Jason Burke was a man hiding from himself in a small cabin high in the American Rocky Mountains when his simple, quiet life was shattered one night by what he first assumed was an aviation mishap. But when he investigates the crash, what he finds will yank him out of his self-imposed exile and thrust him into a world he could have never imagined. He suddenly finds himself trapped on a damaged alien spacecraft and plunged into a universe of interstellar crime lords and government conspiracies, along the way meeting strange new friends... and enemies. As he struggles to find his way back home he is inexorably drawn deeper into a world where one misstep could mean his death. Or worse. He desperately wants to get back to Earth, but it may be the end for him. ... or is it just the beginning?

Now that he knows a malevolent AI that calls itself the Machine has seized much of the ConFed's military apparatus and even controls the Grand Adjudicators themselves, Jason Burke must decide if he risks picking a fight with such an overmatched enemy, or if he runs to hide and fight another day.

Ever since he joined Omega Force, Captain Jason Burke has lived with the underlying fear that one day Earth would be discovered. His desire to keep Earth's existence and location a secret has driven him to extremes, and kept him far away from his homeworld for a long time. But now Jason's greatest fear is realized, and a fleet of alien ships has attacked his planet. Omega Force rushes to Earth's defense, but the ships are like none they've ever encountered, and employ weapons they have no defense for. Will their lone gunship be able to slug it out with the unknown fleet holding the planet hostage? Or will this be a one-way trip for the crew of the Phoenix?

First they stole her planet. Then they stole her sister... Her twin might have surrendered to the enemy, but Max will never stop fighting the alien warriors that conquered Earth. She's the leader of a rebel army determined to fight for freedom and the future of the human race. The Tolath are her enemies, and she will never surrender to any of them... especially not to him. Warr is coming... He let her escape him once. She won't get away again. Warr caught her scent once, and he'll never forget it. Whoever she is, wherever she is, he'll find her. And when he does he will learn all her secrets and teach her the consequences of running from a Tolathian general. His mission - retrieve his target and bring her back untouched and unclaimed. But no plan survives contact with the enemy, and Max is like no adversary he's ever faced before. She's beautiful, dangerous... and his. This series contains hot, growly aliens on a mission to find their mates - and a group of women determined to free their planet... and themselves. Keywords: alien romance, shifter romance, alpha hero, alien invasion romance

It started with a revolution nobody had even realized occurred...Its cruelty sparked a rebellion that everyone refused to admit existed...Now, the Machine-a terrifying and relentless enemy-reigns supreme in the galaxy, and the real fight is just beginning.Omega Force keenly feels the weight of responsibility for the Machine's arrival in the quadrant, but even with the resources of the Blazing Sun organized crime syndicate backing them, there's only so much the small mercenary crew can do against the malevolent AI that has already usurped control of most of the government. With the Machine now firmly in control of the ConFed's military, they are out of time and out of options. Captain Jason Burke knows that along with the Machine, something else came back from the outer regions... something he's kept a secret from everybody, even his own crew. He knows that he likely has the power to stop the Machine in its tracks, but it means unleashing an equally uncontrollable force. As he struggles to know what the right thing to do is, he can't help but fear that the cure could very well be worse than the disease. The Pandora Paradox is the 12th installment of the bestselling Omega Force Series.

Jason Burke is a broken man. The loss of his friend and crewmate on an ill-fated mission to a Pillar World has left him in a downward spiral of rage and self-destruction. But what if Lucky hadn't actually died on that planet? While Omega Force tries to pull itself together for the sake of their friend they also learn that a ruthless new faction has seized control of the ConFed Council and now threatens the stability of the entire quadrant. To make matters worse, the rise of this new regime might be their fault. Jason's loyalties are pulled in all directions as he tries to not only help his friend but also correct a horrible mistake from his past. Will his refusal to sacrifice either mission cause him to fail at both? Legends Never Die is book ten in the bestselling Omega Force Series.

Humanity is fractured and on the brink of war...The United Terran Federation and the Eastern Star Alliance have been fighting in minor skirmishes along the border region for the last few years, but now it threatens to break out into a full-on war with the victor assuming control of all human space.The Alliance has fired the opening shots with a horrific strike on a civilian target, killing millions and shocking the Federation's parliament into action. Now mighty fleets of starships are moving against each other, ready for the final battle that will settle the conflict once and for all. The venerable Admiral Jackson Wolfe prepares himself for one last fight as his nemesis, Admiral Vadim Kohl, looks to make a name for himself by defeating the infamous Federation officer in battle. Jackson knows events are now in motion that can't be stopped and only one thing is certain: win or lose, nothing will ever be the same again.

Aleister Crowley's The Book of Lies is an important and complex work of occultism. Deciphering its many layers of hidden meaning requires a little patience and more than a beginner's knowledge of Thelema. For those interested in passing beyond the initiate stage, the reward offered by a deeper understanding of this challenging text is well worth the effort. This new 2018 edition of The Book of Lies from Kismet Publishing restores all of Crowley's original text, including the important keys, sigils and diagrams often omitted from reprints.

The Phage War had been a devastating conflict for the Terran Confederacy. Even with the destruction of their terrifying, implacable foe, humanity is still reeling. Political alliances are crumbling and their mighty fleet is in tatters. There is nothing to celebrate, even after such a complete victory. They soon learn that there are other stellar neighbors ... and they've been watching the conflict with great interest. One species comes with an offer of friendship and alliance, but humanity is weary and distrustful, their only interactions with aliens having resulted in the near-eradication of their kind. Before the ashes of war have been fully swept away Captain Celesta Wright is dispatched to the Frontier with a small taskforce to investigate a mysterious signal while the Confederacy struggles to hold itself together. A partnership with this new species could help accelerate the recovery effort, but is the offer too good to be true? Can humanity risk another fight with an advanced alien species right on the heels of the bloodiest war that had ever been waged? New Frontiers is the first book of the Expansion Wars Trilogy, an all adventure in the Black Fleet universe.
