: keep humanity from becoming collateral damage as the Drasin war expands to engulf the galaxy.'

Reveals the striking parallels between indigenous cultures of the Americas and the ancient Homeric world as well as Tolkien's Middle Earth • Explores the shamanic use of healing songs, psychoactive plants, and vision quests at the heart of the Odyssey and the fantasy works of J. R. R. Tolkien • Examines Odysseus's encounters with plant divinities, altered consciousness, animal shapeshifting, and sacred topography--all concepts vital to shamanism • Reveals how the Odyssey emerged precisely at the rupture between modern and primal consciousness Indigenous, shamanic ways of healing and prophecy are not foreign to the West. The native way of viewing the world--that is, understanding our cosmos as living, sentient, and interconnected--can be found hidden throughout Western literature, beginning with the very origin of the European literary tradition: Homer's Odyssey. Weaving together the narrative traditions of the ancient Greeks and Celts, the mythopoetic work of J. R. R. Tolkien, and the voices of plant medicine healers in North and South America, the authors explore the use of healing songs, psychoactive plants, and vision quests at the heart of the Odyssey. The Lord of the Rings trilogy, and Tolkien's final novella, Smith of Wootton Major. The authors examine Odysseus's encounters with plant divinities, altered consciousness, animal shapeshifting, and sacred topography--all concepts vital to shamanism. They show the deep affinities between the healing powers of ancient bardic song and the icaros of the shamans of the Amazon rain forest, how Odysseus's battle with Circe--wielder of narcotic plants and Mistress of Animals--follows the traditional method of negotiating with a plant ally, and how Odysseus's journey to the land of the dead signifies the universal practice of the vision quest, a key part of shamanic initiation. Emerging precisely at the rupture between modern and primal consciousness, Homer's work represents a window into the lost native mind of the Western world. In this way, the Odyssey as well as Tolkien's work can be seen as an awakening and healing song to return us to our native minds and bring our disconnected souls back into harmony with the living cosmos.

An elite squadron must go undercover behind enemy lines in this thrilling new space adventure from the author of the Odyssey One series. Humanity has reached an uneasy truce with the Empire--but unless the allies bring the fight to the enemy, extinction is all but assured. In preparation for the inevitable next war, Commander Stephen Michaels is at the helm of the Archangel Squadron, and his orders are simple: go rogue. Disguised as mercenaries, Commander Michaels and the Archangels seek valuable intelligence on their imposing foe. Their mission takes them deep into uncharted territory, where they make inroads with the Empire, fiercely guarding their true identities and purpose. Fighting for the enemy goes against everything they stand for, but these are desperate times. As their deception increases, so does the risk. With the Empire's deadliest secrets within reach, Commander Michaels and the Archangels accept a mission that will take them even deeper into the Imperial fold. They know all too well that one wrong step won't just end their lives--it could end their entire civilization.

The Goddess War begins in Antigoddes, the first installment of the new series by acclaimed author of Anna Dressed in Blood, Kendare Blake. Old Gods never die... Or so Athena thought. But then the leathers started sprouting beneath her skin, invading her lungs like a strange cancer, and Harnes showed up with a fever eating away his flesh. So much for living a quiet eternity in perpetual health. Desperately seeking the cause of their slow, miserable deaths, Athena and Hermes travel the world, gathering allies and discovering enemies both new and old. Their search leads them to Cassandra--an ordinary girl who was once an extraordinary propheteess, protected and loved by a god. These days, Cassandra doesn't involve herself in the business of gods--in fact, she doesn't even know they exist. But she could be the key in a war that is only just beginning. Because Hera, the queen of the gods, has aligned herself with other of the ancient Olympians, who are killing off rivals in an attempt to prolong their own lives. But these anti-gods have become corrupted in their desperation to survive, horrific caricatures of their former glory. Athena will need every advantage she can get, because immortals don't just flicker out. Every one of them dies in their own way. Some choke on feathers. Others become monsters. All of them rage against their last breath. The Goddess War is about to begin. At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

After the death of his wife, Matt Caine's in-laws threaten to take custody of his daughter Anna, which leads Matt to the desperate situation of trusting the wrong person to help with the situation.
