Oracle Alerts

(TS4500) tape library

is a next-generation tape solution that offers higher storage density and better integrated

management than previous solutions.

This IBM Redbooks® publication gives you a close-up view of the new IBM TS4500 tape library. In the TS4500, IBM delivers

Read Book

Oracle Alerts

the density that R12

today's and tomorrow's data growth requires. It has the cost-effectiveness and the manageability to grow with business data needs, while you preserve investments in IBM tape library products. Now, you can achieve a low cost per terabyte (TB)

Read Book

Oracle Alerts

and a high TB density per square foot because the TS4500 can store up to 11 petabytes (PB) of uncompressed data in a single frame library or scale up to 2 PB per square foot to over 350 PB. The TS4500 offers the following benefits:

High availability: Dual active accessors with

Read Book

Oracle Alerts

Integrated service R12

bays reduce inactive service space by 40%. The Elastic Capacity option can be used to eliminate inactive service space.

Flexibility to grow:
The TS4500 library can grow from the right side and the left side of the first L frame because models can be placed

Read Book

Oracle Alerts

in any active position.

Increased capacity:

The TS4500 can grow from a single L frame up to another 17 expansion frames with a capacity of over 23,000 cartridges. High-density (HD) generation 1 frames from the TS3500 library can be redeployed in a
